## All is Well That Ends Well.

Katharine Forsyth was a brave woman, else I should not have this story to write, but the terrible wilderness of the night, the furious lashing of the rain, the roar of the angry sea, made her falter for a moment upon the thresh-hold before going out. The wind in that one moment whirled past her, and blew open the half-shut library door, bringing her father from the room to see what had happened.

"Katharine, you are not going out?" in

amazement.

There was certainly no hesitation in her voice, and something in her eyes made her father careful of his next words.

"Let me go if it is a necessary errand." "It is a necessary errand, but one which my father would not wish to attend to," she said, with her eyes looking straight into his. "A messenger brought me word five minutes since that Courtney Alcott's vessell was upon the rocks at Bay Stone Point."

"You will do nothing unwomanly, I trust," Mr. Forsyth said, in real alarm now, as he took his rubber coat from the rack and hastily put

"You had better not go, father, if you are afraid of me," she said as quietly as before, though he saw well enough it was a forced quiet, "for I am afraid of myself to-night. One thing certain, if Captain Alcott lives to see me again, he will know that I love him, and that it was no fault of mine that he

thought differently six months ago."

Mr. Forsyth fairly groaned. He had been so sure of her, and so certain, only this very evening that she would accept his plans for uniting the house and the lands of the Forsyths and the Holworths, but now this plebian, that he hated as he hated poison, must come between him and his most cherished hopes.

There are times when such a thing as authority with a parent is not, and cannot be thought of. This was the time. He must go with her, and while her face held that awful look, if he was a wise man there would be little said.

It was a full mile to the Point, and they started out, silent and anxious. He hoped in his heart that the vessel would go to atoms, though he dared not think that he hoped so, though as he strode on beside his quiet daughter, he had some doubts whether that event would mend the matter in the end. Katharine had, from her young girlhood-she was now twenty-three-been a most incomprehensible person to those who knew her best, and a year back she had reached the climax of incomprehensibility by accepting, tacitly, the almost reckless adoration of Captain Alcott, who cared as little for her aristocratic blood as any man living, but who would, almost if not quite, have laid down his life, if need be, for the love of this woman.

Katharine's father had managed to see him alone when he came to make his last call before sailing, and in reply to the Captain's ques-tion if he would entrust his daughter to his keeping, Mr. Forsyth had answered that he could not, because other plans were matured for her, and Katharine was engaged to-day—would he excuse her?—and had bowed him out ply to amuse us. There is a vast difference for her, and Katharine was engaged to-day—would he excuse her?—and had bowed him out with all the politeness of an Earl, and the Captain had gone out to sea cursing the proud we denominate entertaining; we laugh with father who had stood between him and the the former and reflect with the latter. dearest hope he ever had, and almost cursing

on, for not a man would follow the mad woman, though Mr. Forsyth effered them more money than most of them had seen at once in all their lives, if they would make the attempt. He could not row himself, and so half-crazed, knowing how well he loved his child, he had to endure, as best he might, the horrors of that time, which his heart told him would end in cer-with: "Ma, I do feel awful lonesome in this tain death. At last, as the morning began to dawn, a life-boat was thrown upon the shore, scattering its freight of half lifeless bodies, but it was not Katharine's boat, and neither she nor the bo retired. The next night during a thunder

She had someway outlived the stormy night, and though drifting helplessly out to sea, her oars had been lost long before, she was alive, and kept up a faint courage until she knew that help was coming. When they lifted her on board she lay like one dead, and for hours afterward she only repeated deliriously in answer to her father or her lover: "You will let him drown, you will let him drown!"

### Iron in the Blood

### MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as casily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "athousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for

disease to feed upon.
This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are resymment, infution, but are permanent, infu-sing strength, vigor, and new life into all parts of the system, and building up an Iron Con-

Thousands have been changed by the use of this remedy, from weak, sickly, suffering crea-tures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

CAN receive immediate attention and permanent relief. With the Otoscope for examining the Ear, the Ophthalmoscope for examining the Eye, the Laryngoscope for the Throat, he is able to detect, and treat successfully, troubles that have heretofore been considered incurable. As to his success in the treatment of Eye diseases, he invites attention to the following certificates:

cates:

ANDERSON, S. C., August 1st, 1873.

This is to certify that I have been blind for the last three years, during which time I have spent several hundred dollars in trying to obtain relief, the greater part of which I spent in Atlanta, Ga., under treatment of Dr. Hooton, without obtaining any relief whatever. I had almost despaired of ever being able to see, when Dr. J. W. Gurley informed me that my case was Cataract, and, by an operation, he believed that he could restore my sight. I consented, and on the 17th of February last, he operated upon my eyes. On the seventh day after, I was able to distinguish objects at a distance. My sight has improved ever since, and now (Aug. 1st) able to distinguish objects at a distance. My sight has improved ever since, and now (Aug. 1st) feel that, with the aid of my glasses, I can see as well as any person of my age (67), and am able to attend to all my business—which renders me a happy man, being brought from Darkness to Light. I can cheerfully recommend Dr. Gurley to persons suffering with any disease of the Eye.

MATTHEW SNIPES.

ABBEVILLE C. H., S. C., May 13th 1873.

Dr. J. W. Gurley—Dear Sir: I have been almost blind for quite three years, caused by Granular Ophtalmia, and general inflammation of the Eyes. I was under treatment of Dr. Voorhees, (Ophthalmic Surgeon,) of Memphis, Tennessee, one year; and at the expiration of that time, found myself very little improved. I had about despaired of ever being able to enjoy perfect vision again, when my attention was called to your advertisement. I made up my mind to try your skill, hoping at least to get rid of the terrible inflammation, which rendered me almost crazy at times. My hopes have been more than realized within the remarkably short time of eight weeks. The inflammation is all gone—granulations very nearly so. The lids have resumed their normal appearance, and my sight is perfectly restored. I can read the smallest print with ease, without the aid of spectacles. I can recommend those suffering with any disease of the Eye to call on you at once.

THE celebrity of the JANUARY INFIRMARY, established in Murphreesboro, Tenn., in 1848, associated the above name with the treatment of Cancer until they became synonymous, both passed away with the war. But great discoveries, like truths, live forever. Dr. J. O. JANUARY, inheriting his father's talents, and improving on his experience, has achieved a success in advance of their former history, owing to his increased patronage he has permanently located in St. Louis; the numerous letters he is receiving, and large arrival of patients, justify his move to this central point. We would advise all afflicted with Cancer, Scrofula, Fistula, Piles, &c., to apply to him, as he possesses perfect control of those diseases, without pain or the knife. Address,
