branch of the Legislature."

TEACHERS'GOLUMN. J. G. CLINKSCALES, EDITOR.

TEACHERS' INSTITUTE.

Again we find ourselves at our desk with pencil in hand, ready to tell the readers of the Teachers' Column something about the Institute that a few days ago closed so pleasantly at Williamston. If left to our judgment we would pronounce the Institute a big success; we are perfectly willing, however, to leave it to the verdict of the teachers who attended. It was our business to make the Institute as nearly perfect as possible—It is the business of the teacherpupils to say what good, if any, was ac-

We had never met Dr. Klemm, the principal of the Institute. He measured up fully to his fine reputation as an instructor. He is beyond question a full man. Always ready, always pleasant, he is a most charming teacher. He has the enviable faculty of making every body in his presence feel quite at home, and that other still happier faculty of saying just what he wants to say and no

Miss Leonard is a Northern lady of very superior intelligence and very fine character. Her manner is easy and attractive, her voice clear and distinct, and her energy apparently boundless. Every minute seemed to be given to earnest preparation for the work before her, and the earnestness and tenderness with which she entered into her periods of instruction were remarkable, and certainly stimulating to the tired teachers.

The other members of the faculty, Dr. Lander and Prof. Morrison, are well known to many of our readers. Their fitness, their peculiar fitness, for the position they were called upon to occupy, needs no mention at our hands. Those of our teachers, whose privilege it was to sit at the feet of Dr. Lander and Prof. Morrison last year and the year

before, knew what to expect; suffice it to say they were not disappointed. The freshness of these two distinguished educators was highly enjoyed and appreciated by all our teachers. During the two weeks the Institute lasted, 154 teachers enrolled, the large majority of whom being from Anderson and Greenville Counties. Nine other counties were represented, and six different States had each a representative. enjoyment of the occasion. We would ces of the future not forget to mention that Miss Maggie of the Anderson County teachers to join them on such occasions as this! righteousness or a reign of diabolism. Her old friends and accquaintances were

delighted to see her. Nor would we forget to mention Mrs. A. M. Darracott, of If we fail to utilize the opportunities Sandy Springs. Mrs. Darracott is now which are now afforded us, the time will ranked among the oldest teachers in the soon come when we shall be completely County, but old fogyism is a stranger to at the mercy of the vandal hordes that her. It was indeed refreshing to see how are banded together for the destruction earnestly Mrs. Darracott strived to take of all that is dearest and most sacred to in every truth that fell from the lips of us. the instructors. As nimble as a girl of teacher of fewer years of experience, that if emigration should continue at the names in the Teachers' Column. Mr. Morrison, the secretary of the Institute, ers were present. We heard of some who could not attend; we heard of some of Townville, was not with us this time. powerful attraction to the crowded peoprevented his attending. We have it Their teacher could not go to Williamston, but they showed their liberality and intelligence by going to him and expressing their willingness. We make this people have now but one want-money statement in justice to them.

From nine to two o'clock each day the 'time was devoted to regular school-room work, the length of each instructor's less so. Every teacher was requested to very clearly the changes which are deshave his note book and the most of them tined to take place in Great Britain. had and used them well. Where that Thomas Hume says, "We may despise kind of work is done five hours on a the present advocates of social democrastretch, the pupil is ready for his dinner | cy, and make light of their sayings and and ready for the rest that follows. Of doings, but no man who knows what is course, some of the teachers were not so going on in England will deny that diligent as they might have been. Some filled their note books, while others came off with very few leaves in theirs marked. It was indeed a school. Some of the retirement of Mr. Gladstone will be the pupils were diligent, while others were not. The work done there will tell on | politics." the schools during the next session. We would not by any means forget to

thank those trustees who favored us with their presence and approving smiles. Messrs. Gentry, Neal, King, Richardson, Cox, Elrod, Rosamond, Stone and Lander did us and their schools the justice to come and see what we were doing. Mr. Gentry missed but one or two days. teachers in his efforts to learn. He sat with note-book and pencil in hand and carefully noted every good suggestion that fell upon his ears. Satis pro hoc

Address of Rev. J. B. Hawthorne in Au-

Augusta Chronicle.

my life have been given to fighting an evil the worst enemy of our race. It has been with me so far, and I trust it will be to the end, a work of love. My labors in the approval of my own conscience and by the joy which I experience in seeing truth and virtue triumph, and individuals, families and communities lifted from bondage into freedom. I can say without affectation that I have enjoyed even the persecution to which I have been subjected, because, in the midst of them, I have noticed that the angel of martyrdom is brother to the angel of victory Every anathema from a godless whiskey ring, or its hirelings, that has fallen upon me has been transformed by God's protecting goodness into a blessing to

the righteous cause which I represent. I abide in the conviction that success s as certain as the promises of a faithful Lord can make it. I believe that the patriotic and virtue-loving people of this country will arise in their majesty and own paper in these words: "Religion, stamp out this whiskey curse. They have done this in every community where they have been rightly influenced

as to its magnitude and their danger. This great movement originated with the people. The politicians would not deign to notice it until they saw that it was destined to sweep the country. Their eyes are open at last, and they now see that it is a question for statesmanship, and we have no lack of statesmen who are ready to ventilate it on the rostrum and in the halls of legislation.

It is a movement of the people, and the people will push it forward to complete and glorious success. We invite the politicians to go with us, but if they they decline we can and will succeed

If they choose to lend themselves to the whiskey ring and attempt to defeat us, we will relegate them to an inglorious retirement, where they can have an opportunity to meditate upon their folly go into large congregations in broad day-and repent of their sin. go into large congregations in broad day-light and explode their bombs:" "A" I am sure that no true American can and repent of their sin.

My friends, we have reached the grandest epoch of our country's history. This decade of our national life is the Our old friend and classmate, Dr. Pickel pivotal point toward which the lines of of the Florida State University, was past progress have converged, and from

#### Prediction of Earthquakes. To Rudolf Falb, of Vienna, belongs the

honor of predicting earthquakes. His

first success was in 1873, when he foretold

the Belluno earthquake of June 29, which

shook almost all Northern Italy, and

resulted in the destruction of some 50

lives. Since then he has constantly

have been fulfilled and some not. His product of \$11,577. was a conspicuous success, and has served lot of few modern prophets to enjoy. Some days before the catastrophe he wrote morning of February 23, and true enough almost at the hour stated, the first and most destructive shock took place. It is of the memorable event. Probably no machinery, tools and hand machines earthquake in history ever produced so only being allowed, the goods to be made much nervous disturbance in proportion to the actual damage done, and certainly shoes, the coarse woollen and cotton none can equal it in wealth of humorous | cloth needed for the institution, or for incident. As an example of a prophecy sale to other institution, harness and sadunfulfilled it is worth noting that Falb is dlery, and many other goods now made said to have also predicted that an earth. by machinery or not now made at all in quake would take place in the South of England on March 21; no seismic distur- throughout the United States or in the bance was felt on that day, but an amusing majority of States there could be no comillustration of the inconvenience arising plaint as to the effects of convict labor from the previous fulfilment of his forecasts was afforded by a lady of our acquaintance, who, upon hearing of the predic. The idea that the moon should have some- fication thereof, or under the public thing to do with the production of account system with power machinery. earthquakes is a very natural one. The can be raised against this plan." body whose attractive power raises the ocean tides exercises its influence on the dry land just as much as on the sea, and the only reason why the land does not respond to the attraction is because of its immobility. But a force so resisted means internal strain, and we have every reason to believe that, corresponding to the tide of movement on the ocean, there is a tide of strain on the land. How may this strain make itself apparent? A breath of autumn air brings down the leaves that have withstood a summer's gales, a snapping twig has loosened the Alpine avalanche. The crust of our earth is not solid. There are cavities and fissures in its mass, frail places, where only a touch, as it were, may collapse and the series of changes so begun may involve a continent in ruin before it is ended. And the tidal strain, as it passes regularly round the globe, may one day supply just the needed touch, thus becoming an agent of destruction none the less potent because it only plays the part of trigger-puller. The theory is plausible, and to a certain extent the resarches of Prof. Perrey bear it out. He found that earthquakes are rather more frequent when the tidal pull is strong-that is, when the sun and moon are pulling in line, (at new or full moon,) and when the moon is in the part of her orbit nearest to the earth, (perigee.) The difference, however, was only small, and as other investigators have arrived at contradictory results, the lunar theory in this form has not held its ground.

#### Died While in Bathing.

On last Thursday, at Col. C. S. Mc-Call's mill, near town, about 6 o'clock presently) a critical period would be commissioner is that of hand labor under p. m., Mr. Henry B. Easterling went in McIntosh and Jack Crossland, and was seemingly as well as ever. Shortly after getting into the water they entered into a tussel over a melon which they had with them, and in a few seconds Mr. Easterling turned and went to shallow water. After he had reached a place where the water was only about two feet deep he kept turning about as if playing in the water, and nothing wrong was suspected for the moment. But in a few seconds it was noticed that he was remaining under water rather long, and upon taking hold of him they found he was dying. He was immediately taken out and every thing possible done to restore life, but all of no avail. In a short time he was dead. Early next morning the corner held an inquest over the body of the deceased and the verdict of the jury of inquest was, in substance, that decased came to his death by drowning, which was superinduced by an attack of asthma, congestion, epilepsy, or some other cause which for the time dis-

Mr. Easterling was a good swimmer, and we are informed would not have drowned where he was if not disabled in some way, and as he was subject to asth-

#### Incinerated by Turpentine

A frightful accident occurred at the turpentine distillery of Hilliard Goodwin in the upper part of Sandy Run Town-

Tom Griffin (white) who attends the still, went into the still house just before day with a kerosene lamp, and by his careless handling overturned a barrel of spirits and set fire to its contents. He made a desperate effort to extinguish the burning fluid with sand from the floor but in an incredibly short time the flames communicated with the hot spirits in the still, and all the stock about the building and Griffin and the entire establishment was burned up in sight of Mr. Goodwin and several others who were powerless to render any assistance to the burning man,

or stay the progress of the flames. Griffin's body was entirely consumed by the fierce flame, and when the fire exhausted itself no part of his remains

could be found. ANOTHER ACCOUNT. The Orangeburg correspondent of the Register gives another account of the dis-

"News reached here to day of the burning of Hilliard Goodwin's turpentine still, in Lexington County, night before last. The stiller, a white man named Thomas Griffin, and a negro, were rolling some spirit barrels away from the fire. when one of the barrels exploded in their hands, and instantly enveloped them in flames. Both men were literally burnt to ashes."-Columbia Register, July 21.

## The Problem of Falling in Love.

It is difficult to say what it is enchants

a young man's fancy what particular attraction, what "touch of hand or turn of head," because the observer is always more or less surprised that such feeble charms should effect such large results. One would say that it cannot be invariably beauty that decides, if beauty had not as many definitions as religion or love, or there would be no lovely spinsters; it cannot be intellect or we should

# A Preacher's Case.

In a Georgia city lives a popular divine object to telling a side splitting anecdote occasionally. Here is one we caught on the fly recently:

Once a party went fishing. There was some snake medicine along, and one cr - Texas is getting compensation for more of the party took too much abroad. root of a tree and began to pray for protection. About the same time one of those who had tapped the jug too often

shouted: "Come ahead, you blasted old cyclone! Tear us all to pieces! Blow us to Halifax! Hurrah for the United States and

at the root of the tree raised his horrified
