SUDDEN DEATH.

Once again the hand of death has removed from our midst a devoted wife and fond mother, who was an exemplary and useful member of society. The summons came suddenly in the morning of womanhood on last Monday afternoon to Mrs. Jemima Roof, wife of Mr. Walter Roof, of Charleston, who was stricken down by apoplexy at the residence of her father, Mr. J. B. Clark, in this town. She only survived about three hours, and died without an utterance after the attack, which came upon her in health, with-no premonition of its approach. She was a faithful and pious member of the Baptist Church at this place, and her remains were placed to rest in the Baptist Church yard, after beautiful and solemn funeral services by Revs. J. S. Murray and L. M. Ayer. The deceased leaves a little daughter not yet a year old, with a husband and many relatives who, together with a large circle of friends, grieve for her untimely death.

The Union-Herald announces that the evidence of frauds, so bold and flagrant as to secure their own defeat, continue to accumulate from Anderson and other Democratic counties in the State. We also have information that the rejection of the vote of this County by the State Canvassers was talked of. We wish to know where these frauds were enacted, and in what they consisted? Senator Cochran is the only Republican from this County in Columbia, as far as we have been able to learn, and we therefore call on him to make known who it is that has attacked the fairness of this County? If he is not one of the persons making complaint, it is his duty to clear his skirts of the blame by exposing the sneaking, false rascals who charge our people with improper conduct in the election. It will not do for him to pretend imporance on this subject. He cannot run with the hare and yelp with the | flag as it makes its accustomed trips over the hounds in this matter. We want to know the names of the execrable scamps who ful wreath on each side, one bearing the inhave thus slandered our people, and Mr. scription "Hampton," and the other "Tilnublic or et make the be classed with them as one of the enemies of Anderson County. This is a practical issue, and our people are unwilling to have it dodged. The sneaks who go to Columbia and try to overthrow the will of our people, deserve the severest condemnation, and our people will hold any man tainted with suspicion, who does not clear himself by positive proof, as one of the members of the foul conspiracy against their sovereign will.

POLITE AND ATTENTIVE CLERKS

Being one great secret of success in business, we have endeavored, to the very best of our ability, to procure none but such gentlemen, too well known to necessitate our assuring those who favor us with their patronage, that they will receive only such treatment in our Store as they have a right to expect. The fact that we are

We intended to publish herewith a new "Price List," (lower prices than ever before,) but we can hardly do so, in view of the now ever fluctuating market, (caused by the low price of COTTON, and Hard Times generally,) WITH WHICH WE ARE DETERMINED TO KEEP UP.

LABOR CONTRACT.

Our people are discussing with much in-ferest the subject of giving employment to any person who voted the Republican ticket in the late election, and we take this occasion to urge the various clubs and the individuals of our County to await the action of the County Executive Committee, which is to meet on to-morrow, Friday, morning. We have no hesitation in saying that if the Republicans had carried the State every man in South Carolina ought to have refused to countenance or employ any Republican, not because we have any hard feeling towards any colored man who voted ignorantly for the public thieves, but because it would have been the only means left us to defeat the corrupt crew of Radical leaders. We do not hesitate to advance and advocate the doctrine that a citizen has a right to refuse employment to any man that belongs to an opposite political party. The only question is, does the exigency demand such a course? Extreme measures should never be used except to counteract extreme evils, and if those evils have been corrected without such measures they should not be resorted to. This general proposition is true in politics, and our people should calmly consider the question. We are the victors, and it becomes us to exercise as much magnanimity to the vanquished as possible. It is noble to forget and forgive wrongs-it is particularly sublime to do so in the moment of triumph and power. Every effort should now be directed to rebuilding the shattered material prosperity of South Carolina, and to accomplish this there should be a complete reconciliation between capital and labor. What we most need, nay what we must have, is peace and quiet throughout the State, and the Democratic party is pledged to bring it about. Let this subject of contracts be decided as it may be, we urge that the colored men who voted with us shall have ample recognition for their noble conduct in helping to rescue the State from tyrants and rogues. They should always have the preference of land or position. Their wages should be the highest that are paid, and they should be assisted in every way that is reasonable and proper. They must not be forgotten in our victory, for it is partly theirs. Again, we ask the people of Anderson County who have proven so nobly in party discipline and self-sacrificing patriotism to await the action .of the Executive Committee, and we have no doubt such acion will be taken as to secure harmony and satisfaction throughout the County, and in nsistent manner advance the prosperity of our County and assist in the glorious redemption of our State which is at hand.

Old John Robinson's Circus paid their announced visit to Anderson on last Tuesday. The procession was a long and creditable one, and no doubt attracted many to the show. ernment of thieves. Senator Cochran professed to support Aiken, Conner and Leaphart upon the Democratic ticket, and Chamberlain and others upon the Republican ticket. The result is that Conner and Leaphart ran over fifty and Aiken over one hundred votes behind Hampton. If Mr. Cochran supported these

men he has shown clearly that his influence is a minus one. There is no doubt he can control the colored vote of the County whenever he wishes, but he never helps a Democrat even if he does promise to support him. Our people cannot be fooled by any more

professions from him like those he made two years ago about Greene aud McGowan. His trick has been discovered, and it is useless for him to try to repeat it in this County. - Our people understand his little ruse, and he cannot again deceive them by it.

Capt. Nathan McAlister, who announced few weeks ago his intention to support Hampton for Governor, has shown recently that his professions were deceitful, and that if he voted for Hampton his influence was exerted to secure his defeat. Mr. McAlister was a manager of the election at Long's Shop, and failed to sign the election returns from that precinct. The blanks were sent to him for his signature on Thursday night, and he refused to sign the returns.
