It gives us pleasure to commend most highly a recent appointment of Gov. Moses, which does credit to his administration.

Summer's Successor.

The Massachusetts Legislature has been balloting for United States Senator for the last several weeks. The twenty-second ballot has been reached, and as yet there are no indications as to the final result.

The Connecticut Election.

The full and complete returns of the election held in Connecticut last week show that the Democracy carried the day by an overwhelming majority, utterly routing the enemy in every particular.

Taxation in South Carolina.

We have always imagined that the administration in South Carolina had been under the control of the Radical party for the last six years. But it seems that the news from home is more accessible at a distance, and in point of fact (?) the Democrats are responsible for the high taxation in this State.

"At Arlington."

One of the most charming spots in the vicinity of the nation's capital is the famed Arlington estate, so long the abode of generous and high-bred hospitality.

The Calhoun Monument.

There has been considerable discussion in the public prints as to the proper disposition of the funds accumulated for the erection of a monument to Hon. John C. Calhoun, and numerous propositions have been submitted for its disposal, some adhering to the idea that the money should be devoted to the original purpose of erecting a marble shaft in honor of the illustrious statesman.

Immigration.

Mr. Editor: It was with much regret that we witnessed the scant attendance of our people at the public meeting, which was called here last Saturday, to consider the deeply important subject of immigration.

ALARM OF FIRE.

About 8 o'clock on Sunday night last an alarm of fire was given by the Marshals, and many citizens repaired to the scene. The fire was at the residence of Mrs. Todd, on Main street, and was caused by the burning out of a chimney. A few sparks fell on the roof, and probably would have done much damage, but were speedily extinguished.

BAD APPEARANCE.

Our attention has several times been called to the bad appearance of most of the buildings on the Public Square, and upon examination we find them in a worn condition. On Granite Row, the Masonic building and Brick Range, in a great many places, the outside plastering is cracked, or has fallen off altogether, and the pointing between the bricks has dropped out in several places.

HOMICIDE.

Our usually quiet town, which has always been noted for its order and the total absence of the crime of shedding human blood, was, on last Wednesday evening, the 8th of April, the scene of a heinous and bloody homicide.

THE WHITTEMORE DELEGATION.

The New York Tribune has a faint conception as to the real merits of the Whittemore delegation to Washington, which is evidenced by the following extract from its editorial columns: "There is now at Washington a delegation of men from South Carolina, charged with the duty of denying the charges made by the Tax-Payers' Convention."

THE CHICAGO TRIBUNE.

The Chicago Tribune concedes that the Radical-Republican party has recently experienced its second stroke of paralysis to be followed by an apoplectic collapse in November of this year. "It is," says the Tribune, "stripped of the allies by whom it has been kept in power. It is abandoned—as in Connecticut—by the disgusted people, who have tired of its corruptions. It is left to its fate by every man who feels the rigor of taxation and the extortion of the plunderers, and its end will be accomplished in the Fall by the great body of the agriculturists."

THE YOUNG MEN'S SOCIABLE CLUB.

A large number of the young men of the town belonging to this Club met in the Club Room on the evening of the 8th of April, for the purpose of taking further steps to perfect an organization, and to hear the report of a committee appointed at a previous meeting which was to inquire into the expediency of such an organization.

THE CHAIRMAN'S ADDRESS.

The Chairman then declared the Club ready for business, and further stated that he hoped it would select intelligent and industrious young gentlemen for officers, for upon that depended the success of the organization. The report of the Committee was then received, which recommended the immediate election of officers, and the appointment of various committees to assist the officers in perfecting the organization.
