ceived all the Medals awarded to either of the competing machines, and two Medals more than any other obtained. Then, in the name of truth, what is it that prompts people to claim recommendations for the Diploma of Honor? The fact is, no Diploma of Honor has been given to any Sewing Machine Company. But immeasurably more valuable is "The World's Award,"

as shown by sales—proved by sworn returns to the owners of the principal Sewing Machine

Patents—which last year amounted to 219,758 Machines, nine out of ten of them being for

family use. This is over 45,000 more Sewing

Machines than were sold by any other company

during the same period, and over one-quarter of all the Machines sold in 1872. These enor-

mous sales are owing to the long-tested merits

of the SINGER Machines, which meet the wants of the public in superiority and simplici-ty of construction, and capability for great va-

riety and excellence of work. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of

texture which it will sew with equal facility and perfection, using silk twist, linen or cotton

thread, fine or coarse, making the inter-locked elastic stitch, alike on both sides of the fabric
