factory excuse.

The Death of the Vice President. The news of the death of Henry Wilson, Vice President of the United States. was communicated by telegrams to every section of the country on last Monday. This intelligence was not altogether unlooked for, as Mr. Wilson had been stricken with something like apoplexy several days previous to his death. He died in Washington City on last Monday at 71 o'clock in the morning. He rested well the previous night, and none of his attendants regarded him as in immediate danger until a few moments before he expired. Mr. W. was in public life 2 number of years, and previous to the war identified himself with the abolition party, and was particularly hostile to the South. Subsequently to the war, and especially after his visit to the South and West, Mr. W. opposed the ruthless crusade which the government waged against the South; and in the South his death will be regretted.

Thos. W. Ferry, of Michigan, who, at the special sessions of the Senate in April last, was elected President protem., succeeds Mr. Wilson as Vice Presi-

dent of the United States. Our Congressional Representative.

> The Beaufort Tribune (Independent Republician) makes the following comment upon the curious style in which modern reformers are saving money to the State. As a general rule, money spent in advertising is a paying investment, but it would be difficult for any one to work out the problem satisfactorily in this instance: "There is no question as to the sincerity of the Columbia officials in their desire for retrenchment. The latest instance is the need of twentyfive cords of wood for the State House. for which proposals are invited through advertisements in the Charleston News and the Union-Herald, We calculate that the wood is worth about two dollars a cord in Columbia, and the charges for dvertising for the desired quantity amounts to-say four squares and six insertions in each paper-forty-eight dol-

lars, or enough to buy the wood."

aggregate to millions of dollars, while The Grand Division of the Sons of in other respects they are unsatisfactory, and fall short of the benefits which ought Temperance met in Charleston on to be realized. The commission system Wednesday, the 17th inst. Col. W. Z. of the order is said to be false in theory Leitner, the Grand Worthy Patriarch, and unjust to members, and therefore in the minds of the committee another method of selling is deemed necessary for the good of the order. Such a system the committee beg leave to submit showed ninety-nine Divisions in the plans of at a future day, and they say State, and represented them as being they are satisfied it will meet with gengenerally in a prosperous condition.

Anderson County is acknowledged to be eral approval. In conclusion, the committee recommend the employment of lecturers to canvass the country and make known the true aim and objects of the order, thereby correcting the wrong impressions which now exist in the minds sented at from 3,500 to 4,000. Various of many worthy people concerning the Patrons of Husbandry.

The Chairman of the Mississippi Democratic State-Committee has issued an address asking the people of that State to unite in the observance by appropriate religious ceremonies of the thanksgiving Day appointed by the President, making the occasion one of special praise and thanksgiving for the deliverance of Mississippi from the rule of vice and ignorance, as well as one for invoking the Divine blessing upon their efforts to restore good government and material prosperity, and to promote the intellectual and advancement of that afflicted Commonwealth. The address advocates moderation and magnanimity toward the defeated party who have brought such disasters upon the State, deprecates the exhibition of any prejudice against race, urges an improvement of the common school system, and the adoption of such measures by the newly elected Legislature as shall place Mississippi, "by a just and wise policy, in her normal relations with the other States of the Union, and with the general government, whereby she may contribute her full share to the common glory and prosperity of the nation." The people of Mississippi, by their wise policy of conciliating the respectable blacks, while avoiding all entangling alliances with disreputable negro and carpet-bag politicians, have won a splendid victory, which they evidently intend to improve by a judicious and conservative

For the Anderson Intelligencer.

ANDERSON, S. C., Nov. 12, 1875. MESSES. EDITORS: As a matter of pub lic interest, we respectfully ask space i your valuable paper, to publish the following facts: The undersigned were indicted, as they

are informed, by the order of O. H. P. Fant, Esq., chairman Board of County Commissioners, before John C. Whitefield, Esq., one of the Trial Justices for this County, upon the charge of refusing to work the public road leading from Little Beaver-Dam Creek to George W. Maret's, Esq. All the parties except J. R. Callaham and J. A. P. Barton were acquitted for the following reasons, viz: J. M. Jolly and R. T. Barton becaus they had never been warned; J. M. Herring because he had not the two days' notice, as required by law : J. T. Compon because of his not being a citizen of the State at the time, and, further, on account of a certificate from his physician that he was sick and unable to perform manual labor; T. S. Cole because of the preaching of his sister's funeral, which he desired to attend. It was proved that Barton, one of the convicted, in accordance with a summons from the captain, worked on another road in the same h with the excention about one-half mile, was more convenient for him to work than was the other road. This, it seems to us, showed ro disposition to shirk his duty as a citizen, nor to intentionally violate the law, but as the powers and discretion of the overseers in the different highway districts in arranging the companies and prescribing the time each shall work is absolute, the Court ruled that it was no justifiable excuse. While it may violate the strict letter of the law, we do not think it in harmony with the spirit and humanity of the law. He worked the road as long and faithfully as any other member of the company under the orders of a captain appointed by the overseer, and as a matter of justice he should have been excused. There is another reason why we should have been acquitted. After we had diligently worked the road for three days and one-half, and thought we had completed all the repairs necessary, we were told by the captain that should we be summoned again to work, not to obey it, but fight it out. This, we hold, amoun ted to no warning at all ; and if the official or officials who instigated this prosecution are so exceedingly eager to dis-charge promptly and faithfully and impartially the duties of their office, it strikes our unsophisticated minds that the above facts furnish ample material

for them to show it. But, above all other things, (and we ask the judgment of the people if we are not right) we denounce as an outrage the bringing of us to Anderson Court House to be tried when there were two other Trial Justices near us who were qualified n law to hear the case. The day before the trial we left our homes, distant from sixteen to seventeen miles, and camped in the woods during the night, amidst an ncessant and pouring rain. We are poor boys, have to use every economy to make ends meet, and were unable to go to a hotel and get comfortable lodging; hence, besides losing two days from our farms, which is no small item at this season of the year, our health was seriously endangered by being subjected to a night's cold and drenching rain. We thought, and still think, that the object of the law in distributing the Trial Justices in the different townships was for the convenience of the people, and for that reason we made an affidavit before Mr. Whitefield to that effect, and also that we could not get a fair and unprejudiced trial before him. Therefore, we moved a transfer of the case, which was refused. In justice to Mr. Whitefield, we will state that our fears as to him were mistaken.

We now think he tried to do his duty. We now request our Senator and Repesentatives to introduce a law removing the objectionable features above mentioned, and save their constituents from being dragged fifteen or twenty miles to be tried when charged with violating the law. If not, let all the Trial Justices live at the Court House, and all criminuls, or supposed criminals, be tried there. We request them further to limit the powers of overseers of highway districts. In our case we wanted to prove that the road was well worked, and that that the road was well worked, and that it was not necessary for us to have been recalled, but the Court refused to let us introduce this evidence, as that matter was left entirely in the discretion of the overseer, who, by the way, can neither read or write. Respectfully, &c.,

J. R. CALLAHAM, J. A. P. BARTON, J. M. JOLLY, R. T. BARTON, J. M. HERRING, T. S. COLE, J. T. COMPTON.

Our New York Letter.

NEW YORK, Nov. 20, 1875. More glorious weather than that we are portment; it inspires them with a dispoopera, theatres, etc., and gives the lessees the losses for some months sustained; and it is responsible to a palpable extent for the revival in trade which is under way, and which it is devoutly to be hoped will continue henceforth to grow rapid ly; for should there be no further advancement toward our old standard of commercial activity there needs must be sore and widespread distress in the city during the coming winter. Matters were bad enough with the poor eight or ten months ago, but only a rapid progress in the path of improvement will put employ ment within the grasp of such a proportion of our large population as to stave off an exaggeration of last winter's ills.

San Francisco to Portland, Oregon.picked up floating on the pilot-house of the Pacific in an exhausted condition, to have gone down before some of the lifeboats aboard could be manned and lowered is hard to believe. It is very likely that Jelly's report, though honest, is not full, and that he is not in the possession of all the facts. There is yet hope the calamity is less stupendous than at first appeared. If subsequent reports do

dest on record. tics, and whose nefarious abuses have in many cases brought them in utter disrepute. This aversion took practical shape at the last election and is wholly responsible for the Democratic failure, as there is little if any change in the essential

In Brooklyn, if they mean all they say, they are going in for reform with a vengeance. They promise to redress the wrongs against which texpayers have been all along resolutely but ineffectually protesting, and as a first step in this direction, propose undertaking a very congenial work-viz., the criminal prosecution of the rings who have been systematically plundering the city. To this end the Taxpayers' Association is actively at ing their stay. work preparing affidavits which will bring the rogues to justice. What a sorry figure they will cut if all be true that is alleged against them. The termination of their career is another proof of the uncertainty of politics and another argument in favor the old saw "honesty is the best policy." Potentes de sede depositi sunt, and it is to be hoped their successors will not lay themselves open to the possibility of so ignomious a deposition. We need honest men and true more than politicians for the direction of local affairs, and until this principle be recognized we can never hope to get the

best men to the front. universal rejoicing will be afforded; for

then anoth else that has come to light

during the century in America. Speaking of matters ecclesiastical, i may be as well to say that Messrs. Moody and Sankey, though doing a good work at the Brooklyn Rink, have nevertheless not created a sensation such as the furore their English trip caused led to the an ticipation of. The cause of the difference in the results is the difference of the circumstances under which their labors in the two countries have been conducted In England their methods were novel here they are only an improvement upon what takes place in all parts of the country at camp and revival meetings. It is isfactory, however, to know that they are doing good; and in Brooklyn they certainly have a wide field.

Letter from Philadelphia.

PHILADELPHIA, Nov. 20th, 1875. At the present time, general attention s directed to the city of Philadelphia, owing to the near approach of the Centennial, and doubtless many of your readers would like to hear something of the character of the city which has been selected as the best place for celebrating the anniversary of the nation's one hundredth birthday.

Possibly the first thing that would at Possibly the first thing that would attract the stranger's attention is the regular manner in which the streets are laid out, and the beauty of the long rows of buildings, erected in solid blocks, succeeding each other for miles, present a uniform line of press brick fronts, with white line of press brick fronts, with white shutters and marble steps. The reputation the city has gained of being the city of homes is well deserved, as of its 140,000 buildings, all but 10,000 are dwelling houses, and of this number 60,000 are the homes of mechanics. History tells us, "the site of the city was chosen because it seemed appointed for a town on account of its coves, docks, springs and lofty land," but the visitor now wonders where all of these advantages could ever have been.

The city is also of interest to the stranger from the large number of points of interest that are suggestive relics of the past, among the rest Penn's residence, but should Wm. Penn come to the city but should Wm. Penn come to the city to-day, he would hardly recognize in the small brick building once occupied by him, and considered a marvel in the wilds of America, his home surrounded as it is on all sides by the great warehouses that are crowded together and tower far above the modest little structure. It is worthy of thought that this has been a matter of curiosity for upwards of a century and a half, on first account of its magnitude, but more recently on account of the diminutive appearance it

toriety, such as Centennial hotels, Centennial restaurants, Centennial boarding Centennial fever, for we see them adver-tizing Centennial laundries, but yet we have not reached the prices that prevailed one hundred years ago. Our railroads have made arrangement

have not failed to astonish every beholder. Some idea of its magnitude may be conceived from the fact of its being nearconceived from the lact of its being nearly a mile around it (4888 feet.) It is composed entirely of glass and iron, and will cost when completed upwards of one million dollars. The other four buildings, Machinery Hall, Agricultural Hall, Horticultural Hall and the Art Gallery, Horticultural Hall and the Art Gallery, are proportionally large and in a very forward state of erection. From a descriptive catalogue just issued by the Centennial Commission we learn that the Main Building covers an area of twenty acres; Machinery Hall, fourteen acres; Agricultural Hall, ten acres; Art Gallery, one and a half acres, and Horticultural Hall one and a quarter acres. From this we also learn that the United States government have an exhibition building one and a half acres, besides which numerous smaller buildings, for the accomodation of the different State commissions and various officers connected with the Centennial, are springing rapidly into

What has been the source of greates What has been the source of greatest trouble to the commissioners has been, how all the people who would visit us could be accommodated, but this trouble is being rapidly overcome, for within a very short distance of the buildings several immense hotels are being built, and agencies are at work to find every spare room in private quarters, so that strangers who desire can be sent direct to private families.

But before the Centennial commences, we are promised a treat in the presence of

But before the Centennial commences, we are promised a treat in the presence of the great Evangelists, Moody and Sankey, who are expected to open here on Sunday, the 21st inst. A large building, which used to be occupied by the Pennsylvania Railroad Company as a freight building, is being fitted up so as to accommodate ten thousand people. Already union meetings are being held in the different churches, and it is expected

Terrible Railroad Accident. The Charleston News and Courier furnishes the annexed particulars of the fearful acci-

ta Railroad : COLUMBIA November 18, 1875. A frightful accident occurred last night on the Charlotte, Columbia and Augusta Railroad, near Pine House, about twenty-five miles from Augusta. After the regular passenger train left Columbia yesterday afternoon for Augusta it was followed by a train of empty cars for Augusta. The two trains rolled along at the rate of about twenty miles an hour, one following closely on the other. The passenger train had just reached a sideing, and was about to stop, when the second train came rushing along, and the engine telescoped the ladies passenger car, throwing it and the smoking car from the track. A terrible scene followed. The ladies'car was filled with passengers, and men, women and children were jammed together, wounded, crushed and bleeding. After a few moments' confusion the windows and doors were broken open and the passengers emerged from the wreck. It was discovered that, while many were bruised seriously, but one life was lost, that of Charlie Nightingale, a bright and lovable child about six years old, a son of William Nightingale of Brunswick, Ga. The child had rolled along at the rate of about twenty

T. Sprinkle, conductor. The passenger train is not to blame, but there is great feeling against the men on the other train for their

against the men on the other train for their criminal carelessness. The passengers report that the engineer and conductor could not be found after the accident, and it has since transpired that they had both been drinking. The fireman was found in the cab, drunk and totally unconscious of the disaster. The engineer, whose name Febner, was seen to take two large drinks at Johnson's Turnout. dvices from Augusta state that the passengers arrived in that city about

were alarmed several units of running up dent occurred by the extra train running up

ingale of Brunswick, Ga. The child had but a slight wound on the head and seemed to have been steamed to death. A son of M. Heigsheimer, of the United States coast M. Heigsheimer, of the United States coast survey, who was in the smoking car, was seriously injured and will probably lose an eye. Mr. Dishman, of Baltimore, a commercial traveller, was cut in the arm and bled a great deal and seemed badly wounded. As soon as possible the passengers were rescued from the wreck, and every passenger was brought from the train except the body As soon as possible the passengers were rescued from the wreck, and every passenger was broug' trom the train except the body of the poor boy whose untimely death is above recorded. A few hours later the Augusta train reached the spot, and being unable to pass carried the passengers of the wrecked train to Augusta, reaching that city about half past 10 clock. The following is a list of passengers: Mrs. T. F. Weston, New York; Miss Rosa Walfolk, Miss Annie Wilson, Rahway, N. Y.; Mrs. Coyle, Thomasville, Ga.; Mr. Patti, Baltimore; J. Marjenhoff, Aiken, S. C.; Z. Jacobus, New York; E. H. Enzel, Macon, Ga.; H. Hoffe, Washington, D. C.; J. L. Atkins, W. H. Douglas, New York; Walter Powell, Augusta; Mr. Dishman, Baltimore; Mrs. W. M. Mebane, Georgia; Thomas Bell, Darlington, S. C.; Mrs. and Misses Nightingale, Brunswick, Ga.; Miss Fowler, Richland; Mr. Hill, Long Island; Mr. and Mrs. Heigsheimer, U. S. Coast Survey; A. C. Jordan, Aiken, S. C.; S. N. Rushton, Hardy Crouch, Johnson's, S. C.; Governor Chamberlain, Columbia, S. C.; A. K. Grover, New York; Dr. Deboit, Philadelphia; W. T. Sprinkle, conductor. The passenger train is not to blame, but there is great feeling

Tribute of Respect. At a regular communication of William-

18th November, the following resolutions WHEREAS, it has pleased the Ruler of the Universe, in His wise providence, to remove by death from our midst, our worthy broth-tr, JAMES M. LANDRESS, who departed

er, JAMES M. LANDRESS, who departed this life November 3, 1875.: As a compan-ion, amiable and warm-hearted; as a friend faithful and considerate; an honored, re-spected citizen; a sincere Christian. Such was his life. Therefore, be it in the Guano Trade with elimient states, I deemed it advisable to introduce Fertilizers under my own name and guarantee. I have made arrangements to have prepared a Guano under my inspection and control, called ROBSON'S COTTON AND CORN FERTILIZER. This Guano is of the highest standard. It contains, among other valuable ingredients, three per cent. of Ammonia, one and a half per cent. of Potash; and fourteen per cent. of Available Phosphate. I also have prepared for me a COMPOUND ACID PHOSPHATE of the highest standard. These Fertilizers are compounded of the purest materials, and are manipulated and tested under the supervision Dr. St. J. Ravenel, of this city whose name gives a warrant for their high character and adaptation for our soil. I offer these Fertilizers to-Planters on the following favorable terms: Resolved, That in the death of Bro. Jame

M. Landress, this Lodge has lost a much beloved and worthy member, and the family have our sympathies.

Resolved, That these resolutions be published in the Anderson Intelligencer and a lished in the Anderson Intelligencer, and a copy be sent to the family of said deceased brother.

G. W. ANDERSON, Chm'n.

SPECIAL NOTICES.

ow enjoying has not been know during an Indian Summer in many years, and its beneficial effects are noticeable on all sides and ju various shapes. It has its influence upon the spirits of people, and shows its power in their bright looks, vivacious conversation, and general desition for enjoyment, which leads to the f such places a chance of making good

A painful sensation was caused in the city by the announcement of the loss of the steamship Pacific and all on board save one, on Nov. 4, whilst running from Though the loss of life has unquestionably been fearful, it is thought it is not so near total as Henry L. Jelly, who was imagines. The Pacific was a splendidly fitted out vessel in every respect. Her boats were good and numerous, her crew well trained and disciplined, and she herself so strongly built that for her

not mitigate it, it will be one of the sad-Politics is still talked considerably. Citizens have not got over the election excitement. The defeat of Kelly's party in New York and of McLaughlin's in Brooklyn is a much used topic. It is now a well-settled fact that their reverse was due less to political partizanship than to a growing hostility on the part of voters to be manipulated by one man.-It was this feeling alone that induced hundreds of Democrats to vote the Republican ticket, and that caused thousands of others to divide their fovors. I looks rather as though the fate of "Bosses" in New York and Brookly is sealed .--Their heyday of success is over. Party supporters no longer will accept them a the incarnation of the principles they profess. There has been observable year after year for many yers past a growing indisposition among voters to be used by designing men whose profession is poli-

politics of the people of New York and "A new broom sweeps clean" is an old adage, and one which holds good in the case of the newly-elected guardians of ment in the administration of our local too often the case) the advance towards this better condition of things is to proceed no further than comments or promises, remains to be proven. Those who are to succeed the "Tammany" men in New York promise a reconstruction of the city charter and much needed reform in the Police and Public Works Boards Up to the present both the latter have been disgracefully conducted. Our po-

town of five thousand population.

Henry Ward Beecher, pastor of Plymouth Church, and his doing still occupy a large share of public attention. The recent reiteration by Mrs. Moulton, in presence of the whole congregation, of her grave charges against Mr. Beecher, once more brought the disgusting subject fairly on the tapis, and an additional incentive to the discussion of it is now being furnished by the action of the committee of clergymen appointed to investigate the charges and to report upon Mr. Beecher's fitness to be retained in membership. It has been decided to thor oughly probe the matter, and judging by the antecedents of the gentlemen charged with the duty, there is little reason to of the Secretary and Treasurer be confirmed, doubt that a fair and impartial investigation will be carried out. If their action shall serve to put an end to the recital of the circumstances of the case, cause for

out of sight a scandal the ventilation of and the President expressed the gratification which has done more harm to morality of the officers at meeting the expectations
