ever this spring, A Card. as it appears that the Grand Jury at the idea of the same, which is calculated to their criticism on a mere opinion instead of the solid facts.

In referring to the management of the husiness in our office, they commence by

"We are not altogether satisfied with the methods pursued in the County Commis-sioners office. We think the accounts against the County are approved without sufficient investigation of their correctness, and especially is this the case in the department of repairing bridges and highways, and we would recommend that such accounts be required to be itemized, so as to show the uantity and class of material used and In answer to the above, we would beg

leave to inform the public that there is very little public work done of any kind without the Commissioners are first informed of the amount of work wanted, and as a rule a special contract is then made-eitheir public or private-in which the class and quantity of material to be used is specified, after which the work, when com pleted, is inspected by one or more of the members of our Board. Where this is the case there is no need of an itemized account. Where there is no special contract, and the amount is small, our calculation is always based on itemized statements of the class and quantity of material used and amount of labor performed, &c. This has been our general practice for the past two years. We closely examine all claims presented for payment before approving them, Creek next Sunday morning at eleven and if any doubt is entertained as to their correctness, they lay over until information is fully obtained as to their correctness

> before acting on them. At our first regular meeting in last Janaccounts where there was no special con- Coun'y goes tract, unless they were itemized and sworn to. That rule has been strictly adhered to ever since. There are claims now in our office that have been there for the past six months which have not been approved because they are not itemized, and they will not be approved by us until they are item-

Had the Grand Jury examined the claims presented for payment since the first of Jan_ uary last they must have known our present practice. So, Mr. Editor, you see that there is nothing new to us in the recommendation of the Grand Jury, as we have already been acting on it before the Grand Jury was organized for this year. MANAGEMENT OF THE POOR HOUSE.

The Grand Jury also recommend that the Steward of the poor house be required to make the County Commissioners a monthly report of the provisions, clothing and other articles purchased and expenses in the month. This has not been done by any of the previous Stewards, nor does the law require it, but the recommendation is very nearly the present practice. The Steward at the poor house keeps an itemized accoun of the expenses for each month. When he buys any article for the poor house he gets a hill from the merchant from whom the goods are purchased and files it in our office. This has been our practice ever since January, 1884. In addition to that we compare bills when presented for payment with those bills on file in our office as furnished by the Steward.

The following statement will show the average expense per day on each pauper including the Steward's salary, medical treatment, including medicine, farm labor, etc. Full amount of expense \$2,161.15, which is an average of 42½ cents per day for each pauper. Of this amount \$25.00 may be deducted for medical treatment and of 15th inst., informing me that I have been selected by the Sandy Springs Farmake the average about 132 cents per head

> and others only half a plug each week and no more. This tobacco costs 7 cents per plug. About thirty use tobacco, and at that rate it costs about \$90.00 a year. This is a moderate allowance of tobacco, and when the presentment was read his Honor Judge Aldrich took occasion to say to the Grand Jury that he did not agree with them in nmending a reduction in the tobacco issued to the paupers. The poor house with the same number of paupers cannot be run with less expense at the present prices of provisions without depriving the paupers of a part of the prime necessities of life. As the criticism by the Grand Jury seemed to reflect a little upon the present Steward at the poor house, we must say in his behalf that his management throughout,

stands above suspicion. Our office is open to any and all of the tax-payers of the county. If any are not satisfied with the foregoing explanation we

will take great pleasure in explaining anything that may be desired. Yours respectfully, J. JAMESON. J. P. McGEE, A. O. NORRIS,
