THE WHITE "ALWAYS D."

Is the Easiest Selling, The Best Satisfying, SEWING MACHINE.

ITS introduction and world-renowned reputation was the death blow to high priced machines. There are no second-hand WHITE MACHINES in the market. This is a very important matter, as it is a well known and undisputed fact that many of the so-called first-class machines which are offered so cheap nowadays are those that have been repossessed (that is, taken back from customers after use) and rebuilt and put upon the market as new.

The Warr is the peer of any Sewing Machine now upon the market. It is much larger than the family machines of the Singer, Howe and West make. It costs more to manufacture than either of the aforesaid machines. Its construction is simple, positive and durable. Its workmanship is unsurpassed.

Do not buy any other before trying the White. Prices and terms made known upon request.
