### The Trial Justices.

Much has been said of late by various newspapers of the State in reference to our Trial Justices, and their inefficiency. We think one radical and vital error lies in the fact that a Trial Justice's fees may be affected by his decisions. We believe that it takes a high order of man to hold think of making a Circuit or Supreme Judge's fees contingent upon the decisions he might render. A trial justice is t was determined to reach them outside a judicial officer, and should be governed by the same intelligent sense of justice that controls the higher officer, and the temptation to do a doubtful act should be removed. He should be a salaried officer, and thus placed in a position where he would have no interest in using his office as an engine of oppression in sending trivial cases up to the higher court, and binding over an army of witnesses who may fail to make out a case even before the Grand Jury.

A small salary to the Trial Justice would, in our opinion, save the County thousands of dollars in the way of Court and carried to Clayton where he will be tried next Tuesday. Judge Logan E. Bleckley, Pope Barrow and W. F. Find-level 19, witnesses to Court was not a source of
