THURSDAY MORNING, OCT. 19, 1876.

DEMOCRATIC TICKET.

- FOR PRESIDENT: SAMUEL J. TILDEN, of New York. FOR VICE PRESIDENT: THOS. A. HENDRICKS, of Indiana. FOR SENATOR ELECTORS: STATE AT LARGE - SAMUEL MCGOWAN, THO. G. BARKER. 1st DISTRICT - J. W. HARRINGTON. 2nd DISTRICT - GEORGE B. BROWN. 3rd DISTRICT - WILLIAM WALLACE. 4th DISTRICT - B. IRWIN. 5th DISTRICT - ROBERT ALDRICH.

As we go to press we received a startling telegram which we publish. We advise our people to remain quiet but firm and determined. The more the tyrants and thieves strive to oppress and coerce us the more vigorous and yet cautious should our efforts for victory be.

DEMOCRATIC BARBECUE!

The Central Executive Committee of the Anderson Democracy has determined upon a grand rally of the party at Anderson C. H. on FRIDAY, 3RD OF NOVEMBER, and provision has been made for a GRAND DEMOCRATIC BARBECUE, in connection with speeches from distinguished gentlemen from this and other States. It is intended to make this meeting the largest gathering of the campaign, and preparations are making to feed the multitude on a magnificent scale. The following gentlemen have been invited to speak: GEN. JAMES CONNER, GEN. SAM'L MCGOWAN, JUDGE T. J. MACKEY, JUDGE F. H. COOKE, EX-GOV. F. P. PERRY, COL. J. WYATT AIKEN, COL. JAMES S. COTHRAN, E. W. MOISE, ESQ., GEN. JOHN B. GORDON, GA., HON. E. H. HILL, GA., HON. L. Q. C. LAMAR, MISS., GEN. M. W. RAMSON, N. C., EX-GOV. J. E. BROWN, GA.

The management of the Barbecue has been entrusted to the following Committee of Arrangements: Messrs. B. F. Crayton, Jos. W. Keys, R. S. Bailey, N. K. Sullivan and A. B. Broyles.

EDITORIAL NOTES.

Governor Chamberlain is said to have called for more troops on the ground that he cannot execute the laws of this State. If it be true, we call upon him to show where arrests have been resisted or the process of the Courts interfered with. If he cannot do this he must stand before the world a self-confessed political liar. Arrests have been made in Aiken and Barnwell of a large number of leading citizens, all of whom gave themselves up to the officers of the law and entered into bond. The United States was not needed to help in making these arrests. The fact is, it would have been done by telegraph without a single man or soldier. Where is the resistance? The Republicans are boasting over the fact that they have gained five members of Congress in Ohio and three in Indiana. Let them take comfort out of this for they have to grieve over the loss of a President, and the fat pickings which they have been getting under his administration. We can afford to lose a good many Congressmen, and will still have a majority in the next House of Representatives. The solid South men are that all right. We are sure to have the President and House of Representatives. The St. Louis Times tells Gov. Chamberlain to go slower or he will have a solid North to sit down on him. Poor Governor! It must be comforting to see how the respectability of the North and South condemn his course, and link his name with the Kelloggs and Pickens of America. Great for office! He has made his unpopularity, and instead of being an honorable reformer as he pretended, he proves himself to be an ambitious tyrant, reckless of truth and possessing no other standard principle than his personal elevation.

RIOT NEAR CHARLESTON

TWO DEMOCRATS KILLED AND THIRTEEN WOUNDED.

THE NEGROES BEGIN THE SHOOTING ACCORDING TO PRE-CONCERTED PLAN.

A disturbance occurred on last Monday at Cainho, seventeen miles from Charleston, during a joint discussion between the Radicals and Democrats. The meeting was called by the Republicans, who consented to a division of time. After the crowd had gathered, the negroes, without any cause, began firing upon the Democrats, two of whom were killed outright, and thirteen wounded. Intense excitement prevailed, and it is evident that the affair was preconcerted to afford capital for the outrage programme.

GRANT FOLLOWS CHAMBERLAIN IN PROCLAIMING AGAINST SOUTH CAROLINA.

Troops to be Concentrated in this State, and Chamberlain to be Re-elected at the Point of the Bayonet.

DEMOCRATIC BARBECUE!

The Democratic Clubs of Anderson and surrounding Counties in this State and Georgia cordially invited to participate in this demonstration. Further announcement will be made hereafter as to the order of procession, and the place selected for the Barbecue.

THE OCTOBER ELECTIONS.

The elections which came off in Ohio, Indiana and West Virginia last week resulted as most persons who had closely watched the canvass in each of them expected. The Republicans carried Ohio by from 6000 to 9000 majority, which is considerably below what might have reasonably been expected from the State of Gov. Hayes, which polled about 600,000 votes. It would only take a change of about one man in every thousand, or three men in every two thousand, voters to reverse this result and give the State to the Democrats in November. It is more than probable, however, that the State will go for Hayes again, as it was virtually conceded to the Republicans by the nominations made by the Democracy in West Virginia, which was claimed by the Republicans before the election and which went for Grant in 1872, has elected Matthews Governor, by 10,000 majority, and is therefore a certain Democratic State.

Indiana is another State which was counted by the Republicans, as it gave Grant a majority in 1872 of 24,000, and is the home of Morton, the celebrated bloody shirt senator. The Democrats have all along counted the State upon their doubtful list, but last week it wheeled into the Democratic column by electing Blue Jeans' Williams Governor by near 5,600 majority, and a larger majority for the remainder of his ticket. The Republicans' President Henry Harrison, as a grandson of President Win. Henry Harrison, as his candidate for Governor, was a gallant officer in the late war, is a fine orator and a man without reproach, and few more strenuous efforts were made to secure his election. He was defeated and the State made secure for Tilden and Hendricks in November. Gov. Hendricks is the most popular man in the State, and was elected Governor by 1800 majority when the balance of the Republican ticket was successful. There cannot therefore be any doubt that he will carry the State for himself in November.

This election decides, in our opinion, the coming presidential contest. The Democrats could have elected Tilden without Indiana, but for the moral effect of defeat in Gov. Hendricks's own State, and the effect of that State going for the Democracy will reassure all desponding Democrats, and dispirit the Republicans. The New York Sun figures on the result of the 7th of November as follows: States certain to vote for Tilden - Alabama, 10; Arkansas, 9; Colorado, 5; Delaware, 11; Florida, 25; Georgia, 25; Kentucky, 13; Louisiana, 8; Maryland, 5; Mississippi, 8; Missouri, 15; New Jersey, 9; New York, 35; North Carolina, 10; Oregon, 3; Tennessee, 12; Texas, 5; Virginia, 11; West Virginia, 5; Total, 135, or 10 more than are necessary to elect Tilden.

States likely to vote for Tilden - California, 6; Florida, 4; New Hampshire, 5; South Carolina, 7; Total, 22. Certain States, 190; Probable States, 22. Grand Total, 382.

States certain to vote for Hayes - Colorado, 3; Illinois, 21; Massachusetts, 13; Michigan, 11; Wisconsin, 10. Total, 58. Certain States, 53; Probable States, 58. Grand total for Hayes, 129, or 62 fewer than are necessary to elect.

REPUBLICAN DUPLICITY.

While Senator Cochran was in the County, the Republican party County Committee took the commendable position that joint discussions were just, and pledged itself to abstain from them. At the last meeting of the Republican State Convention, however, it declined to continue as chairman, and a colored man named Green D. Williams was appointed in his stead. Col. J. A. Hoyt, the Democratic Chairman, saw Williams and he promised to carry out Senator Cochran's agreement to have joint discussions. When the announcement for the Republican meeting on next Friday was posted, Col. Hoyt immediately wrote to him, requesting arrangements for a joint discussion, and received the following answer: 'ANDERSON C. H., October 18, 1876. To the Chairman of the Democratic Party of Anderson County: Dear Sir - Yours informing me that you are desirous of having an equal division of time in the speaking, which will take place on Friday, 20th instant, was received long since, and after a due consideration of the subject, I have decided to agree to a partial consent to a joint discussion on Friday; that is to consent to the proposition of joint discussion, subject to any arrangements that may be made by the State Executive Committee or by the speakers themselves between now and Friday. Yours respectfully, G. D. WILLIAMS, County Chairman.'

It is now perfectly evident to us that the Republicans do not intend to grant a joint discussion, and it is equally evident that their Chairman does not intend to keep his word. This is not to be wondered at, for we could not expect the man who publicly announced in a speech that he 'did not want principles but men,' to have any very great regard for his word. We hope all the mounted clubs in the County will be present, for we will have distinguished speakers from a distance, and the more we can be present and hear their campaign lies in order to be able to refute them. The Republicans must not be allowed to have meetings without the Democrats attending them. Our colored men are too sensible, we hope, to be deceived by men who are so conscious of their own infamy that they do not dare to face their opponents in joint meetings before the people.

AN HUMBLE AND CHRISTIAN LETTER FROM GEN. BUTLER TO GOV. CHAMBERLAIN.

Your proclamation, pronouncement, manifesto, and other fulminating and belatedly received 'contents noted.' I am happy to inform you that we have but one rifle club of white men in Edgefield County, and that exists under and by virtue of charters rights granted by the Legislature and approved by the Governor. It is a club of white men, and is called the 'Democratic Club,' with the view to induce the result of the elections pending in Ohio and Indiana, and thereby the election of Hayes and Wheeler, the candidates which I have supported throughout my canvass in this State. To avert the execution of the law, I have called upon the management of Governor Chamberlain's canvass, that it formed a part of that armed collision with the blacks should be forced on the whites, thus supplying raw material out of which they would manufacture the bloody shirt to wear in the coming Presidential campaign. I have the view to induce the result of the elections pending in Ohio and Indiana, and thereby the election of Hayes and Wheeler, the candidates which I have supported throughout my canvass in this State. To avert the execution of the law, I have called upon the management of Governor Chamberlain's canvass, that it formed a part of that armed collision with the blacks should be forced on the whites, thus supplying raw material out of which they would manufacture the bloody shirt to wear in the coming Presidential campaign.

GENERAL POLITICAL PLOT.

That armed collision with the blacks should be forced on the whites, thus supplying raw material out of which they would manufacture the bloody shirt to wear in the coming Presidential campaign. I have the view to induce the result of the elections pending in Ohio and Indiana, and thereby the election of Hayes and Wheeler, the candidates which I have supported throughout my canvass in this State. To avert the execution of the law, I have called upon the management of Governor Chamberlain's canvass, that it formed a part of that armed collision with the blacks should be forced on the whites, thus supplying raw material out of which they would manufacture the bloody shirt to wear in the coming Presidential campaign.

MARTYR OF THE AMERICAN SYSTEM.

A distinguished writer upon the game of what has been called 'when in doubt play a trump.' The carpet-bagger's code is, 'If the Northern interest in the campaign flags have a negro killed.' And thus the ardent and pushing blacks are thrown perpetually by their leaders, like living cannon balls, against the solid column of the South. The despotic and tyrannical Governor Chamberlain is thoroughly familiar with the best mode of utilizing him in a political canvass, and understands how to serve him up as a first class horror.

THE REPUBLICAN PROCESSION.

One of the most remarkable instances of the mendacity of the age is contained in the statement of the Republican State Executive Committee, that the people of the United States, that the Democracy in Columbia and its vicinity are so malevolent to the Republicans that they cannot ratify the nomination of their national candidates by a torchlight procession with safety to their persons. The fact is, that the night of the 17th inst. a torchlight procession in the town I made the visit to the chairman of the Democratic State Executive Committee above stated, and while engaged in conversation with him he arose and went to the window, and while he was so occupied he bridled and bridled the horse for your use, black of color, striped legs, and a yellow star in his face, to be fully caparisoned with a Democratic saddle and appropriate trappings.

If you should be able to come, please notify me, and I will have a mounted escort, which will take you to the grounds. These Democrats are very naughty fellows, and have a very provoking way of saying that their souls are their own, and of holding their meetings in squads of self-conceited asses, to suit their depraved and vicious whims. However, to say that they ride their own horses and traverse the public highways, and do not interfere with those who do, is a mere pretense. It is well known that they do interfere with those who do, and that they do so in a very provoking way. They do so in a very provoking way. They do so in a very provoking way.

TWO SIDES TO IT.

We take this occasion to advise our colored friends to be careful about being led away by Republican scamps, who wish to induce them to make affidavits against Democrats. If they make such affidavits, without causing us to warn them that they will be indicted and lodged in the penitentiary. There are two sides to every question, and we advise the colored people to go slowly in making affidavits.

THE DUE WEST DEMONSTRATIONS.

Grand Torchlight Procession and Campaign Meeting.

Foremost among the towns of the up-country, Due West takes her part in the demonstrations and work of this campaign. Indeed, no community has entered upon the paramount duties before the people of the State with such zeal and patriotic determination as the people of this place have evinced in their extensive preparations for, and their active endeavors to carry out successfully, the grand torchlight procession and campaign meeting on Thursday night and Friday last. The least we can say of the affair is, that it was a success beyond the expectations of the most sanguine.

CHAMBERLAIN'S PROCLAMATION.

He says the proclamation of Governor Chamberlain of the 7th inst., which virtually declares the white population of this State in armed insurrection against the laws, challenges the indignation of every citizen in South Carolina who is aware of the real facts and has any regard for the honor and safety of the State. No doubt, act of violence, resulting in loss of life in Aiken and Barnwell, which demand that the severest penalties of the law should be enforced against guilty parties.

WORK OF REPUBLICAN MANAGERS.

But those acts are not justly attributable to any determined plan on the part of the whites, but were the result of armed collisions, which, in our judgment, have been premeditated by the present republican managers of Gov. Chamberlain's canvass. At least this is the case to the extent that the passions of the blacks have been designedly aroused against the whites, and that the latter have been incited, in our judgment, to assault white citizens or to refuse obedience to process of the courts where the complainant is white and the offender colored.

The scheme has borne bloody fruits, and double acts of personal vengeance were inflicted, by which the negroes were injured, and the whites had occasion for losses suffered during the collision.

Four days before the riots referred to in the Governor's proclamation, I was called to receive and from my knowledge of the facts, I have no doubt that the management of Governor Chamberlain's canvass, that it formed a part of that armed collision with the blacks should be forced on the whites, thus supplying raw material out of which they would manufacture the bloody shirt to wear in the coming Presidential campaign.

OUR NEW YORK LETTER.

New York, October 12th, '76.

THE OCTOBER TRIUMPH.

The conclusive news of the great victory in Indiana has inspired the Democracy here with the wildest enthusiasm. Never was a political success won against more fearful odds, and when one contemplates the enormous concentration of radical power and corruption in that single State, it seems almost a miracle that the simple virtue of the people, set in their resolve for reform and purification of public affairs, should have triumphed. Williams' election is a trophy not merely for the Democracy, but for popular government, because it shows that all the machinery of wealth and power is impotent against the determination of a free and virtuous people. The few may be corrupted, but the many cannot be. They may for a time be deceived by bad men, but when the people are once enlightened as to their real character, the untrustworthy are driven from power by the sharp scourge of popular suffrage.

THE GAIN IN ELECTORAL VOTES.

In the State elections, so far held, the Democracy has not merely gained on the popular vote of 1872 two hundred thousand votes, but has secured the votes of Alabama, Arkansas, Indiana, and West Virginia, in all thirty-six electoral votes from States which voted for Grant in 1872. With Colorado and Ohio yet in doubt, and of all the States yet voting, only two, Maine and Vermont, safe for Hayes, there can be no doubt of the triumphant election of Tilden and Hendricks by a large majority of the electoral college.

OHIO WILL JOIN INDIANA.

However the official October count may result in Ohio, that glorious State will in November fall into line, and swell the majority for reform. But few really dared to hope for Democratic victory there in the face of the most enlightening and inspiring of the most interesting features of the banner County of the State, he handled the great issues of the day with a power we have never known him to exhibit. He spoke long and loud upon the loyalty he now felt, and believed the people of the whole State felt, to Union.

THE VOTE OF THE EAST.

Put it down as certain that New York, New Jersey, Connecticut and Massachusetts will cast their votes for Hayes. The address himself more particularly to the negroes present, over whom he seemed to have a good deal of control. At the conclusion of his speech an hour and a half was announced, and on this occasion witnessed in the forming procession of the several Colored Democratic Clubs in the County, numbering in all about two hundred members, which, headed by the Abbeville Colored Band, marched across the campus to an immense throng of people prepared for them by the patriotic ladies of the place. The afternoon was occupied by Dr. Maxwell, Maj. Bradley, R. R. Hemphill and Aaron Mitchell, colored. The latter addressed himself in an intelligent manner to his colored friends, urging upon the unconverted of them that they should be ready to stand by the side of the white citizens of this State. In my judgment the act of the General Assembly upon which the demanding of the disbandment of the rifle clubs is based, is utterly unconstitutional, and was so declared in a single instance in the House of Representatives. The act of the General Assembly should not and will not be obeyed.

HAMPTON AT KINGSTREE.

One of the most remarkable instances of the mendacity of the age is contained in the statement of the Republican State Executive Committee, that the people of the United States, that the Democracy in Columbia and its vicinity are so malevolent to the Republicans that they cannot ratify the nomination of their national candidates by a torchlight procession with safety to their persons. The fact is, that the night of the 17th inst. a torchlight procession in the town I made the visit to the chairman of the Democratic State Executive Committee above stated, and while engaged in conversation with him he arose and went to the window, and while he was so occupied he bridled and bridled the horse for your use, black of color, striped legs, and a yellow star in his face, to be fully caparisoned with a Democratic saddle and appropriate trappings.

TWO SIDES TO IT.

We take this occasion to advise our colored friends to be careful about being led away by Republican scamps, who wish to induce them to make affidavits against Democrats. If they make such affidavits, without causing us to warn them that they will be indicted and lodged in the penitentiary. There are two sides to every question, and we advise the colored people to go slowly in making affidavits.

LAST WEEK. ON Saturday afternoon, October 7th, between the residence of the undersigned and Mr. J. F. Clinkscales, a CORAL NECKLACE and plain GOLD LOCKET. The finder will be suitably rewarded. JAMES A. HOYT.
