Rejected manuscripts will not be returned unless the necessary stamps are furnished to repay the postage thereon. 82- We are not responsible for the views and opinions of our correspondents.

All communications should be addressed to "Eddressed to Intelligencer," and all checks, drafts, money orders, &c., should be made payable to the order of E. B. MURRAY & CO.

"ONLY WAITING."

[A very good men in an almshouse was asked what he was doing now. He replied, "only waiting."]

Only waiting till the shadows

Are a little longer grown,
Only waiting till the glimmer
Of the day's last beam is flown;
Till the night of earth is faded
From the heart once full of day;
Till the stars of heaven are breaking
Through the twilight soft and gray.

Only waiting till the reapers
Have the last sheaf gathered home,
For the summer time is faded,
And the autumn winds have come. Quickly, reapers! gather quickly
The last ripe hours of my heart,
For the bloom of life is withered,
And I hasten to depart.

Only waiting till the angels
Open wide the mystic gate,
At whose feet I long have lingared,

Weary, poor and desolate.

Even now I hear the footsteps,
And their volces far away;
If they call me I am waiting,
Only waiting to obey. Only waiting till the shadows

Are a little longer grown, Only waiting till the glimmer Of the day's last beam is flown Then from out the gathered darkness, Holy, deathless stars shall rise, By whose light my soul shall gladly Tread its pathway to the skies.

ANONY MOUS.

MORE OF THE BREVARD TRIP.

The Cotton and Rice Fields of Colenoy.

MR. EDITOR: As we returned from Brevard, a portion of our party turned aside to see the rice fields of Messrs. Kirk and Jones, on the Oolenoy. These gentlemen have solved the problem of the crowding together of the red corpus-the growing of rice right under the cles, the increase in number of the white dadow of the Blue Ridge. The land on which the rice crop was grown was the fertile bottoms of the Oolenoy. These bottoms were dry, and the rice was produced without flooding. The species of al observation of the circulation is made rice planted was called the upland rice, and the yield will average from 30 to 50 method of feeling the pulse affords a and the yield will average from 30 to 50 bushels per acre. On the plot of land valuable indication of the state of Capt. Kirk supposes that he will make one thousand bushels of rice, which, in Charleston, will bring, net, about two dollars per bushel in the rough. The expense of cultivation and harvesting tribution to natural history in the shape will be about four hundred dollars, so that the enterprising firm is likely to realize a handsome profit on the invest-

Capt. Kirk thinks that any of the bottom lands on our creeks would produce remuncrating crops of rice, either with or without flooding, which is far more profitable than raising cotton. Notwithstanding the great depression of prices on other products of the soil, the market rates for rice has preserved greater uni-formity since the war than anything else. seeing the reconstructed segments of the formity since the war than anything else. The land should be prepared as for cot-The land should be prepared as for cotton, and, in planting, the seed should be discovery. The remains were found dibbled at spaces of about twelve inches only a few inches below the surface, with apart. The first working over will re- a thin layer of earth between them and quire careful hoeing, but after that the head is seventeen inches; width of head, cultivation can be mainly done with the eleven inches; greatest thickness of body, fact, that not more than a dozen masculow. The reaping must be done with a sickle, and the threshing can be rapidly done, even with hand, over a barrel

alimentary canal, some fifteen feet fur-ther on in the body, is clearly traceable. The outline of the backbone is distinctly seen in a number of the sections compos-Mr. Wm. Price, at the foot of the Sassafras Gap, on the Blue Ridge, is turning his attention more and more to the raising of cotton, as more profitable, and cering of cotton, as more profitable, and certainly much more pleasant, than the raising of grain for distillation. He went is about the same distance between the into a government distillery about two years ago, but his experience has been so discouraging that he closed it up and has extremity—some ten or fifteen feet—is missing, having, been removed by a pregone to raising cotton. This year he has about seventeen acres in cotton, and next year he expects to double it. One of his cotton fields extends to the foot of the in the records of fossilization concerning mountains. Verily, the fleecy staple and golden cereal can accommodate themselves to almost any climate south of the Blue Ridge. Good for Pickens.

In our former article, we inadvertently omitted to mention the name of Mr. John McFall as one of the excursion party down the French Broad River.

This gentleman from the first has exhibited the liveliest interest in the promotion of our great enterprise. It was at his suggestion that the services of Mr. Kirk were procured for the survey of the Road and the Eastatoe Gap, and he voluntarily accompanied the party, sharing with the boys all the privations to which they were subjected in their arduous work. The Company will reward him when the opportunity offers. T. H. R.

AN ENORMOUS EAGLE ATTEMPTS TO CARRY OFF A CHILD.—We are in re-ceipt of a letter from C. Wieland, Esq., Auditor of Lake County, dated the 3d inst, of which the following is the substance: Yesterday afternoon, while little August Barr, aged seven years, was playing with his sisters—one five years old and the other three and a half—near by his father's house, an enormous engle pounced down upon them, throwing the two girls to the ground. It immediately attacked the younger one, grasping one of the child's arms with the claws of one foot, while the claws of the other foot were deeply buried in the child's face, and it attempted to carry the child off, but was prevented by its struggles. Lit-tle August seeing that he could do nothtle August seeing that he could do noth-ing with his own hands to help his sister, ran quickly into the house, got the butcher-knife and came out and whacked away a the eagle's legs, cutting one of them severely near the foot, whereupon the savage bird let go of the little girl and attacked the boy, knocking him over, tearing his pants and giving him some severe scratches. In the meantime, the screams of the children brought out the mother, whereupon the eagle flew off to the barn, on which he sat, and looked as though he would like to renew the noon meal altogether. The horses left contest should a favorable opportunity offer itself: but he stayed there a little too long for his own good, as Joe Betzler, s. neighbor, was called, who took down his gun and shot this great emblem of American freedom, and his eagleship, when killed, was found to measure seven feet from wing tip to wing tip. The lit-tle girl who had this remarkable encounter is very badly scratched, but not seriously hurt.—Duluth Tribune.

| Said the Nurse to the Doctor: "Sure sir, I only know of one good medicine for the Baby, and that is Dr. Bull's Baby

Watching One's Blood.

An ingenious method has just been devised for actually observing the circula-tion of the blood in man. Hitherto, except in the case of Purkinje's experiment, in which an observer can see the circula-tion in his own retinal blood vessels, the evidence of circulation in the human subject has been entirely circumstantial, derived from the facts of structure of the circulatory organs, and from the manner in which the blood flows from severed arteries and veins. But by means of a simple arrangement, invented by Dr. C. Huter, of Griefswald, it is now possible to witness the actual flow of blood in the blood vessels of another person, and that with sufficient accuracy to detect any abnormality in the circulation, and so to obtain invaluable assistance in the diag-

distinguish the movement of the blood-

the corkscrew-like capillaries, is said by

the cells of pavement epithelium lining

the mucous glands.

Besides the normal circulation, various

pathological conditions can be observed.

By a pressure quite insufficient to cause

pain, the phenomens of blood stagnation—the stoppage of the flow, and the gradual change in the color of the blood from bright red to purple—are seen. A mo-

mentary stoppage is also produced by touching the lip with ice, a more enduring stasse by certain reagents, such as glycerine or ammonia.

Huter states that he has already prov-

ed the great use of "Cheiloangioscopy," as he calls the new process, in his medi-cal practice. The variation in the blood-

flow and in the diameter of the vessels,

corpuscles, occuring in certain diseases, all these may be observed readily and

exactly. It will, indeed, be at once obvious how great is the importance of a method like this, by which an actu-

A Remarkable Discovery.

Ellsworth County furnishes a new con-

of the remains of a fossilized sea-serpent

of the pre-historic period. The discovery was made three miles north of Wil-

son the other day by Mr. Sylvester, while

further search was made, following up

other pieces in continuity varying in

the usual rest at noon .- Farmer's Re-

The Checker Board.

Up to three evenings ago such a thing as a checker-board was never known in Mr. Grattan's house. He and his aged

"Of course not; and if I beat you, why you won't care," she replied.

They sat down, and be claimed the The appearance presented is, at first, as if the vessels were filled with red injection. But by focusing a small superficial vessel, the observer is soon able to first move. She at once objected, but when he began to grow red in the face, she yielded and he led off. At the fourth move she took a man, chuckling stream, rendered evident by the speck-like red corpuscles, the flow of which, in as she raked him in.
"I don't, see anything to grin at," he

sneered as he moved a man backwards. "Here! you can't move that way!" she called out.

Huter to be especially beautiful. The colorless corpuscles are distinguishable as minute white specks, occurring now and again in the course of the red stream. Besides the phenomena of the circulation, "I can't eh? Perhaps I never played checkers before you were born!"
She saw a chance to jump two more the lip, and their nuclei, can readily be distinguished, as well as the apertures of men and gave in the point, but as she moved he cried out:
"Put them men right back there! I've

concluded not to move backward, even if Hoyle does permit it!" She gave in again, but when he jumped a man her nose grew red and she cried

out: "I didn't mean to move there, I was thinking of the social?"
"Can't help the social, Martha,—we

must go by Hoyle."

In about two minutes she jumped two men and went into the king-row shout ing: .
"Crown him! Crown him! I've got a

king!"
"One would think by your childish actions that you never played a game

before!" he growled.
"I know enough to beat you!" "You do, eh? Some folks are awful smart." "And some ain't" she snapped as her

king captured another man. "What in the thunder are you jumping that way for?"
"A king can jump any way!"

"No he can't!"
"Yes, he can!"
"Don't talk back to me, Martha Grattan! I was playing checkers when you were in the cradle!"

"I don't care! I can jump two men which ever way you move!"

He looked down on the board, saw that such was the case, and roared out "You moved twice to my once!"

"I'll take my oath you have! I can't play against any such black-leg prac-

plowing, preparatory to opening a stone quarry. Haying turned over what he supposed was a piece of petrified wood, nearly four feet in length (but which proved to belong to the animal kingdom,) "Who's a black-leg? You not only cheated, but you tried to lie out of it!" Board and checkers fell between them He could get his hat on quicker than she could find her bonnet, and that was the only reason why he got out of the house first. A woodward avenue grocer found him stting on a basket of cranberries at the door as he was closing up for the night, and asked him if he was waiting

for his wife to come along.

"Well, not exactly; I stopped here to feel in my pocket for the key of the barn. I shall sleep on the hay to-night, and see if it wont cure this cold in my head."—

PRETTY WOMEN.—Is it not a strange lines will ever agree as regards b about one foot. The line of demarcation women, and that we have no standard to mark this excellence; form or figure are not even defined, much less the facial features-neither the hand with its soft pressure, nor the foot, whether large or small, forming a requisite. Nor the eye, the window of the soul, whether it be black, nut brown, melting blue, or "in-telligent grey." The beauty of women consists in more than a fine complexion, or stylish dress, for either of these may be possessed by a most hateful virago The tact'of making themselves agreeable, is the basis of beauty's structure; the heart-culture must be real, no counterfeit, or it will not bear washing, and it is even so much preferable to that of the head. A selfish woman is not long cared for by any one, and although much has been written by talented writers on "beauty of face," beauty of character will last, and, in the end, be found far more desirable; it will brighten homes, under clouds, and be a continuous sunshine to husbands and children .- Home Circle.

THE MODEL MOTHER-IN-LAW.-She is thankful to the man who marries her daughter, and thus relieves her of a great responsibility. She becomes a devotee to him. She coddles him with warm slippers and wadded dressing gowns, and with hot drinks when he has a cold. She multiplies her tender attentions when 'important business' has kept him out late at night, and fears that his devotion to business will wear upon him. She finds out the dishes that will tickle his THE LEGS OF INSECTS.—A scientist once observed a fly, only as large as a grain of sand, which ran three inches in half a second, and in that space made the enorappetite, and makes them with her own hands. With her, he has two worshipers at home. She encourages him to smoke. She smiles on his bachelor friends. She studies him in every way. She makes her daughter cheerful while he is at the club or other places. She minds the baby while they go to enter-tainments, and never wants to go. She praises him to all as the best of husbands. She continually enjoins upon her daughter, that she never can be thankful enough. She is a constant sunbeam in the household, which makes marriage so can the locust. If a man were six feet long, and could leap as high and as without a mother-in-law, but half what

"THE PEACE OF THE UNITED STATES,"

—Washington, October 22.—In the United States Supreme Court Attorney General Devens concluded to-day his argument in the case of the Tennessee revenue officer, which was partially heard yesterday, and argued that every Federal officer sustained such an exclusive relation to the government that whenever his official acts came into either civil or crimipal litigation under State process, such officer was entitled to have that litigation removed into the Federal Court of his removed into the Federal Court of his locality, and that such a procedure was essential to the true exercise of Federal power. It is thought that in this case the Supreme Court will discuss and settle the much-mooted question whether there is such a thing as "the peace of the United States" currently with "the peace of the people of a State."—Special Dispatch to the New York World.

 The Indianapolis Sentinel, protesting vigorously against all forms of croaking, concludes that what is wanted now is a concludes that what is wanted now is calm survey of the field to bury the dead, reorganize the living, count the odds. If retreat is necessary, back and reorganize: get a good ready, and when again taking the field, go in to win.

TUTT'S PILLS

MEST POINT, Ga., Sopt. 16, 1870.

GENTS—My daughter was taken on the 25th day of June, 1863, with what was supposed to be Acute Rheumatism, and was treated for the same with no success. In March, following, pieces of hone began to work out of the right arm, and continued to appear till all the bone from the elbow to the shoulder joint came out. Many pieces of bone came out of the right foot and leg. The case was then pronounced one of White Swelling. After having been confined about six years to her bed, and the case considered hopeless, I was induced to try Dr. Pemberton's Compound Extract of Stillingia, and was so well satisfied with its effects that I have continued the use of it until the present.

My daughter was confined to her bed about six years before she sat up or oven turned over without help. She now sits up all day, and sews most of her time—has walked across the room. Her general health is now good, and I believe she will, as her limbs gain strongth, walk well. I attribute her recovery, with the blessing of God, to the use of your Invaluable medicine.

With gratitude, I am yours truly.

W. B. BLANTON. have gained such a wide spread reputa-tion. No Remedy has ever been discovered that acts so speedily and gently on the digestive organs giving them tone and vigor to assimilate food. This being NERVOUS SYSTEM IS BRACED.

THE BRAIN IS NOURISHED. AND THE BODY ROBUST. Being composed of the juices of plants extracted by powerful chemical agencies, and prepared in a concentrated form, they are guaranteed free from

any thing that can injure the most delicate person. A noted chemist who has analyzed them, says "THERE IS MORE VIRTUE IN ONE OF

TUTT'S PILLS, THAN CAN BE FOUND IN A PINT OF ANY OTHER." We therefore say to the afflicted Try this Remedy fairly, it will not harm you, you have nothing to lose, but will surely gain a Vigorous Body, Pure Blood, Strong Nerves and a Cheerful Mind.

LY FREE!

Denver now have peptiate a of 4000. Great cities are the outgrowth of great countries. Twenty years ago Denver was a small trading poin on the founter now have a peptiate a of 4000. Great cities are the outgrowth of great countries. Twenty years ago Denver was a small trading poin on the founter now have stanged by with numerous Churches, Hotels, Timenan, Streed-directs of severies, Water warfs, Gold and Silver Smelting and Refining Works, with a Cutatel, bates Main, and is the great Fashboad Center of the West. There are seven Fred-et. Enthrules new running and councering with all the Principal and Beanch Refineds for a Mode, or of a firmin. It is the Capital of Colorado, naturally the richest State in the Usion, and besteas in about the geographical center of the United States. The climate is charging, whin the best water and purest air in the world, and the seenery is unexcelled for beauty and grandeur. It is surrounded by the richest Gold, Silver, Copper, Iron, Lead, and Coal Mines and Agricultural Lands it America. It is now the headquarters for Colorado, Kanssa, Nobraska, Now Mexico, Wioning, Novada, Arizona, and Northern Texas. The rich mineral and agricultural resource of this vast country will make Denver the largest and wealthriest city in the West.

WHY LOTS ARE GIVEN AWAY.

As the tide of immigration is now in this direction, it is the Company's interest to have people locate in Denver and on their property. To encourage emigration here, the Company will give to any one sending their name and address a warrantee deed, in fee simple, for one or more lots in North Denver, situated in Vedd County, State of Colorado, in immediate view of this beautiful city, the only charge being one dedire to pay the Notary Public fees for acknowledging deed and conveyance. The Company does not give every lot away, but each alternate one, and does not eye such that every person who gets a lot in North Denver will come here, but a great many will and they will induce their friends to follow. The increased population will soon make this property very valuable, and this Company retain each alternate lot, which they hold at prices varying from 25 to 500, according to location. For this reason the above proposition is made. The deeds are unconditional, not requiring any one to settle or improve, but with full power to transfer and deed to others. The limit to any one person taking advantage of this offer is five lots. This property is not hill-side, mountain, or swamp, but is level, fertile, and has advantages for building upon too numerous to mention. Full and satisfactory information, with indorsements from our best citizens, will be furnished.

CERTIFICATE OF TITLE. REMARKABLE CURE OF SCHOPOLA, &c.

Cute of Cel. J, C. Branson.

Kinoston, Ga., September 15, 1871.

Gents—For sixteen years I have been a great sufferer from Scrofule in its most distressing forms. I have been confined to my room and bed for fifteen years with scrofulous ulcerations. The most approved remedies for such cases had been used, and the most eminent physicians consuited, without any decided benefit. Thus prostrated, distressed, desponding, I was advised by Dr. Ayer, of Floyd County, Ga., to commence the use of your Compound Extract Stillingia. Language is as insufficient to describe the relief I obtained from the use of the Stillingia as it is to convey an adequate idea of the intensity of my suffering before using your medicine; sufficient to say, I abandoned all other remedies and continued the use of your Extract of Stillingia, until I can say truly, "I am cured of all pain," of all disease, with nothing to obstruct the active pursuit of my profession. More than eight months have clapsed since this remarkable cure, without any return of the disease.

For the truth of the above statement, I refer to any gentleman in Bartow County, Ga., and to the members of the bar of Cherokee Circuit, who are acquainted with me. I shall ever remain, with the deepest gratitude, your obedient servant,

A MIRACLE.

CERTIFICATE OF TITLE.

I. W. C. Sammes, County Clerk and Decorder within and for said County and State, do hereby certify to the above and foregoing to be true, and this complete to the land therein described according to the records in my clice. I further certify there are no notatracts or transcripts of judgments, taxes or other less standing spaints and land. In technony whereof I have become act my hand and advaced my official seri this 2d day of August, A. D. 1579.

[Face] State of Colorado.] ... INSTRUCTIONS.

Tois Company will send by return mail, to any one sending within sixty days from the date of this paper their names, P. O. address, County and State, plainly written in full, a clear warrantee deed to a lot 25 feet from by 125 feet deep in North Denver, Colorado, clear of all taxes.

Applications for city lots must be accompanied with one dollar for each lot to pay cost of making and acknowledging deed, postage, etc. The lots then can'be said and transferred at your pleasure. Let all improve this opportunity to secure a home in the richest State in the world. Deeds sent to any part of the U. S. and Chundas. Address all letters to DENVER LAND COMPANY.

John Clinkscales, Administrator de bonis non with the Will annexed, of Robert B. Nor-ris, deceased, Plaintiff, against E. A. W. Clinkscales, Irene J. Osborne, et al., Defendants.

COURT OF COMMON PLEAS.

THE heirs of Mrs. Martha A. Barksdale, deceased, having been made parties in the above entitled cause for the purpose of testing their right to a certain tract of land therein set forth, and they by their Guardian ad Litem having answered the Complaint setting up their title thereto and asking for setting up their title thereto and asking for a partition thereof among those entitled to the distribution thereof, and his Honor Judge T. J. Mackey, before whom the cause was tried, having decided the controversy in reference to the said tract of land in favor of the said heirs of Mrs. Martha A. Barksof the said heirs of Mrs. Martha A. Barks-dale, deceased, and having authorized by a provision of the said Decree that parties to the said cause may move for such further orders as may be necessary to carry out the effect of such Decree; and the time for ap-pealing from said Decree having elapsed and no notice of appeal having been given upon this branch of the said cause; and since the argument of the said cause two of the children of Mrs. Martha A. Barksdale, to wit: dale having died after marriage, leaving re spectively a wife and a husband surviving with a child each, on motion of Featherston & Brown and E. B. Murray, attorneys for the Barksdale claimants; it is.

ORDERED AND DECREED, That so

much of the above entitled action as relates to the Barksdale tract of land be, and hereby is, disassociated from the re-mainder of the said action and ordered to stand as a separate case for the purpose of carrying out the partition asked for by the parties decreed to be entitled to the said

It is further Ordered. That the costs of the Barksdale beirs incurred up to this time in litigating their claim be taxed by the Clerk against the Plaintist as Administrator afore-

against the Plaintif as Administrator afore-said, and that subsequent costs be paid out of the corpus of the estate decreed to the claimants.

It is further Ordered. That it be referred to W. W. Humphreys, Master for Anderson County, to take testimony and report as to the propriety of the partition asked for and as to what amount would be a reasonable and proper Counsel fee for Featherston & Brown and E. B. Murray for their services in said litigation.

It is further Ordered, That the represen-tatives and distributees of the deceased tatives and distributees of the deceased children of Mrs. Martha A. Barksdale, deceased, be made parties to the proceedings in partition herein by service of a copy of this order upon them, and that those who

after the service hereof, or be concluded in their rights in the premises, and that the minors be required to be represented by Guardians ad Litem. It is further Ordered, That the heirs of

Mrs. Martha A. Barksdale, deceased, be allowed to apply for such further orders in the premises as they may be advised.

B. C. PRESSLEY, Sept. 25, 1879. Presiding Judge.

To Sallie Barksdale, Mabel Barksdale and Richard Barksdale. Take notice that the foregoing Order was granted at the last term of the Circuit Court or the purpose of making you parties to he partition of the tract of land referred to

the partition of the tract of land referred to
in the said Order.
