I be the grandest demonstration in history of Anderson county. The

The joint discussion between Mr. W. W. Russell and Maj. E. B. Murray at Centreville Mills on last Saturday resulted in only good to the Lemocracy. Mr. Russell's remarks were simply a repetition of what he said at Sanday Springs and Lee's Mill, and he was as completely demolished as on those occasions. To give an idea as to the fruitlessness of the Greenbacker's effort, it is stated that he requested several citizens present who had recently moved into the community not to join the Democratic Club until after they had heard what he had to say, at. as soon as the speaking was over they promptly enrolled their names as members of the Club. The Club was reorganized with W. J. Erwin President, S. N. Brown Vice President and John L. Jolly Secretary. It was a good day for the Democracy.

The Survivors's Reunion on the 21st July. Anderson, June 24, 1882. Pursuant to call made through the county papers, a large representation from the different companies that served in the late war from Anderson County met in the Judge of i'robate's office this day and organized by

electing W. W. Hamphreys chairman and W. J. Ligon secretary.

The object of the meeting was explained to be the making of arrangements for the survivors' meeting to be held at Keys' Spring on the 21st July, and the generalizing and enlarging of the committee of arrangements heretofore appointed. A general interchange of views followed, expressive of the approval and hearty co-operation of all present, and a determination to do all in their power to make the meeting

The following additional speakers were elected to deliver addresses on the occasion to wit: Gen. Ellison Capers, Hon. D. Wyatt Aiken and Col. W. C. Keith.

The committee of arrangements was enlarged by the appointment of the following additional members, to wit:

Orr's Regiment-R. R. Beaty, James H. McConnell, Robert Junkin from Company "E"; G. W. Cox, R. S. Cheshire, Fields Haynie from Company "K"; J. N. Vandiver, W. T. McGill, Jesse L. Fant from

rising into prominence in his commuHis crop of small grain this year unted to 1,359 bushels, of which 775 wheat and 584 oats.

This is the title of a serial story, the publication of which will begin in the Weekly News of July 5, and be continued from week to week until concluded. The author is Mr. J. Witherspoon Ervin, whose "Bride of St. Davidis" was so well received by the readers of the Weekly News. This story made his name familiar in every household of the State and gave him rank as one of our purest and most charming writers of fiction, one on whom the mantle of the lamented Simms seems to have fallen. "The Eutaw Cadet" was originally published, under another title, in the Yorkville Enquirer, about fifteen years ago, but it had recently been re-written and improved, with a view to publication in book form, when the author, yielding to our solicitations and impelled by a praiseworthy desire to build up periodical fiterature in his native State, consented to dispose of it to the Weekly News.

onsented to dispose of it to the Weekly News. It have the colored men with a pistol, ting slight flesh wounds on each of the Education. We learn that the shooting was in self-defence.

THE SQUIRREL PROBLEM!

A Squirrel is up a tree and a man on the ground with a gun is trying to shoot it; but the squirrel persists in keeping on the opposite side of the tree from the man. The man walks clear around the tree to the place of starting, the squirrel going about in the same direction and keeping the tree all the time between itself and the man. Now, the problem is, "Has the man been around the squirrel?" He has been around the tree with the squirrel on it, but has he been around the

VAN WINKLE GIN, FEEDER

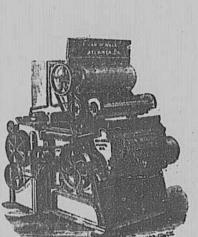

CONDENSER,

DO YOU KNOW OUR LOW PRICES? Manufactured at Atlanta, Georgia, and to which the PRE-MIUM was awarded at the Atlanta Cotton Exposition, Charleston Industrial Exhibition, February, 1882, and at the South Carolina

E. VAN WINKLE & CO.-Awarded for best Sample, best general results in Jinning, and best constructed Machine, the first prize, \$100.69, or Gold Medal.

T. W. SMEDES, Mississippi.

Director General Atlanta Cotton Exposition,

Description of our Gin.

THE VAN WINKLE GIN is made with substantial iron frame, self-oiling boxes, brush boxes self-adjusting. Every precaution taken to prevent grit getting in the journals. The brushes are made with iron bound heads, and the sticks dovetailed in and driven in from the end, and any one of them can be taken out or replaced without interforing with the other sticks. We use no wire nor glue, and it is improved pattern, the saws of best English steel and needle pointed. Every part of the Gin has been gotton up with great care, with the especial idea of making a machine that will not get out of order, easily repaired if it should, always ready for work, and give the best general results. Any piece can be duplicated from our factory.

The Van Winkle Feeder and Condenser

Can be attached to any other Gin, so parties having other make of Gins and wishing Feeders or Condensers can be supplied by sending in their order in time, and I will guarantee satisfaction.

All kinds of Pulleys and Shafting furnished to Order.

Schofield Engines,

Schofield Cotton Press

Has long been before the public, and is too well known to need any further description. Its chief points of merits are: It takes very little room, is easily handled, and takes so little power; can be used on all kinds of powers—horse, water or steam. Ginning and packing can all go on at the same time, without interfering with the Gin. A two-inch belt will pack a 500 lb, bale of cotton. It saves its cost the first season in labor.

Read the following Testimonials:

Anderson, S. C., April 30, 1881.—Mr. John E. Peoples—Sir: The Steam Power Van Winkle Cotton Press bought from you last Fall has given entire satisfaction. I packed bales of cotton weighing 660 to 725 lbs. in five minutes with all case, using a 4-inch belt and 25 lbs. steam. There did not seem any more strain on the Press than with a 450 lb. bale. For strength, durability, lightness of power, small quantity of steam required, economy of space, I deem it the King of all Cotton Presses; especially so as the low price at which it can be bought for puts it within reach of every man running a steam Gin. In fact, I would not be without it for twice its cost. I would advise all my friends to buy one of Van Winkle's Steam Power Cotton Presses, as you will save its cost in labor in one year.

Anderson, S. C., May 19, 1881—John F Peoples—Dear Sir: The Van Winkle Cotton Press bought of you last season has given perfect satisfaction, and I consider it the best Power Press I have ever seen. S. N. PEARMAN.

Anderson, S. C., May 16, 188!.—John E. Peoples—Dear Sir: The Van Winkle Steam Power Press we bought of you last Fall is the very Press adapted to the wants of the farmers of this County. It saves labor, takes but very little room, and very little power to run it up and down. We only work one hand with our Press. Can cheerfully recommend it to any one wishing to purchase a Press, as it will save its cost in a short time. We packed bales weighing over 600 lbs. with a 4-inch belt.

J. L. GEER,
S. CARPENTER.

Anderson, S. C., April 30, 1881.—To J. E. Peoples, Agent for Van Winkle Cotton Press: The Van Winkle Power Press bought of you last season is the strongest and most complete Steam Power Press I have ever used, and will pack minutes. It is durable and convenient in every respect. I would act any who desire a Press to purchase one. W. A. GEER.
