Many of our citizens were quite indignant over the unjust and unwarranted attack on the character of our fellow citizen, J. S. Fowler, made in last week's issue of the Abbeville Press and Banner. We say unjust, because the insinuations made by that paper are not true in fact ; and we say unwarranted, because no one is warranted in attacking a man's character without an investigation, and we are reliably informed that an investigation will clear up the case, and show that Mr. Fowler acted in good faith, and his character is untinged by anything he did in the McClung transaction. Mr. Fowler bears a good name in this community, and if there was ever a single stain on it we have never heard of it. It is not so much what the Press and Banner says as the manner in which it said it. If it wished to make a charge against Mr. Fowler it should have done so by direct words and not by insinuation

Not many such desperate cases may be found, but when they are they should not despair of re-covery, as B. B. B, will cure them. July 3rd was fixed as the date for holding the Convention, after which the balloting for the place began. San Francisco held the lead until the twelfth ballot, when a break was made, which resulted in the selection of St. Louis. After the selection of St. Louis as the place, the Committee changed the date of holding the Convention from July 3rd to Tuesday, June 5th. This is before the Republican Convention, which meets June 19, in Chicago. The selection of June 5th as the date for holding the Convention, it is said, is in accordance with the desire of President Cleveland, which scores another victory for him, and makes his recomination, a certainty.

Our Grocery Department

Is as full and cheap as usual. In provisions we had thought Bacon too high and did not stock up as heavily as is usual with us at this season, and contrary to our expectations the market seems still tending upwards. Of course no one outside of the big meat speculator know the future, and they will carry the market whichever way suits their pockets best. On Flour we thought we saw a safe investment, and we crowded our large Warehouse at prices from 25c to 75c less than the same grades can be bought today. We were also fortunate in securing three Cars of the prettiest White Corn ever brought to this Town hefore the last rise. One of them has arrived, and opened in new sacks, nice and bright. Will have in a day or so

That gave such general satisfaction last Spring. We keep the old fashioned big Sacks of Liverpool Salt, which is said to save meat so much better than the other Salt-and then we keep the small Sacks of fine Salt, too. Remember, we have a fresh stock of Guano, Acid and Kainit-our old relia ble brands that are going to sell at less prices than last year, except on Kainit.
