The doctrine of holiness or sanctifica-tion has been attracting a great deal of attention in other States, but in our im-mediate section the subject has never be-fore been agitated, at least in our recollec-tion. Our people were eager and anxious to learn something about the subject, con-sequently the meeting was well adver-tised.

The meeting opened on last Friday evening, and notwithstanding the inclement weather, a large audience turned out.

Mr. Watson conducted the meeting, and Mr. Joel Kay, of Honea Path Township, met with an unfortunate accident last Saturday. He was in the act of arranging the belt on the wheel of the gin, when the engine started and his right hand was caught and carried around between the belt and the wheel. The Struckes all lard was given some mail to carry to Mr. Fant went the did not deliver it. On That is a new feature in that institution, and promises good results. We are informed that some of the students made very fine papers, while others, as is the case in every school, did not do so well. One case, we think, deserves special mention, and promises good results.

The Thursday evening Mr. Fant went to deliver it. On T This institution seems to be in a floured about four hours, nanded Prot. Ligon a paper which was faultless. The Professor, after examining it, remarked: "I will give one dollar for every mistake that can be found in it." That kind of a compliment, coming from a gentleman of Prof. Ligon's ability, is worth something. Several other cadets made fine papers, and prominent among them were four or five of Anderson's own sons. Anderson

points with pride to the record of her boys at West Point, Annapolis, and at the South Carolina College; and she rejoices to know that her student-citizens are manfully sustaining the reputation of her school and of the city itself.

Prof. Ligon, aided by his popular and efficient assistant, Col. J. G. Clinkscales, seems to be determined to make the school succeed upon its own merits. Anderson should be proud of this institution, and our citizens should take advantion, and our citizens should take advantage of every opportunity to speak an encouraging word for it. There are many young men and boys living in reach of Anderson that ought to go to the Military School during the Winter months at least. Some are under the impression that they must pay tuition from the opening of the session, the first of Sentember. That is a session, the first of September. That is a mistake. The pay begins when they enter. If you must have your boys in your crop during the Spring and Summer, send them to school during the Winter.

The opposition to the Chinese laborers in the West is intense. In Washington Territory several insurrections have been organized for the purpose of expelling them, and in some instances bloodshed before the 3rd inst., and the following telegram gives an account of the manner

"This being the day set for the Chinese to leave at a signal given at 9.30 a.m., many hundred citizens congregated and marched in an orderly manner along the streets to the Chinese houses, ordering the occupants to pack their goods and leave. The order was complied with. By 5 p. m. their goods were packed and loaded on drays and the Chinese were marching along by the side of the loaded wagons en route to Lake View, nine miles south of here. The Chinese merchants were given until Wednesday morning to pack their goods, each store being allowed three assistants. One hundred and ninety-seven Chinese reached Lake View about 7 p. m., and camped in the vacant houses. It is not known whether they will take the morning train for Portland, but they probably will. Many of them are walking south

on the railroad track. Citizens have sent to the Chinese provisions to last till morning. No trouble has occurred."
