The Farmer's Convention in advocating the calling of a Constitutional Convention for this State did a most wise and opportune act. The present Constitution gres us a cumbrous and expensive form sovernment which cannot be remedied mendment, for such a mode of change tedious, uncertain and calculated to roduce unnecessary divisions among our people. The organic law under which we live would suit very well for a densely populated State like Massachusetts or New York: but it provides a number of unnecessary offices, and is in other respects contrary to the genius of our people. "FOR forty years I have been a victim to CA-TARRH—three-fourths of the time a sufferer from excruciating pains across my forehead and my nostrils. The discharges were so offensive that I hesitate to mention it, except for the good it may do some other sufferer. I have spent a young for-tune from my earnings during my forty years of suffering to obtain relief from the doctors. I have tried patent medicines—every one I could learn of—from the four corners of the earth, with no relief. And at last (57 years of age) have met with a remedy that has cured me entirely—made me a new man. I weighed 128 pounds and now weigh 146. I used thirteen bottles of the medicine, and the only regret I have is that being in the humble walks of life I may not have influence to prevail on all Catarrh sufferers to use what has cured me, Guinn's Pioneer Blood Renewer.
