The Democratic State Convention will meet in Columbia on the 15th inst., for the purpose of announcing a platform of In common with many citizens, we have Electors for President and Vice President, and to consider such other business as may be brought before it. The large majority of Democrats in this State are in favor of nominating candidates for all the State offices, including the Governor, if we may judge from the drift of opinion expressed by public meetings and the newspapers. Then, if Courier, and through their delegates will this be true, the question ought to be authoritatively determined without further delay, in order to prevent distractions and divisions in our own ranks upon the proper policy of the party. Already, the dissensions among Democrats are threatening and calamitous, and it is time to put a stop to useless and fruitless discussion of side issues. Undoubtedly, there must be unity and har- ing a repetition of the Hamburg busimony in our conduct to insure the remotest chance of success. A State Convention is alone authorized to promulgate a we can only pity their stupidity and deplatform and determine a policy, and the spise their efforts to stigmatize men every promotion of unity must come from its whit as honest and patriotic as the best action. We must have a discreet and of them, to say the very least. When experienced commander of our forces, in political action is to be gauged by the order to gain the victory. At the present time, the Democracy in South Caroling is without a recognized leader, and the contest for correct government and the subalterns are differing widely as to the mode of attack. The nomination of candidates and the erection of a platform will unify the various elements, and produce harmonious efforts to secure the State for the Democracy. So long as this matter is left undetermined, and every one is at liberty to advocate whatever policy may best suit his particular locality, to that extent is the day of our deliverance postponed and the causes for dissension increased. We must do battle

against our friends! The great end and aim of the Democratic organization is to place the management of our public affairs in the hands of intelligent, upright men, whose charguarantee to the country that we intend door of the present incompetent and into uphold justice, maintain peace, and tensely partisan administration. ### THE TRUE CAUSE OF THE HAM-BURG DIFFICULTY.

We do not propose in this article to recount the facts connected with the Hamburg conflict nor to vindicate or condemn the course pursued by either party to the unfortunate affair, as we have already against the common enemy, and not given expression to our views upon this part of the question. We now have for

our purpose the important inquiry as to the person or persons upon whom the blame should properly rest. To our militia in and around Hamburg there organized Governor Chamberlain is responsible for allowing them to have the State arms. If it was regularly organized he is to blame for leaving these arms the Ridge Spring militia for their disorderly conduct. It was against public policy and the good order of society for the Governor to place or leave arms in like the negroes of Hamburg have long t a been repeatedly represented to the

There was not the slightest resistance to the civil authority, and there was not even a legal record to show that any law was even charged to have been violated, and yet the Governor went to Washington for troops. "Consistency, thou art a jewel."

The President is reported as having said: "We shall carry Louisiana; we carry only three of Southern States; the other two are North and South Carolina." The President al so sent a message to Mr. Packard, assuring him that the means for making a most vigorous campaign in the State will be furnished. He said there will be no lack of money, and that if troops are needed they also will be furnished.

> ANOTHER EDGEFIELD HORBOR.-On Tuesday last, an "oppressed negro" caught the seven year old daughter of Mr. Louis Prescott, a small farmer near Red Hill, in Edgefield County, on her way from school, dragged her off into the woods, and there committed a crime upon her, upon humanity and upon civilization, at the recital of which the blood fairly curdles in the human veins. The most remarkable feature of this terrible crime is that the father, a law-abiding citizen, mounted his horse and rode ten miles to a Trial Justice for the purpose of obtain-ing a warrant for the arrest of this devil in human shape who had committed the outrage. His neighbors, it seems, taking the proper view of the affair, without legal warrant or authority, but acting in the spirit of that higher law which was made before the statutes of South Carolina were ever dreamed of, arrested the scoundrel, and report says "lost him" in he woods.
