P. Calhoun, Esq., editor of the Journal, spent last Wednesday in this city. He says Seneca is prospering, but her future is promising.

We are requested to announce that there will be a meeting of the citizens surrounding Centreville, Miss., on next Saturday at 1 o'clock in the afternoon for the purpose of hearing a discussion of the political topics of the day, and to reorganize the Democratic Club at that place. Messrs. R. W. Simpson, B. F. Crayton and E. B. Murray are expected to address the meeting, and Mr. W. Russell has been invited and is expected to be present and participate in the discussion. For the purpose of presenting the objects and views of the Greenback party in this State. A full attendance of the citizens of that portion of our county is requested for that occasion.

Our community is promised a treat in two elegant entertainments to be given this week at Masonic Hall, under the auspices of the ladies of the Episcopal Church, their object being to raise funds for the much-needed repairs on their house of worship. On this (Thursday) evening there will be a grand vocal and instrumental concert, by some of the ladies and gentlemen of the city, with the valuable assistance of the "Trombone Septette," the newly organized and splendid band of our city, a full programme of which has been distributed. Admission, 50c; children, 25c. On Friday evening an entirely different programme is promised, and the hall will be opened at 7 o'clock to allow children and others who do not like to go out at night an opportunity of enjoying the refreshments, which will be sold at reasonable rates, from 7 to 11 o'clock. Admission free.

On Saturday last about 12 o'clock a storm of wind and rain struck this place with considerable fury, and continued for about twenty minutes. For a while it looked as though we were going to have a tornado, and the wind was great and the rain was heavy. A large number of trees were blown down in different parts of the city, but otherwise little damage was done. The track of the storm was seven or eight miles wide, and in many sections of the county, we regret to learn, considerable damage was done to the growing crops by a heavy fall of hail. In the lower edge of the county a number of houses were demolished, and in all the course of the storm trees were blown down, that the hundred feet reached Little River church, just across the Abbeville line, at 12 o'clock, where a large congregation were assembled for worship, and for fifteen minutes all were in constant expectation of seeing the house go to pieces. The most serious damage by hail was on the farms of Mr. W. G. Watson and R. R. Beatty, five or six miles below this place. Their crops of cotton suffered most, but with favorable seasons it was not so much as to make them give up. We have not heard what Mr. Beatty estimates the injury to his crop to be. More or less damage was done on other farms, but we are glad to learn that it was not serious.

"There is no such place as the town of Anderson, and consequently it has no business whatever."—Intelligencer. "The last part of this statement is no news. The first part is a little surprising. We knew that most of Anderson was in the woods, but had not heard of its entire disappearance before. We shall now expect the speedy appearance of notices like this. The mail will be distributed for the present every Wednesday in the ticket to the left of the railroad. Subscriptions to the Intelligencer under the large chestnut tree a few hundred yards from the fork of the public roads." Court convened in Major Crayton's hen house after service by the Sheriff of a writ of ejectment on the three Ply-mouth Rock hens formerly occupying that imposing structure. Greenville News. "This is all very funny, but the trouble is that it is purely imaginary, and shows that the News man does not keep up with the times. There is no such place as the town of Anderson; there is such a place as the city of Anderson. No doubt Greenville would like to have it blotted out of the list of our rivals. This city not only has the main line of the Columbia, but it will very soon have a competing line to Augusta. We promise, however, in our prosperity to sympathize with our suburban neighbors in their much-paraded chagrin and disappointment.

The Circuit Court.

The Summer Term of the Circuit Court for this county convened on last Monday, at Honor Judge B. C. Presley presiding and Col. J. L. Orr, the Solicitor, representing the State.

His Honor charged the Grand Jury as to the bills given out by the State, and said that he would give to the Grand Jury no further work than passing on the bills given out by the Solicitor, as he recognized the importance to the country of having the farmers at home at this season of the year. He told them that if they knew of any man requiring their attention that they should look into it, but otherwise he would discharge them as soon as they finished the bills given them.

The following cases were then tried: The State vs. Julius Green, burglary and larceny—guilty. Sentenced to three years' hard labor in the Penitentiary.

The State vs. Martha Hill, burglary and larceny—guilty of larceny. Sentenced to one month in jail.

The State vs. Robert Rix, house-breaking in day time and larceny—guilty. Sentenced to three years in Penitentiary, at moderate labor.

The Grand and Petit Juries were dismissed, and the Court of General Sessions adjourned on Monday afternoon.

The Court of Common Pleas was opened on Tuesday morning, and the business of the term disposed of by 10 o'clock on Wednesday, and at that hour the Court adjourned.

Our people were as much delighted with the dignity, ability and speed with which Judge Presley dispatches business as ever. In him the State has secured an able, pure and distinguished jurist.

Arrangements are being made for a harvest thanksgiving at Ninety-Six on the Fourth of July.

Mr. J. C. Kennard of Ninety-Six has raised twelve thousand bushels of oats this season.

Senator Hale, who presided over the Maine Republican State Convention Tuesday, very bluntly in some of his references to the President. Among other things he declared that the President "had belonged to that portion of the Republican party which has been in a minority, which is now in more of a minority than ever, and of which he believed it will be healthful for American politics if it remained in that minority." Mr. Hale further said he did not believe President Arthur was now bent on breaking the law, but that if he was so bent, he is bound to make a more deplorable failure than any man who ever was President. But the New York Tribune bent on setting up the very minority which Mr. Hale alludes to.

How sad to see a child growing up with an enfeebled appearance, sores covering the body, giving evidence of a Scrofulous taint in the blood. This can be eradicated by the use of a few bottles of S. A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, relieving the throat, and curing Coughs, Catarrhs, and the Throat Troubles which Singers and Public Speakers are subject to. Having been tested by the best medical authorities, and recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cents a box everywhere.

Mothers! Mothers! Mothers!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it regulates the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

THE SQUIRREL PROBLEM!

A Squirrel is up a tree and a man on the ground with a gun is trying to shoot it; but the squirrel persists in keeping on the opposite side of the tree from the man. The man walks clear around the tree to the place of starting, the squirrel goes about in the same direction and keeping the tree all the time between itself and the man. Now, the problem is, "Has the man been around the squirrel?" He has been around the tree with the squirrel on it, but has been around the squirrel?

James Shaw, who keeps an English

tap-room at 244 Pine street, Newark,

put twelve duck eggs under a setting hen

three weeks ago. On last Sunday the

hen quitted the nest and refused to re-

turn. Mr. Shaw, who is a young and

plump German woman, proposed that

she should try to hatch out the duck-

lings. She thought that if natural heat

could be applied to the eggs they would

hatch in a day or two, she thereupon

placed the eggs next her bosom, keeping

them covered with a thick warm cloth.

At night she kept the eggs beside her in

bed. On Monday afternoon she was

sensible of something pecking in one of

the eggs, and upon taking it out saw that

a duckling had forced its bill through

the shell. An hour afterward a second

duckling appeared. Mrs. Shaw had oc-

casional to go away, and she placed the

two ducklings with the remaining eggs

under the incubator, and returning

repeated the incubating process. On

Wednesday five more ducklings broke

their shells. In the other five eggs,

which were broken by her, ducklings

were found dead. The seven little stran-

gers are alive and frisky, and are objects

of great curiosity to visitors.—New York

Tribune.

The Old Star Fort, two miles South

of Ninety-Six, near the line of Abbe-

ville and Edgelyield Counties, and where

fifty years ago stood the then important

town of Cambridge with her 3,000 in-

habitants is a scene of much interest to

passing travelers, and indeed its conse-

quences in the history of the Revolution,

together with the romance and wonder-

ful traditions handed down from settlers,

of the unobliterated landmarks that are

still to be seen in the vicinity, combine

to form a consecrated charm to this once

home of our ancestors, and a wonderful

"romance of the untamed buffalo, horse and

savages."
