for revenge by the time Congress reasembles, and will not then trouble himself to have the new man rejected. He will become used to being out of office and not care so much for it nor feel so sore over his removal. I heard a member of Congress say in a street car one day this week that the day before he had a plain talk with the President, and told him that he had received a renomination but could not be elected unless the President would at once give him the Federal appointments in his district. To lose the district would be to lose a Democratic member, and the Pres-

ident should not permit a loss to his party when it was in his power to prevent it. The member said that the argument was a "knock down one," and the President told him to make out his list and send it with the papers in support of each applicant and he would make the appointments. Plain talk is the most affective after all, and as many members are using the same argument, appointments in large numbers may be looked for before the President leaves for his vacation. The offices belong to the Democrats by right of conquest, argue the petitioners, and the evil is not in appointing men of your own party, but ones.

The features of the exterior are the broad and pleasant piazas surrounding the house and the high and resque roof of tiles.

Two very interesting additions have lately. Mrs. Lills May Pavy, the widow of the late Dr. Octave Pavy, naturalist and surgeon of the Greely Arctic Expedition, has donated to the Museum the trip to the Arctic regions. Among the articles thus donated are two suits of elderduck-worn by the Esquimaux wowarms than, a roomed made of the skin of black and white polar bears, a model of the aled used by Dr. Pavy in the South of Greenland, whist counters made from wairus tusk and a piece of the fing of the Polaria, carried by Dr. Pavy to latitude 83°. **ANDERSON** 

W. J. LIGON, Principal.

THE property of the Anderson Educational Association, known as the University, having been leased to other parties, I beg leave to inform my friends, and the public generally, that I will open a School for young men and boys in the City of Anderson on the 30th August next. Having spent thirty-seven years of my life exclusively in the business of teaching —twenty-eight in Anderson County and nine elsewhere—the fruits of my labors are well known, not only to this people, but also to many others outside of this County and in different parts of the State; and is, therefore, with a confident expectation of a liberal support from my former patrons and others that I offer my services to the people of Anderson and surrounding coun-

It is my purpose, by careful and unremitting attention, to teach thoroughly all the Classical, Mathematical and Scientific branches usually taught in High Schools and Academies, and at the same time equa and Academies, and at the same time equal care and attention will be given to those engaged in the elementary and less advanced studies, using for both classes of students the latest and most approved Text Books, and adopting such modern methods of instruction as have received the endorsement of the best educators of our time. Special attention will be given to the preparation of students for College, and to those who are unable, for lack of time or means, to take a Collegiate course, my ear-nest efforts will be given to aid them in acquiring a solid, well-grounded education which will fit them to discharge creditably

and efficiently all the practical business du ties of life. I trust I will be excused if I refer with a pardonable pride, as a result of my life's work as an educator, to the large number of my former students, of both sexes, who have won the first prize at several rigid competitive examinations; and, also, to the long list of young men who have achieved success in the learned professions, and con-

It is not my intention to antagonize any other institution of learning in our City—there is room for all; but by faithful, conscientious work, I hope to merit and re-ceive a proportionate share of the public

patronage.

The scholastic year extends from August 30th, 1886, to June 3rd, 1887, divided into two sessions. The first ends Jan. 15th, 1887, and the second begins on the following Monday and ends June 3rd, 1887. There will be an intermission of one week at Charges will be made by the session, and when a student enters school, he will be charged from the day of entrance to the end of the session in which he enters. No

cept in cases of long, protracted illness.

Tultion fees must be paid promptly the end of each month, or a satisfa arrangement made with regard to them. No student greatly in arrears will be al-iowed to continue in the school. Teaching s the business by which I gain a liveli-hood, and it is as reasonable that I should require prompt payment for my work when it is done as any other laborer in any other work. The merchant can give long credit but he always charges proportionately higher prices. The rates I offer are strictly cash—payable monthly.
Tuition fees will be \$12.00, \$16.00 and \$20.00 per session, according to the studies pursued by the student. Contingent fee fifty cents per session, to cover incidentals.

Arrangements have been made by which students can be boarded at reasonable prices in the Country of the country of

in the City.

Students of my School, boarding at any place, will be responsible to me for their conduct. Further information with regard to my School will be cheerfully furnished.

We know that the prices we offer these Goods at will be a surprise to you. We know, also, that competition is out of the question, for if others would undertake to sell their Goods at the prices we do, they would have to sell them for less than they paid for them, and board themselves besides, and this wouldn't be business, you

The following are a few of the prices at which we will sell for the next sixty days, in order to make room for our Fall purchases : 5,000 pairs Ladies' and Gent's Shoes, from 50c to \$1.00 per pair. 1,000 pairs Ladies' and Gents' Shoes, from \$1.00 to \$2.50 per pair.

1,000 Men's and Boys' Straw Hats, from 5c to 75c each-worth double the 750 Men's and Boys' Wool and Fur Hats from 10c to \$1.50 each-

Dress Goods, Notions, Fancy Goods, Hosiery, Gloves, Ladies' Collars and Cuffs, Belts, Veiling, Ruffling, and a multitude of other articles, at just half the customary prices. RIBBONS-a large lot, including all the new shades-on which we are entire

ly overstocked, and must sell. You can have them at your own price. CORSETS from 25c to 50c-can't be bought for less than 50c to 75c. The fa mous "Ball" Corsets, the best in the world, we will sell at less than manufacturer's cost. The makers of these Corsets require their agents to sell them at not less than 25 per cent. above cost, but as we bought them at an Assignee's Sale, of course made no agreement of that sort. Buyers, who understand their true value, are eagerly making their purchases now, and we would advise you to buy early, as we

will not be able to replace them at the prices offered. On next Thursday, Friday and Saturday, the 8th, 9th and 10th days of July,

We will make a Special Exhibit of Gent's and Boys' STRAW and FELT HATS, with prices marked down low, to be good only for these three days. We want everybody who wants Hats to come, as this will be an opportunity to buy them

cheap, and for less than their value. Come anyway, whether you want to buy or not, but bring your money along, in case you should see anything in our Store so cheap that you may want it, that

you may not be disappointed about it. We will be glad to see you at all times, and will do our best to please you We know that we can make it to your interest to give us your trade, as we have a Stock of Goods that cost us less money than others have to pay for them. Come
