The Republicans wrecked a train loaded with the Democratic speakers in Hampton County last week. Fortunately no one was hurt, and the Democratic boom kceps growing. "The enemy is ours."

In voting see that the name of each of the Hancock electors is on your ticket, for every vote will count, and any mistake in this matter might give a part of the vote of this State to Garfield.

Ben Hill says that Senators Hampton and Bayard have defeated the Democratic party. Will the Georgia Senator show us how they did it, and particularly what Senator Bayard has done that was either unwise or indiscreet?

Be particular to vote nothing but the regular Democratic ticket, and take it straight. Any omission or scratching might give us some Republican State officers. True and good men in times like these vote for their country and not merely from personal considerations.

Every citizen of South Carolina owes his whole influence and effort to his State in this hour of her extreme peril. No man of Carolina can afford to see her lose the reforms that have been effected. Therefore every one should turn out and vote the Democratic ticket on the second of November.

The negroes fired into a Democratic torch light procession in Wilmington, Delaware, the other night and wounded several white men without any excuse for doing so except that they were Democrats. A few more instances of this lawlessness North of the Potomac and the bloody shirt will be turned against the Republicans.

It is now evident that the next Congress of the United States will be Republican, and the independent voters noting this fact will be more than likely to make honors easy by electing a Democratic President. So long as the country distrusts both parties, as it evidently does, it will punish both by giving neither full control of the government.

The New York Herald says that the Democrats are wondering what has struck them since the October elections, and volunteers the information that it is the "solid South" that has struck them.

MORRISTOWN, Oct. 11, 1880.

The October elections are over, and they have gone strongly against the Democrats. It is a disappointment to many, but the close observer for months past has seen the evidence of shrowd, cunning and skillful Republican work in Ohio and Indiana, which must have made him, however strongly he desired is otherwise, dread a Republican victory in these States in October. The Democrats have as usual made a good fight in each of these States, but the Republicans have carried them, and the causes arc very easily noted. The Republicans have conducted an aggressive campaign, while the Democrats have plodded along

trying to avoid wounding any person's feelings, and therefore fearing to please any person particularly. The Democrats in Indiana made a very unfortunate nomination for Governor, Landers, their candidate, being toc much of a Greenbacker for the hard money men,

and not quite Greenbacker enough for the real Greenbackers. He is a weak man, a poor debater, and even unpopular in his own party. Then, Mr. English is also unpopular in many portions of Indiana, so that his presence is a load

instead of an advantage to the ticket. On the other hand the Republicans selected a strong, popular and unobjectionable man for Governor. They prated over the "solid South" and floated the "bloody shirt" until they obtained all of the benefits it could confer, and then

dropping it at the last moment they seized upon the tariff issue and by holding up the dangers of free trade to the large Western manufacturing and mining interests they made votes upon it. To cap the whole work, they voted crowds of negroes and spent quantities of money.

The result places the Presidential election in doubt. If Indiana votes differently in November there will be no trouble in electing Hancock, while if it votes for Garfield the vote will still be very close, with chances slightly favoring Hancock. There is no cause for discouragement in these elections. It is simply

an extra inducement to close ranks and go to work. The next two weeks will probably change the whole result.

An Address to the Indiana Democracy. Henry Ward Beecher's Latest Abuse of the South. INDIANAPOLIS, October 15.

The Democratic Executive Committee have issued the following address: To the Democratic and Independent Voter

of Indiana : The result of the election last Tuesday is a deep disappointment to us all. The extent of the success which the Republican party has achieved in this State is as can party has achieved in this State is as much a surprise to the Republicans as it is to the Democrats, and proves that the majority of the Republican party were as ignorant of the means which their cor-rupt leaders were employing as we were. The temporary loss of our State is a calamity which time will enable us to retrieve, but the injury which our free institutions will sustain resulting from the corruption practiced by iect.

the frauds and corruption practiced by Republican leaders to secure their triumph is incalculable. The causes which enabled the Republican party to succeed in the election are now plain. They were the partial success of their scheme to Africanize our State for politischeme to Africanize our State for politi-cal purposes, the corrupt use of money for the purpose of obtaining votes, the importation and use of repeaters pro-tected by deputy marshals, and the aid derived by them from the use of the Federal machinery of election under pretense of supervising the election of members of Congress. In the Presidential election we will not have to encounter these forces to the 10 to Al not have to encounter these forces to the same extent as in our State election. The corruption fund will have to be divided among many States. We therefore call upon you not to relax any of your efforts. Put some new life and energy into your County and township organizations, and take all measures in your power to bring out your full strength to the polls. The same vote polled by us in October if polled in November will secure to us the State. The average majority against us at the late election will not exceed 4,000, and may fall below that figure. This major-ty can and, in our opinion, will be over-come in the Presidential election. A change of three voters in cach precinct will accomplish it. Romember you have will accomplish it. WASHINGTON, October 19. Secretary Sherman to-day furrished for publi-Secretary Sherman to-day furrished for publi-cation the following correspondence, consisting of four letters, which have passed between himself and Senator Hampton, of South Carolina: Doosens Syntxos, September 17, 185.—Ilon. John Sherman, Secretary of the Treasury : Sir-Some days ago I saw a report of your speech at the conference held by the National Republican Com-mittee at the Fifth Avenue Hotel, New York, and you were anoted as having used the following lanmeeting will reach from the lower line of

mittee at the Fifth Avenue Hotel, New York, and you were quoted as having used the following lan-guage: "And now you are asked to surrender all you have done into the hands of Wade Hampton and the ku klux and the little segment in the North that is called the Democratic party." May I ask if you used these words, and if you did so, did you mean to connect me directly or indirectly with what is known as the ku klux klan? Re-questing an early reply, addressed to me, care of August Schell, Esq., New York, I am, very respect-fully, your obedient servant, WASHINGTON, D. C., Sentember 21.-To Hon.

My Dear General: My attention is called to-day to an interview or reported inter-view had with you by a person represent-ing the Paterson Guardian of this State. August Schell, Esq., New York, I am, very respect-fully, your obedient servant, WADE HAMPTON. WASHINGTON, D. C., September 21.-To Hon. Wade Hampton, New York: Sir-Your note of the 17th inst. is received, in which you inquire whether at the conference held by the National Republican Committee at the Fifth Avenue Hotel, New York, I used the language attributed to me as follows: "And now you are asked to surrender all you have done into the hands of Wade Hamp-ton and the ku klux, and the little segment in the North that is called the Democratic party." In reply I have to advise you that while I don't re-member the precise I anguage, and presume the re-porter correcitly stated in a condensed way his idea of what I said, I no doubt spoke of you as a leading representative of the barbarous agencies by which the Democrats have subverted the civil and political rights of the Republicans of the South. I did not connect you personally with the ku klux kian. Indeed, I know you had in one or two important instances resisted and defeated its worst impulses. I appreciate the sense of honor which makes you shrink from being named in connection with it. Still you and your associates and leading me in the South now enjoy the benefits of political power form atrocities of the ku klux klan, in which I include numerous allases by which it has from time to time been known in the South. Your power in the Southern States resis upon the actual crimes of every measure in the code of crimes, from murder to the meanest form of ballot-box stuffing committed by the ku klux klan, in which I include numerous allases by which it has from time to time been known in the South. Your power in the Southern States resis upon the actual crimes of every measure in the code of crimes, from murder to the meanest form of ballot-box stuffing committed by the ku klux klan and its kindred associates, and as you know some of the words to them committed since 1877, when you and they gave most solemn assurances of protection to the freedmen of the South As I read the report it seems to me you were very imperfectly understood or indifferently reported. I came to this con-clusion because of my knowledge of your views upon the tariff question. The report does you injustice. The subject is one which our manufacturing friends are very solicitous about, and very properly very solicitous about, and very properly so. I regret that your views upon the tariff question as I understand them to be had not found faller expression in your letter of acceptance. If the mis-representations of your tariff views con-tinue would it not be wise and just to take some occasion to put yourself right? Very truly yours, THEO. F. RANDOLPH. Gen. W. S. Hancock, Governor's Island. GOVERNOR'S ISLAND, N. Y., October 12, My Dear Governor—I have received your favor of the 11th instant. In my letter of acceptance I expressed my full sympatby with our American industries. I thought I spoke plainly enough to satisfy our Jersey friends regarding my tariff views. I can too sound an Ameritariff views. I ain too sound an Am can to advocate any departure from the general feature of a policy that has been largely instrumental in building up our industries and keeping Americans from the competition of the underpaid labor of Europe. If we intend to remain honest and pay the public debt, as the good peo-ple of all parties do, and if we mean to administer the functions of government, then we must raise a revenue in some

hepublicans. But for these critics, the obset at-tributed to you that the 138 solid Southern votes would be cast for the Democratic ticket would be but idls vaporing, but now we feel that it is sober truth. While I have no reason to believe that you or your Northern associates personally partici-pated in the offeness I have named, yet while they enjoy the fruits of these crimes, you may, in the logic of morals, be classed as joint copartners with the ku klux, and the policy which thus far has been successful in securing political power in the South and which it is hoped by the aid of a small segment of the Democratic party in the North, may be extended to all departments of the govern-ment. In this sense I spoke of you, the ku klux and the Northern Democratic party. Permit me in conclusion in frankly answering your quesition to say that the most fatal policy for the South would be by such agencies as I have mentioned to secure again the political ascendancy in this coun-try, for I assure you that the manhood and inde-pendence of the North will certainly continue the struggle until every Republican in the South shall way or other. With a reunited and harmonious country we shall certainly in time pay off the public debt, but the necessity of raising money for the adminis-tration of the government will continue as long as human nature lasts. All par-ties agree that the best way for us to raise thes agree that the best way for us to have a revenue is largely by tariff. So far as we are concerned, therefore, all talk about free trade is folly. But the tariff question will probably be treated with some such bill as Eaton's. I believe that a commission of intelligent experts, representing both the Government and struggle until every Republican in the South shall have free and unrestricted enjoyments of equal civil and political privileges—a fair vote, fair count, free speech and a free press. Agitation made necessary to secure such results, may greatly effect injuriously the interests of the people of the South American industries, will suggest tariff measures that will relieve us of any crudities and inconsistencies existing in our present laws, and confirm to us a system which will be judicious, just, harmonious and incidentally protective, as well as stable in its effect. I am very

The Herald is mistaken. The South has struck no one yet, but will proceed to knock the bottom out of the Republican bucket on the 2nd of November.

The Supreme Court has decided the Simpson-Willard contested election case for the Chief Justiceship in favor of Judge Simpson. The opinion, which is very voluminous, was rendered by Judge Hudson, and is said to be one of

Because you have nominated a County ticket for the Anderson Democracy, do not feel that you have discharged your duty to yourself or your State. It is important to have the County ticket elected, but even that is a matter of very little importance compared with the success of our Electoral and State ticket. It would be better for our whole County ticket to be beaten than for a single nominee on our Electoral or State or Congressional ticket to be left out. It is, therefore, of the uttermost importance for every citizen to vote and to vote the whole ticket straight.

The success of the Republican party in Ohio and Indiana has decided the National Executive Committee to make a determined effort to break the Democratic solidity of the South. Their efforts will be directed mainly to the First, Second and Fifth Congressional Districts in this State, and the doubtful Districts in Virginia, North Carolina, Alabama, Florida, Tennessee and Mississippi, Sam. Lee, the representative on the Committee from this State, gave a picturesque account of the situation in South Carolina at its meeting in New York last week, asserting that with proper efforts the Republicans could carry the State for Garfield and Arthur, and that their nominees for Congress in the First, Second and Third Districts could also be elected. There is no doubt that the Republicans mean to exert their every effort this year in the South, and it behooves the Democrats to not only to be on their guard, but to work with all their energy and determination for the election of their Congressional and Electoral nominees. We should not lose sight of a single point, nor should we be the least discouraged by the defeat in Indiana and Ohio, as there is a reasonable hpoe that at least the first named of these States will go Democratic in November. Let there be work-determined, persistent and untiring work -and the battle for good government will be victorious

A very disastrous fire occurred in the city of Charleston on last Sunday afternoon in which about \$500,000 worth of cotton, real estate and shipping was destroyed, nearly all of which, fortunately, was covered by insurance. The fire originated on the North Commercial wharf from a pipe or cigar, it is supposed, and before assistance could be obtained sufficient to extinguish the flames they spread to Vanderhorst wharf and to several steamships lying hard by. When first discovered the fire was confined to a single bale, and if it had been during the week, when the streets and wharves are crowded with people, in all probability the burning bale might have been moved in time to avert the disaster.

The Democratic National Executive Committee have issued the following ad-

dress: To the Democratic and Conservative Voters

To the Democratic and Conservative Voters of the Country: The election of President and Vice-President is now before you. State and local dissensions are eliminated from the issues of the day. The magnitude of a victory or a defeat can only be estimated by the force and means employed in se-curing it. By fraud and corruption the people of the country wore defeated in their purpose in 1876, and the rightfully elocted President was kept from office. With the combined capital of the Repub-lican party, aided by repeated assess-With the combined capital of the Repub-lican party, aided by repeated assess-ments upon the army of officeholders, with the power of the Federal govern-ment represented by United States mar-shals at the polls, with intimidation, fraud and a resort to every corrupt appli-ance known to Republican methods con-centrated in two States, our adversaries have succeeded in procuring the probahave succeeded in procuring the proba-ble return of their local candidates. Car it be possible that in every state through-out this broad land the same methods can be brought to bear that were used by the Republican managers in Indiana and the Republican managers in Indiana and Ohio? Can the great States of New York, New Jersey, Connecticut, California, Colorado, Novada and New Hampshire be bought, intimidated and defrauded? Even without the vote of Indiana, which

we believe will be redeemed in Novem-ber, with New York and New Jersey and the States that are conceded to us, including Maine, the election of our candi-

date is assured. The Republican party have put in nomination for President and Vice President two men who, by the admission of their own party and press, are unworthy of your confidence and your suffrages. It is impossible that fifty millions of intelligent and patriotic people will con-sent to place themselves upon the hu-miliating level thus prepared for them by

The victory secured us our Union. The question is not the preservation of the Union, but of constitutional government. Arthur will receive the electoral vote of every Northern State. Hancock is now, as then, in front. The repulse is now, as then, an omen of victory, which will secure to coming gener-ations the inestimable blessings of civil

While Major Gooding, Mr. Hammond and the family were at supper thieves entered CHICAGO, October 16. A terrible explosion occurred last evening at the Garden City Distillery Company's works. An experiment was being tried of a new steaming process. Corn was put whole into a mammoth kettle sixteen feet high and steamed. Major Gooding, Mr. Hammond and the family were at supper thieves entered through a back window and made off with their booty. As soon as the loss was discovered immediate steps were taken to eatch the thieves and recover kettle sixteen ieet high and steamed. Then a strong pressure of steam was ap-plied to force it through pipes into the mash tub. The pipe became chocked up, stopping the passage of the swollen corn and instantly increasing the pres-sure in the kettle.
