Maithew Donahoe's Mad Act. GREENVILLE, Sept. 5 .- A suicide, under most distressing circumstances, occurred in Greenville this morning. Matthew Donahoe (white), a carpente by trade, was found at daylight this morning hanging to a rope, which he had suspended from the top of his door. His family were all in the house, and the discovery was not made until his wife went to open the door. He was hanging on the outside of the house. When found, his body was still warm, showing that the act had been committed in the early part of the morning. Donahoe leaves a wife and a large family of children, and there is no known cause for his rash act, as he seemed to be fairly prosperous and all his business and family affairs were going on smoothly.

Democrat, recently wrote to President Cleveland inquiring in regard to the truth of a report that Mr. Cleveland, while Governor of New York, approved a bill authorizing mixed schools in the State. In replying to Mr. Sullivan's inquiry, President Cleveland writes: "The only bill that I know of being passed and approved on that sub-ject, while I was Governor, was one affecting the city of New York, and had pre-cisely the contrary effect—that is, the purpose and object was to retain the colored schools separate and distinct from those for the whites. Mr. Nelson J. Waterbury, of New York city, I think, drew the bill, and Prof. Rasin, superintendent of colored schools, and Rev. Dr. Derrick, both of New York city, advocat-

ed it strongly.

The school board of New York City had determined to consolidate their schools with the white schools, and the bill took it out of the control of the board, so that it should not be done. It was strongly urged before me that separate schools were of much more benefit to the colored people than mixed schools. I approved the bill, and I suppose in the City of New York colored schools are separately maintained to-day by virtue of its provisions. I have thus given you all I remember on the subject of your inquiry. I have been much surprised at hearing before the receipt of your letter that this matter has been so grossly mis-

A Curlous Case.

A Savannah attorney is looking up the law in a most peculiar case, with the view of possibly filing the papers in a suit for \$1,000. The circumstances are these: A few months ago a gentleman met a young friend and inquired about his family. The young man had been once blessed with twins and expressed some fear of again being blessed in the same manner at no remote date. "Well, should it occur, I will give you a present of \$1,000," remarked Mr. Blank, jokingly to the young father.

Two bystanders were asked if they heard the promise. They replied that case they were needed. A few days ago the young man's family was increased by two new members on the same day. In the exuberance of his

Jews in America.

The increase of the Jewish population of the United States has been remarkable. In 1845 in a population of 20,-000,000 there were only 50,000 Jews. To day the number is at least 500,000. It has been in operation four years, and there are now 48 women in the prison and 137 girls in the reformatory, which is kept wholly separate. Funishment is rarely needed, and the time system of shortening terms for good behavior is used with excellent results.

I had been troubled all Winter with cold and pain in the chest and got no relief from remedies reccommended by Druggists and Physicians. At the same time I was advertising Dr. Bosanko's Cough and Lung Syrup, I had little faith but thought to try it as a last resort, now I believe ever more than they tell me of its curative qual ities.
