Did it ever strike you that everything worth having has a price and must be paid for? Do you want friendship—you must pay for it with friendship. Do you want love—you must love in return. Do you want to be trusted—you must trust. Do you want to be honored, you must honor. And so on.

On our first page will be found an interesting letter from Lieut. John A. Towars, who is now stationed in California, giving an account of his trip from Anderson to his new home. "The Shadow of the War," a story of South Carolina in reconstruction times, is the name of a book which Messrs. G. W. Wadsworth & Son have laid upon our table, and which we have read. The scenes are laid down in the lower section of the State, and while it gives a brief history of our condition and government prior to 1873, it contains just enough romance to make it still more interesting. These gentlemen only have a few copies, which they are offering at 50 cents apiece.

While driving up Calhoun street Tuesday evening, Mr. John M. Hubbard's horse became frightened at the barking of some dogs, and ran away. The buggy was turned over and Mr. Hubbard, who was driving, was thrown out, but fortunately was not hurt. By some means he became entangled in the harness, and was thrown to the ground, sustaining it is feared, serious injury.

Mrs. Jane Hopkins, wife of the late John M. Hopkins, died at the residence of her son, near Pendleton, on Sunday night, 7th inst., aged 85 years. Her remains were brought to this city and interred in the Presbyterian cemetery on Tuesday morning, after impressive funeral services being conducted by Rev. J. W. Welling. Mrs. Hopkins had been since her childhood a faithful and consistent member of the Methodist Church, and she was fully prepared to meet the summons of death. She was greatly beloved by many friends and relatives.

Mrs. Arnelia Sullivan died at her home in Fort Township on Wednesday morning, 3rd inst., aged about 44 years. Mrs. Sullivan had been in bad health for several months past, but was able to look after her household duties until about a week before her death, when she was attacked by fever, which caused her death. She was a faithful member of the Townville Baptist Church, and her remains were interred in the cemetery of that Church, Rev. T. C. Ligon conducting the funeral services. She leaves three children and a host of friends to mourn her death.

Make the Orphans Happy. From all over South Carolina and Georgia there is gathered into the Thorowell Orphanage, in Clinton, S. C., an orphan household of more than sixty, who are being cared for as Elijah was at the brook Cherith. These are the wards of the Lord's people. If the hearts of benevolent Christians of this and adjoining States should withdraw their hands, all of these children would speedily lose their opportunity of an education, and would leave this quiet, happy country home, where they are not only kindly cared for, but also taught useful manual arts and given an excellent common school education.

It is a good thing to give thanks unto the Lord. But the Lord himself tells us that the most acceptable thanksgiving to him is to feed the fatherless and relieve the widow. What say the readers of this

paper about adopting this method of observing Thanksgiving Day. Send a bag of flour, or a sack of corn, or a barrel of molasses, or a few dollars to the Thorowell Orphanage, Clinton, S. C. Last year the average of a full year's care of each child, including board, clothing, education and matron's attention was only \$30 for each child, which is evidence of economy. What is given is well given.

This is the only Institution for orphans in South Carolina, outside of Charleston. Though under the care of Presbyterians, it is open to children of all or no denomination.

The Weather Reports. Gen. Kemper receives reports of the weather indications every morning, and the flags are hoisted on the University cupola. Below we give a full explanation of the flags, and our readers would do well to cut it out and preserve it for reference.

PREPARATIONS OF INDICATIONS. The weather indications furnished to the State by the Chief Signal Officer are based on observations taken in all parts of the country three times a day. The morning indications are prepared at 11 a. m. (Eastern standard time) of the preceding night, and hold good for the 24 hours following.

MEANING OF FLAGS. No. 1 (white flag) refers always to Fair or Clear Weather. No. 2 (Orange flag) refers always to Local Rains. No. 3 (Blue flag) refers to General Rains.

No. 4 (Black triangle flag) refers always to Decidedly Cold Weather, and is generally issued twelve or four hours in advance of the expected fall of temperature. The signal is not ordered unless it is expected that the temperature will fall to 45 degrees, Fahrenheit, or below, within the time stated in the order.

EXAMPLES. "Cooler fair weather," display flag No. 1 with No. 4 below it. "General rains, higher temperature," display No. 3 with No. 4 above it. "Stationary, temperature and local rains," display No. 2 only. "Stationary temperature and general rains, followed by cooler clear weather," display No. 3 (space) and No. 1 with No. 4 below it.

The exercises will consist of choice readings and recitations, interspersed with music. The old stringer track of the C. & G. R. R., between this place and Hones Path, has been taken up and one of steel railing put in its stead. The force of hands is at work now removing the old track on the Anderson branch, making the same improvement.

Last Monday when the up-freight train, engineer Jones, was about three miles below this place, it ran into a pile of crockery, which had been heaped on the track. Luckily no damage was done. This is not the first time this such a notorious deed as wrecking a train has been attempted on this part of the Road. A person who is so depraved as to hold property and life ought to be ferreted out and be punished to the utmost extent of the law.

An End to Bone Scraping. Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used instead three bottles of Electric Bitters, and my leg is now sound and well." Electric Bitters are sold at fifty cents a bottle, and Buckner's Arnica Salve at 25c. per box by Hill Bros.

The Central Deal. New York, November 6.—The Central Railroad deal is as much of a mystery here as it seems to be in Savannah and Augusta. I lunched with a party of gentlemen to-day who are largely interested in the stock. The recent course of the market, the present price of the stock, and the probable content in the coming election made subjects of conversation. Every man seemed bent on learning all he could, and telling as little as possible. My own impression after listening attentively is about this effect: The next President of the Central Railroad of Georgia, is, up to date, a decidedly "unknown quantity." Gen. Alexander's friends say he will not run unless his election is absolutely assured. Unless positive control of all stock held here can be secured in his interest, I do not see how such assurance can be given. Mrs. Hattie Green, with her \$700 share, is said to be uncommitted as yet. She knows the value of proxies in close elections, and is not likely to throw hers away. There are three or four parties here claiming to control the stock which has of late months come to New York. I think the truth in regard to this is that each party controls some, and neither of them all. Green & Bateman will no doubt control a large block, but they are not saying openly yet who is their candidate. The Moses Taylor estate votes about 4,500 shares, which will go for Capt. Raoul. Mr. Adam Dutebocher has been a very large buyer of the stock since the deal began, and is an enthusiastic supporter of General Alexander. How the election will go I would not venture to say, but the stock will go much higher before the squabble is over.

The gold fever is breaking out between Glendale and Pacolet, Spartanburg County. W. A. Linder sold to a Boston mining company 271 acres of land for \$10,000. He received a portion of the money cash. The same company bought a neighboring farm for \$20 an acre. There is gold all through that neighborhood.

Cleveland had some luck after all. The Chattanooga Times recalls the fact that this present is the third time in fifty years in which an administration held the House through its two last years. Even during the war Lincoln had to deal with an adverse House from 1862 to 1865. Grant, in 1874, had the House to change the deal, and a two-third majority in his favor to nearly as great a majority against him.

On Mrs. Schaffner's place, near Briar Creek, Burke County, has been discovered, since the earthquake, a hole 12 feet in diameter, which is partly filled with water.
