MR. EDITOR: On reading my last article on tobacco, I was very much mortified to see the condition in which I had sent it to you. The natural inference from my statement would be that I had tried to impose on the Department by putting Virginia tobacco in my sample, but nothing was further from my intention, as I will explain; the matter refere o a different transaction :

I was instructed, and the seed sent me o plant an acre of Oronoke tobacco, and send a 10 pound sample of the tobacco to ment, I would, of course, have sent the best tobacco I had, for I had plenty a great deal better than any I sent, but as it was not raised on the experimental mental acre, and nearly all of it was been experimenting on some new varie vious had sent the Commissioner of Agriculture some specimens by mail, and promised to send some more when I sent my sample, requesting him to get some expert to look at and give his opinion as to the merits of the varieties. I selected some specimens of new varieties and tried to put it up nicely in small bunches to deposit in the Department as curiosities, but the tobacco was so dry I had to tie it up with cotton strings in large bunches. I marked one bunch, I think, Spanish hybrid, crops 1883, '85, please report. Another bunch was composed of several different specimens, and in this bunch I foolishly and thoughtlessly put in a few leaves of Virginia tobacco which I had out comparing. This bunch was marked in a manner equally explicit to listinguish it from the sample.

I supposed the Commissioner would detect these specimens on opening the box, and would recollect the sample I had sent him by mail, and also my request-get the expert to look at them But on reflection, and reading Mr. Pace's report, I do not think he examined these surplus specimens, that being no part of his duties. His business was simply to decide on the premium, and one glance at my box would have convinced him that I had no expectations of getting any premium. In fact, I never had any idea of entering for a premium, and had not even thought of a premium since the disaster of the 14th July. I had two reasons for putting in the

specimens. One was I wished to show the Commissioner that Anderson County could do a little better than my sample indicated, and the other was to get the opinion of some person on these new varieties. I simply put in those Virginia leaves to see if the expert would find them. I agree now that it was very wrong to do it, but I did it thoughtlessly, knowing that they were no part of my sample, and I did not think there was taken as part of my Oronoke sample, as they were plainly marked. Mr. Pace gave my Oronoke sample a better position than I expected. Two of my neighbors had raised a quantity of tobacco last year and sent it to Danville, and only got from one to three cents for it, there is a let up. During the past week only got from one to three cents for it, there is a let up. During the past week cratic primary. He was in the State and it was better tobacco than mine. Some of it at least.

culture, or Mr. Pace, for anything they in in large numbers, and it is not seen have done. They have done nothing but their simple duty, and it was no part of their duties to attend to my requests. Any man who expects to plant more than a small patch of tobacco, should build him a barn and employ an expert to cure it. He can make off of onefourth acre, or less, enough good tobacco for an ordinary family, if he can get it set out in May, for there is nearly always

enough suitable weather from the middle of July to the last of August to cure a small patch of good tobacco. All that is necessary in curing tobacco is to have a heat of 90 degrees, and upwards, with close attention and proper management.

J. W. EARLE. Prohibition in Anderson.

It will be seen by the published proceedings of the meeting held at Anderson City on the 12th inst., that the people of that County are aroused on the Probibition Local Option Act passed by the last General Assembly for that County. The measure has a very strong support from County. Hon. B. F. Crayton, a man of sound discretion and judgment, and who has served his County and State in the nas served his County and State in the upper branch of the Legislature, and who has in the past been prominently spoken of for the Governorship, is giving the prohibition movement his co-operation and counsel as one of its leaders. Supported by such a man, and sustained by others equally good but may be not altogether as prominent in the public affairs of the County, let us hope that the measure will be triumphantly carried at the polls. If so, our neighbor will be in the van in genuine and true progress. Many friends of prohibition in Greenville County as well as all over the State, will observe the Anderson campaign with much interest and concern, not only as to the result but as to the methods used. This is not by any means the first time that Anderson has been in the front in leading the way towards prosperity. This measure, like that of the stock law and other reforms, after it has been in operation a few years, will no doubt rove so beneficent that even its opposers will become its advocates.

A Local Option Act may be passed for Greenville County at the next session of | had discovered a remedy in an old Gerthe Legislature, as all our delegation mary election campaign; and if so, her people will have the benefit of the blazing out of the way as done by Anderson, which will aid doubtless in escaping many attritions that are almost inevitaole when passing over new and untried

A Blow at Liquor Dealers. The Connecticut house of representa ives passed a curious bill on Thursday. It is the straightest temperance measure of the session, and it hits a hard rap at it was perfectly black all through. Since the saloons. Heretofore saloons have een permitted to be open from five and now a single crab remains on the o'clock in the morning until midnight. The bill passed Thursday requires them o keep their doors locked until seven in the morning, so that all working people who begin their labors at that hour are shut off from getting their morning nip. An effort was made to amend the bill so s to make no restriction on the morning hour for opening saloons in the cities, arms, and found it impossible to sleep at but the seven o'clock feature tickled the night on account of the terrible pain he fancy of the temperance element because the cities they may be kept open until midnight by special permission of the authorities. The bill, which will doubtless pass the senate, is the hardest blow less pass the senate, is the hardest blow less pass the senate of the mound, thus keeping it clean and preventing the poison from being the poison from being and preventing the poison from being the conditions, carry the party to victory. I don't see how they are going to get around it. They must take him. It will have been accepted by the conditions, carry the party to victory. I don't see how they are going to get around it. They must take him. It will have been accepted by the around it. They must take him. It will have been accepted by the around it. They must take him. It will have been accepted by the around it. OUR WASHINGTON LETTER.

WASHINGTON, D. C., Mar. 28, 1887. Although the weather continues cold the days are bright and pleasant, and evidences of the opening of spring time abound upon every hand. The buds are bursting upon the earlier varieties of trees. and crocuses and other blossoming plants are in full blossom in the parks and public grounds.

As the time approaches for the opening of the great National Drill the head-Columbia, which I did in good faith. If quarters of the committee, having the I had wished to impose on the Depart- matter in charge, presents a very active appearance. Military organizations from every State in the Union have notified the committee of their intention of participating in the contests, and it is acre of 1886, it, of course, would not probable that at least fifteen thousand have been an honest sample. Every leaf; men will be included in the grand of my sample was raised on the experi- review, to be held upon the closing day. Although the success of the undertaking Oronoke, from Department seed. I had | had long since been assured, the uncertainty which has existed regarding the concessions to be expected from railroad companies, has prevented many military organizations from incurring the expense of the journey. Since it has been decided that all of the trunk lines of the country are to carry passengers at less than one-half fare, the committee has received a wound between the eighth and been jubilant, and there is no longer a doubt but that the National Capital will be taxed to its uttermost to accommobile taxed taxed to its uttermost to accommobile taxed taxed to its uttermost to accommobile taxed taxed taxed to its uttermost taxed tax date its guests during "drill week." As side. At the present writing the wound the last day of the drill will occur upon is considered mortal, it being the opinion Decoration Day, it is proposed that the visiting military shall visit the National Cemetery at Arlington, and participate in the decoration ceremonies, and as the route by the Long Bridge is circuitous, a pontoon bridge will be thrown across the river, at the foot of G street, for use upon that occasion.

There seems to be no relation between the railroad collisions and the Patent Office, but one of the direct results of the recent railroad disasters in Vermont and Massachusetts, has been to stimulate the inventive minds throughout the country. and they have set at work to invent something that will supply an acknowledged public need, and the Patent Office is being flooded with applications for patents for a great variety of devices for modifying the danger incident to the present means of heating railway cars. No less than three hundred and sixty applications of this class have been received during the past six weeks, and the number is increasing daily.

One of the stable institutions of the National Government is the office of the Sergeant-at-Arms of the House of Representatives. It is at this office that the employees of the House side of the Capitol receive their monthly payments, and the office is open the year around. Among the Members in the city, who visited the office a day or two since, was Representative W. L. Scott, of Pennsylvania. Mr. Scott had not drawn any tal. portion of his salary for more than a the least danger of the specimens being year, and he received from the cashier \$9,000, which is said to have been the largest sum ever paid to a single individnal in the history of the office.

The work of the Pension Office is increasing so rapidly that there is a like- Greenville. His reputation as a how it is possible to dispose of the number before the end of the fiscal year, ending June 30, 1888. The \$6,000,000. and over, appropriated for this class of claims must be paid out before that time, the shooting came on the up train of the or else, whatever balance is on hand turned into the Treasury. This will probably necessitate another appropriation by Congress as it is next to impossible to finally dispose of the 40,000 claims which it is estimated will be filed. The claimants are beginning to understand the situation, and are accordingly pressing their claims for all they are worth. Newberry. Several days ago Mr. John-

The Cancer and the Crab. This morning while on my rounds I saw a curious and wonderful remedy,

Jacob Hertz, a well-known German citi-

which is said to be a sure cure for can-

zon of Augusta. While wending my way up town this morning I was hailed by a gentleman who invited me to accompany him to the room Johnstone. of the gentleman above mentioned, at the same time stating that I would find it a good subject to write upon. Upon entering the room we found a number of gentlemen, together with Mr. Hertz, who large, common sea crab clinging to his neck. Upon being asked about himself, Mr. Hertz stated that about a year ago he was troubled with a pimple on his tongue, which gradually grew larger and larger until it developed into cancer. He went to a prominent New York physician, who stated that the only remedy was to cut out the tongue. Mr. Hertz consented to this, and his entire tongue, including the root, was taken out. A remarkable thing about this is that, although his tongue is entirely gone, he can talk and be distinctly understood. After his tongue was taken out he enjoyed perfect health until about a month ago, when another cancer developed on the right side of his neck. The most prominent physicians of the city were call in, and after attending him for about a week pronounced it incurable, stating that it was impossible for him to live more than a few days. About this time an old friend of his, Wm. Voelker, visited his room one day and stated that he man book, printed fifty years ago, which was pronounced a positive cure for cancer. This remedy was to tie the claws of a crab and place him on the wound, the book stating that it would extract all the virus from the wound and then expire. Although Mr. Hertz's life had been despaired of by his friends, they decided o try this remedy as a last resort. Accordingly they obtained a basket of crabs from Charleston and tried them, putting the first one on about ten days ago. At that time the wound was fully two inches in diameter. The first crab

expired in about one hour, and when taken off and cut open it was found that wound for five hours without expiring, and the wound to day presents a decid edly more healthy appearance and is hardly an inch in diameter. When the doctors despaired of saving the life of Mr. Hertz and notified him that

he would die his neck was terribly swollen; he could neither move his head nor endured. At present he can move his head and arms freely, walks around the his friends and relatives now seem to A TRAGEDY IN A COURT ROOM.

encounter, which will probably prove fatal to Mr. Jones. The details of the are mesgre, and somewhat conflicting, and we give both sides as far as they have been published. The Register's dispatch from Newberry on the 26th

inst., says: When the Reeves-Corwin case was called in Trial Justice Blease's office this morning, it was expected that there would be trouble before the case would end, because of the personal feeling stone and Colonel John B. Jones. While Colonel Jones was addressing the Justice on some point in the case, the counsel became engaged in a passage of words, during which Johnstone denounced Jones as an "infamous puppy," whereupon firing began, which continued till the contents of each pistol was discharged. Johnstone and Jones were within a few

feet of each other during the firing, and it is somewhat remarkable that both were not killed. Colonel Jones, however, of the physicians that he will not live longer than twenty-four hours. Colonel Johnstone received one shot through the lobe of his ear, a glancing shot in his right groin, a bullet also passing through the coat sleeve of his left arm. Neither of his wounds are considered

George B. Cromer, Johnstone's partner and the Mayor of the city, in attempting o preserve the peace narrowly escape with his life, two bullets passing through his clothes. This sad event has enshrouded the

A dispatch to the Greenville News from Newberry, dated the 26th, says:

A shooting scrape occurred here today, between lawyers George Johnstone and John B. Jones, during a trial justice case in which they were on opposite sides. There had been bad feeling between the two for a week past and ooth went to the court armed. During the progress of the case Mr. Jones made some remark offensive to Mr. Johnstone to which Mr. Johnstone responded with another offensive epithet. Mr. Jones jerked out his pistol and fired once, probably twice, before Mr. Johnstone got his pistol out. They both then fired until they had emptied their pistols. The parties were standing in four feet of each other and there were twenty-five or thirty persons in the room. Mr. Johntone was struck in three places. One oall passed through the lobe of an ear, another grazed one arm, and the third his groin. His wounds are very slight. Mr. Jones was struck in the left side just below his heart, the ball passing almost through his body, stopping just under the skin. The wound is thought to be mor Mr. Jones is about twenty-five years old, and is the youngest son of Major Lambert J. Jones. The unfortunate affair is deeply regretted here, as both gentlemen stand high in the community, and are representatives of two of nia. Newberry's oldest and most honored

Both the parties are well known in legislature for several years and took a prominent-position there as chairman of lawyer and politician extends beyond the limits of the State, and he is known and trusted everywhere in this section. Mr. Jones is a first cousin of Senator Mauldin, of Greenville county, and a second cousin of James Lipscomb, of Lipscomb & Russell this city. News of Columbia & Greenville railroad, spread rapidly and caused the most intense interest, little else being talked of during the afternoon and the evening.

The difficulty is said to have occurred in Justice Blease's office a little before one o'clock. Passengers on the train say makers in North Carolina and persons who had been vending their goods in stone, who represented the manufactur-ers, sent Mr. Jones, who was on the other side, a note at which the latter took offense. He sent an answer telling Mr. Johnstone, in effect, to mind his own business and to abstain from interference in the affairs of others. From this correspondence both men evidently expected a difficulty and prepared themselves. The immediate provocation for the shooting is said to have been the calling

It is reported here, on good authority that Geo. B. Cromer was slightly wounded in one arm while trying to separate the combatants, and that when the shot that struck Mr. Johnstone in the ear was was sitting in a rocking chair with a fired the muzzle of his opponent's pistol was at his forehead, a worse wound being avoided by a sudden movement of the head.

A dispatch to the Augusta Chronicle, dated Newberry 28th, says:

After the shooting Mr. Jones was carried into the law office of his brotherin-law, Geo. S. Mower, Esq., and has been made entirely comfortable there. Yesterday at 1 o'clock the ball was cut from his right side, about an inch under the skin. With the assistance of cocaine the operation was rendered painless. The orifice thus made permitted the escape of a quantity of coagulated blood, which, it is hoped, will benefit him. Everything possible is done to relieve him, and he has the sympathy of the entire community; but still the perfora- ed. tion of the diaphragm, bowels and liver leaves very little chance of his recovery.

There were eight shots fired by the two men-four apiece-each having an empty chamber in his pistol at the beginning. After some words Mr. Jones made some derogatory remarks, and Mr. Johnstone sprang to his feet, saying: "If the insolent puppy repeats that remark, I'll slap his mouth." Immediately both drew their pistols, and Mr. Jones, having a self-cocker, got the first shot, but as he shot his hand was knocked up and the ball passed through Mr. Johnstone's right ear. George B Cromer, the Mayor of the town and Mr. with two shots through his coat sleeves. Mr. Johnstone was not seriously hurt.

The affair is greatly deplored by the community. The effects of those eight sity for the women of this country shots, fired within a single minute of fend themselves at the ballot-box." time, will last in this community for a

ATLANTA, GA., March 23 .- There is great excitement among the colored peo-ple and the ignorant whites along the base of the Kenesaw Mountain in Cobb and Gordon Counties. For some time a colored girl named Lillie Marles, near Calhoun, has claimed to hold converse with the angels, who told her many won-derful events of the future. She was commanded to ascend the neighboring hill, where she would have a revelation made to her. She returned in deep She claims that when she eached the summit an angel lifted her high up in the air, whence she could overlook the world. "All shall be detroyed," said the angel, "on the first Saturday in December next; an earthquake will swallow up Calhoun. This will be accompanied by a whirlwind. Then a great fire will burn all that is left, and woe unto him who is not ready for

the great day." of interest by the colored people. The excitement thus created has been fanned into a fierce flame by the appearance of a Greek cross suspended over Mount Kenesaw. It looked as if it were of rainbow origin. After hanging for half an hour before the astonished citizens it slowly dissolved. Several times since the apparition has been witnessed, and thus the terror, which at first was confined to the negroes, has now extended to the whites, and the result is prayer meetings of great interest. The first Satur-day of December is looked forward to as a day of terror.

The inventor of the new Austrian magazine rifle, Herr Franz Fortelka, a former lieutenant of the Austrian army Secretary. The former, however, is said has been during the last nine years to prefer the new Circuit Judgeship in totally blind. But without the use of his eyesight this ingenious man has invented during these years not only a new maga-zine rifle, but also two machines for the anti-oxidation of iron, steel and other metals, at a cost which must be called ridiculously small; further an apparatus for automatical mapping, a new miorometer, a new sort of gunpowder, not to speak of smaller inventions which have found their way into the lesser industrial establishments of Vienna, and thereby more important of his discoveries, far from bringing in any money until now, necessitated an outlay which he could afford only by the practice of extreme personal privations.

There is in Philadelphia a citizen

water, and the water we washed in. We went to bed after eating veal stuffed with whisky, and got up to clean our teeth with whisky and water, and enjoy the day on a breakfast soaked in milk and whisky. I stood it for a month. Unadulterated water is good enough for me." — This is, indeed, an age of progress in travelling facilities. Since the first 'sleepers" were put on the railroad trains, some twenty-five years ago, improvements in car service have been added with wonderful rapidity. The solid Pullman trains from New York City to Chicago and Washington might have been thought to have reached the acme of luxury in travelling; but now it is announced that one of these trains is to have a bathroom, a barber shop and a library. Hereafter, therefore, a railroad traveller may not only sleep, eat, drink, play cards, smoke and read the newspa-pers while riding toward his destination, but may also bathe, get shaved and peruse his favorite authors.

- At Astoria, N. Y., Tuesday evening Mr. Isaac B. Strang, aged 72 years wedded Mrs. M. J. R. Newton, a widow Many other things were said, all of of 60 Summers. Pretty grandchildren acted as bridemaids. ceremony went off in a flutter of excitement, and at midnight the bride and groom started off on a wedding tour to Baltimore, Washington and Florida At the national capital they will call upon President and Mrs. Cleveland for their congratulations. Mr. Strang is one of the oldest, richest and best known residents of Astoria. He has been a widower for sixteen months. The bride who also is rich, has been a school trus tee in the town for the past eight years, having been the candidate of all three political parties at the last election.

Mark Twain.

The American press generally appears to have lost conceit of Mark Twain. One reason for this change of feeling may be that Mark has grown rich. It is an unpardonable error for a humorist to be rich. He ought to live in a garret, like James Triplet, be the happy possessor of one threadbare coat, and shoes that let the mater in But even under these directly. used along barbed wire fences in California.

— The Arkansas House, by a vote of 38 to 39, has passed a bill to prevent the mortgaging of unplanted crops.

— It is estimated that the beggars of Rome received \$2.000,000 a year in alms, and that five hundred of them are worth from \$15,000 to \$25,000 each.

threadbare coat, and shoes that let the water in. But even under these direful circumstances, 25 cents would purchase him a Pomeroy's Petroline Poroused Plaster, which would most effectually protect him from that most painful of all complaints, Rheumatism. They even cure Gout, Celd Feet, Sciattea, and all Neuralgic Affections. They are advertised everywhere. Wilhite & Wilhite agents for Anderson, S. C.

Just What They all Say.

Hon. D. D. Haynie of Salem, Ills. says he uses Dr. Bosanko's Cough and Lung Syrup in his family with the most satisfactory results, in all cases of Coughs, Colds and Croup, and recommends it in particular for the little ones. Sample bottle free at Orr & Sloan's.

One of every five we meet has some form of Heart Disease and is in constant danger of sudden death. Dr. Kilmer's Ocean-Weed Heart Remedy regulates, corrects and cures. Price \$1.00.—6 bottles \$5.00. For sale by Wilhite & Wilhite, Anderson,

MORE TRUTH

THAN

THAN POETRY.

PRAY give us your attention while we sing . you a song, With more truth than poetry it will not keep you long; A song to help your pocket, if you follow but its teaching—
It is not hard to follow, as is as true as preaching.

Our mission, in this instance, is to say a word to show

How you may save your pennies and cause your wealth to grow;

It will not make your comforts less not any less your pleasure, But will enhance your happiness while adding to your treasure If you want Drugs and Fancy Goods at prices just as low

As they can possibly be sold I'll tell you

where to go-To WILHITE & WILHITE'S City Drug

Store, No. 6 Granite Row Street, The goods we will show you-prices, too, will be to you a treat. All the latest Medicines for all known hu Standard Drugs of every kind, Elixirs, Lo tions, Pills;
The richest Extracts, best Colognes, an finest Toilet Soaps, Dressing Cases of every grade, and cheap

Garden Seed, Onion Sets, Potatoes too, we cannot undertake
To tell you of the thousand things that is necessary our stock to make.

And now, having other matters of busi ness as important to write, We reman your most obedient servants, WILHITE & WILHITE.

beyond your hope
