

ELECTION RESULTS.

Garfield is Elected, but South Carolina Democratic by 50,000 Majority.

THE LATEST BY TELEGRAPH.

Special Dispatch to the Anderson Intelligencer.

COLUMBIA, S. C., November 4.

New York beats us, giving 20,000 majority for Garfield; Pennsylvania 30,000; Connecticut 2,500; Louisiana 10,000.

Hancock carries California by 600 majority, Nevada by 500, New Jersey by 3,000, South Carolina by 50,000, Florida by 5,000.

It is a solid South against a nearly solid North.

JOHN BRATTON.

WE ARE DEFEATED.

The election on last Tuesday resulted in a sweeping victory for the Republicans in the Presidential and Congressional elections.

Garfield carries every Northern and Western State except New Jersey, California and Nevada, which Hancock carries in addition to the solid South, so that the Electoral vote will stand, Garfield 219; and Hancock 156.

The House of Representatives will probably be Republican, and the Democrats will only retain the Senate by a close majority.

The defeat is complete and crushing, and its effects cannot be predicted until the excitement and passions of the canvass which has just closed has ended.

It is always in order to give the causes for a defeat, and in the present case the only difficulty in doing so is that they are so numerous as to render the work a little tedious.

To begin with, the defeat may properly be charged to Mr. John Kelly, of New York, who turned that State over to the Republicans two years ago rather than see his personal whims thwarted.

This gave the State patronage and all of the election machinery of New York to the Republicans, and enabled them to carry that State this time, and thereby secure the Presidency.

In the next place, the personal abuse and denunciations heaped on Mr. Tilden, which prevented his nomination, took from the canvass the great issue which would have saved the campaign of 1880.

For this the South is mainly responsible.

Again, the party lost strength by the foolish action of the last Congress, which united the Republicans and disgusted the independent voters of the country.

The irresolute stand of the Democracy upon the financial and tariff questions also aided considerably in securing defeat.

The party has sought to take both sides of these questions, and has really not been sufficiently independent to command the respect of its own members in many instances.

It was a blunder, if not worse than that, to have fused with Greenbackers in Maine and temporized with them in Indiana and Ohio.

Then, too, certain Southern leaders were entirely too prominent and indiscreet in the recent canvass, which enabled the Republican party to resurrect the war issues and solidify the North against what they termed the solid South.

The Democratic canvass was entirely misplaced. It was rested upon the personal abuse of Garfield and the military record of Hancock.

The managers were afraid to discuss any of the great questions presented in the admirable platform of the party, and from the shape assumed by the canvass one could not really tell whether the party was in favor of hard or soft money, of protection or free trade, of American ships for American commerce or not.

Nay, the majority of the campaign speakers were even afraid to handle the Southern question boldly.

These are some of the causes which produced the terrible overthrow of last Tuesday, and we may rest assured that so long as the Democratic party is so timid and has such unfortunate allies, so long will it be defeated.

THE ELECTION IN THIS COUNTY.

The election in Anderson County on last Tuesday was generally quiet, though a very intense interest pervaded the voting at most precincts.

There was little or no interest felt in the State or County tickets, as there was no opposition to the Presidential race.

The negroes were more solid and inapproachable than they have ever been, and for the most part voted the Republican ticket.

They came to the polls in large companies, and in many cases, would not talk with any white man until after they had voted.

They were insolent and defiant, and showed a thorough drilling that was far more perfect than it was in 1876 or 1878.

Ex-Senator Cochran was appointed County Chairman of the Republican party about ten days before the election, and did his work most effectively.

It was the hardest work possible to break the solidity of the colored vote, though by dint of persuasion and argument we managed to induce a great many of them to vote the Democratic ticket.

In addition to this we had a white ticket, an exact fac simile of the Republican ticket, and many negroes voted it, amounting to probably two hundred in the County, which increased our majority from three to four hundred votes.

The election shows that the negro will vote the Republican ticket whenever his old leaders tell him to do so, and that as a class he has no more reason than a mule.

The election here was anything but encouraging to those who hope to see the negro improve in understanding the duties of citizenship.

He is controlled mainly by opposition to the white man. Thus he has drawn the color line, for the purpose of following men whom he does not know in preference to those who befriend and assist him.

Frankly, however, we do not blame the ignorant negro as much as his intelligent leaders. The vote in this County is slightly under the vote of 1876, though we have a better majority in proportion to the vote cast.

We have not, however, done our full duty as the whole white vote has not been polled. This was no doubt due to a feel-

ing of over confidence and a lack of enthusiasm on the part of our people. It was a mistake to have acted thus, for the failure of a hundred men to vote might have lost the State, if the vote had been so close as it at one time seemed to be.

The whole up-country has fallen behind the vote of 1876, and but for gains below the Garfield Electors would have been successful in South Carolina. Taken altogether the vote of Anderson compares favorably with that of the other Democratic Counties, and we have reason to be gratified at the success of our campaign.

The Third Congressional District has spoken, and Gen. C. J. Stollbran has been buried beyond the hope of resurrection as a candidate for Congress. The majority against him will be over 12,000. He will probably return to his legitimate avocation of guaging whisky.

Considering the quiet canvass and lack of visible opposition, the Democrats of Anderson County have done well in giving so large a majority as we have. Proper interest, however, would have increased our majority at least eight hundred or a thousand.

South Carolina is safe, notwithstanding the fight that was made upon us by United States officials, and men who are hunting for office at the hands of the Republicans.

BLACKVILLE, Nov. 3.—All precincts heard from. Barnwell County goes Democratic by 3,000 majority.

CHESTER, Nov. 3.—The lowest estimate gives the entire Democratic ticket 1,400 majority in this County.

CLAYTON, Nov. 3.—The Presidential ticket, Blythe for Congress, McAllister, Independent, for the Legislature, Macey, Radical, for clerk of court, and White for school commissioner.

COLUMBIA, Nov. 3.—The polls at Summerville and Delemars, in Colleton County, were closed yesterday by the failure of the managers to report for duty.

DARLINGTON, Nov. 2.—Darlington County gives the Democratic Electors and Congressman Richardson at least 1,000 majority, and elects her full County ticket.

GEORGETOWN, Nov. 2.—The polls at Summerville and Delemars, in Colleton County, were closed yesterday by the failure of the managers to report for duty.

GREENVILLE, Nov. 2.—The indications are that York will give the National Democratic ticket from 1,200 to 1,500 majority.

LANCASTER, Nov. 3.—Lancaster's vote yesterday was about eighteen hundred Democratic and fifteen Greenback. The Radicals did not vote, having no ticket.

CHARLESTON, Nov. 3.—Very few official returns have been received from the election in the State, but what are in hand indicate the election of four Democratic Congressmen, and the 2nd District still in doubt.

CHARLESTON, S. C., Nov. 3.—Returns for this County are not all in. The result is doubtful but the probabilities are favorable to the Democratic ticket.

It is rumored that 50,000 tons of English steel rails have been purchased by the W. H. Vanderbilt, after appealing to New York at the present market rates—\$63 per ton.

The way in which trading in votes was carried on in Indiana is indicated by the returns for Wayne County, a Republican stronghold.

VALDIVIA, HAMPTON CO., November 2.—11 p. m.—Hancock, Tilden and the rest of the ticket will have 1,500 majority in this County. The polls about one hundred Radicals fired of guns and pistols. They were led by United States Supervisor Gantt, who tried hard to provoke a difficulty but without avail.

Driving the Chinese In South.

DENVER, COLO., October 31. Denver has been in the hands of a mob for eight hours, and now fully 1,500 rioters are in the street. It was discovered a week ago that fully eight thousand illegal Chinese had been driven into the city immediately thereafter the streets filled with strangers of the worst character.

At noon they made an assault upon the Chinese houses, tearing down the houses and beating and dragging out the Chinese. Many Chinamen were killed. One was rescued by the police and taken to the jail, which was immediately surrounded by a mob of about 1,000, who hurrahed and sang and ran all night.

At this time, 11.30, everything is quiet, the mob having dispersed, but a large police force is patrolling the streets, and militia is ready for action at any moment. Many Chinamen were beaten with orders to remain so until after the election.
