The Cotton Plant comes to us greatly improved in its get up and subject mater under the management of its new wners, Mesars. Hoyt & Keys, of Greenville. Mr. A. M. Howell is to be its editorial manager, and the paper gives promise of great usefulness to the farmers of the State. We hope the planters of South Carolina will rally to the support of the Cotton Plant, and thus enable its owners to give the State a practical and ably conduced Agricultural paper. They will certainly do their part, if they are reasonably supported. The subscription price of the Cotton Plant is only sixty cents a year, or fifty cents a year in clubs of ten or more subscribers. Every community in the State should have a club of subscribers.
