

WASHINGTON, D. C., March 26, 1888. The Capitol was shaken to its very foundation by the severe thunder storm of a few days ago, and our Legislators thought that the day of reckoning had come. The Senators were all brought to their feet by the sudden thunder clap, and in honor observed the lightning playing around the ceiling of their deliberative chamber, and were so paralyzed by the scene that considerable time elapsed before business was resumed in its accustomed order.

On the House side the galleries were crowded, and the members below engaged in a heated debate over the eight-hour bill, when suddenly the peal of thunder and flash of lightning brought every member to his feet and caused the members in the galleries to suddenly disperse. The storm was also accompanied by a heavy rain, which was quickly cleared by the hall of fire which quickly around the telegraph instruments and cut them all off. In the rounds, the shock was felt more than anywhere else, because the massive iron dome served as a play-ground for the lightning, and as a sounding board, so that the people in the rotunda ran to the doors, thinking that the rotunda was falling. Beyond the right, the dome was struck, except destroying the telegraph instruments, and killing a horse, the cab standing at the Senate wing of the building.

It now looks as if we will, without doubt, have the Congress of Nations to consider a code of international laws, and a code of arbitration to settle disputes which may arise between American nations, without recourse to arms. The bill for that purpose has already passed the House, and the Senate Committee has reported favorably on it. The convention will be held April 1, 1889, and will be composed of twenty-four delegates from each country, to meet in Washington; but no nation shall have more than one vote in the disposition of the question. A uniform system of weights and measures; a common silver coin for trade purposes, to be used and redeemed by each nation, and other important measures will be acted upon by the Congress.

The House Committee on the revision of the laws has agreed to report a joint resolution providing for the election of U. S. Senators by a direct vote of the people, the same as members of the House of Representatives. The resolution may pass the House, but the indications are that it will never get through the Senate.

Senator Riddleberger is still pegging away at his hobby for open Executive Sessions, and if the change does not take place this Congress, it will not be for the want of persistency on the part of his champion. The Senator has just offered a resolution that the consideration of the Fisheries treaty be in open session, and asked unanimous consent for the immediate consideration of his resolution. Senator Cockrell objected, and so the matter has gone over for the present.

At the International Council of Women to be held this week, Miss Rose Cleveland is booked for an address on the subject, "Why is not Woman the Equal of Man?" It will be Miss Cleveland's first visit to the city since the marriage of her brother, and her host of friends here are anticipating much pleasure from seeing her again.

The sudden death of Chief Justice Waite has cast a gloom over both social and political life at the Nation's Capital. The death was the result of a cold contracted a month ago in attending the funeral of Miss Brown, who died while visiting the family of the Chief Justice. The Supreme Court convened at the usual hour on Friday, and Justice Miller, the Senior Justice, after announcing the death of their Chief, adjourned the court for one week. The court room was crowded, and profound sorrow prevailed in the quiet chamber. The Senate and House both adjourned over, out of respect to the memory of the distinguished dead.

A Land Slide. CHICAGO, March 26.—A Times special from Kansas City, Mo., says: The heavy rain storm which prevailed all day Saturday and yesterday caused a tremendous landslide on the bluff facing the union depot, which threatens to work great peril to property along Bluff street for three and a half squares. For 1500 feet the entire bluff appears to have pushed forward by some irresistible agency, hundreds of tons of rock and earth sliding down a steep hillside.

For several hours before the landslide, peculiar snapping noises came from the face of the bluff, and this was followed by a crash which startled the whole city. Tons of earth and large boulders had crashed down, demolishing the frame engine house at the entrance of the street car line tunnel. Along the face of the bluff about half way from the base to the top, is a ledge about thirty feet in width, on which are a number of shanties occupied by families of colored people. This ledge is now seamed with immense fissures which extend its whole length, and the shanties are being tilted in various directions. The grounds selected for the residence were well protected from the face of the bluff, and this was followed by a crash which startled the whole city.

As this big body of rock and earth now overhangs the track in the Union Pacific yards, the whole face of the bluff is at this moment being precipitated down Bluff street and over the tracks leading East and North from the city, effectually stopping railway traffic in those directions, and also blocking Bluff street, which is the main road from the union depot to the main portion of the city. A huge boulder, as large as a house, fell midway of the bluff, but lodged before reaching the bottom, and now hangs suspended by a threatening disaster to those who pass below.

The Fifth street cable lines passed under this impending mass, and should the land slide any further than this, a portion of the road will be destroyed. The Union depot and the stores along Union avenue, the elevated railroad station, the Eighth street cable line power house and several other buildings lie directly in the path of the avalanche.

The Abbeville Election. A gentleman in the city yesterday from Abbeville, S. C., said that it was being mooted in the county since the recent overwhelming prohibition victory there, that the liquor dealers would apply for a renewal of their licenses when they expired, and in case they were not granted, as of course they would not be, they would apply to the court for a mandamus to compel the licenses to be issued, on the ground that the election was not carried by a "majority of the qualified electors" of the county, and that the election was in fact carried by a majority of the voters. It is said that the opinion of several prominent lawyers has been given that the election is void because a "majority of the qualified electors of said county" did not vote.

—S. M. Bishop, widely known as "the fattest man in the world," died at Petersburg, Va., on Wednesday of intermittent fever. He was 25 years old and weighed 300 pounds. He was born in Prince George county and has been on exhibition ever since he was an infant. When a mere youth he tipped the beam at 300 pounds.

—Colonel George Frigg, hall-marks of the "Fattest Man in the World," died at Petersburg, Va., on Wednesday of intermittent fever. He was 25 years old and weighed 300 pounds. He was born in Prince George county and has been on exhibition ever since he was an infant. When a mere youth he tipped the beam at 300 pounds.

CRIMES AND CASUALTIES.

A Mountain Mystery. The neighborhood of Glassy Mountain is becoming noted as the scene of frequent sensations of late. First there was the murder of a man on the mountain, then the murder of a man on the mountain, and now a story of the mysterious disappearance of a husband, unveiling a story of jealousy and rivalry with dark portents of a revengeful plot.

It comes by well authenticated reports that a man named Doc Mills, whose home is in the farthest part of Glassy Mountain Township, under the shadow of Hog Back, disappeared from his home about a month ago, under circumstances that have given cause for suspicion of foul play. Doc Mills, it is said, lived unhappily with his wife. Jealousy of a neighbor, Kirkland, by name, whom the husband suspected had captured the place he should have held in the wife's affections. Things went on in this way for some time, until Mills, on his return from a visit to his wife, one day returned to find his home surrounded by a mob of men, and he was turned into his own home's path, or if he did, never reached home. From that day to this he has not been seen in the woodland paths and mountain roads of Glassy Mountain. He has disappeared altogether mysteriously. All this happened about a month ago. For a while it was believed that the absent man had voluntarily left his wife, but that story soon lost less credence, and now it is believed that Mills was murdered. The section is aroused and it is stated that an exploring party to-day is organized to scour the country for the missing Mills can be found—Greenville News.

A National Affliction. WASHINGTON, March 23.—Chief Justice Waite, of the United States Supreme Court, died at his residence in this city at ten minutes past 6 o'clock this morning. He had been taken to Jefferson Market Police Station to-day and thence sent to the Coroner's office, where she was committed to the tomb. Before being taken to prison she drew photographs of her children and grandchildren, and asked if she would be permitted to keep them. When told that she could retain them she shouted excitedly: "I wanted to take my children from me, but they can't die!" Dr. Conway, Deputy Coroner, conferred with Mrs. Liebknecht for some time and expressed the opinion that she is suffering from acute mania.

MARION, Ohio, March 21.—The hold-up attempt at the robbery ever known in Ohio miraculously failed at Fynchette Creek Bridge, on the Hocking Valley road to-day. Just before the arrival of the evening train several men were seen about the bridge. As the train crossed an awful report was heard, and the train was almost knocked off the track. An examination showed a large dynamite cartridge exploded on a girder of the bridge, and the explosion caused the train to stop. The explosion was so powerful that it caused the train to stop. The explosion was so powerful that it caused the train to stop.

CHERRYFIELD, March 23.—This section was visited by a severe rain and wind storm, with heavy thunder and lightning, on last Tuesday night. The prisoners in jail here, taking advantage of the night, made a break and escaped. They had obtained a two-inch auger from some one on the outside, it is not known from who or how, and with this instrument bored two holes in the ceiling over the door to the gallery. They then tied blankets together and let themselves down to the ground. Sheriff King has been in search of the missing birds for two days, but up to this morning had not captured any of them.

CHATTAHOOGA, March 23.—Smithville, in this State, is suffering from an epidemic of measles. There are now over one hundred cases, and there have been several deaths. Those who recover are marked for life.

BERMINGHAM, Ala., March 25.—At Lovelock convict camp, near the city yesterday morning, Archie Stokes, a negro convict, was shot and killed and Henry Allen, another convict, severely wounded. Lovelock was a well-known county convict on the public roads. When ordered to work this morning Stokes and Allen refused to go and would not let the other convicts leave the barracks. They stood in the door armed with picks and defied the guards. Sheriff Truse was informed of the state of affairs and sent two deputies out to the camp. The officers tried to enter the barracks, but the convicts would not let them. They opened fire on the two men and Stokes rushed at the officers with a pick in his hands, but was shot dead before he advanced far. Allen's wounds are not fatal.

COLUMBIA, S. C., March 24.—Joseph Bell, a young son of Captain John Bell, had a narrow escape from death this morning. While flying a kite in the old field, used by Yellowstone Kit for his meetings, he stepped backward and precipitated into a dry well. He fell headfirst, but during the fall his feet struck against a protruding portion of the wall, turning him completely over so that he landed on his back. The well is about twenty feet deep. The little fellow was drawn up by a rope. He escaped without injury, being a little bruised and shaken up.

WASHINGTON, March 23.—A quiet fracas occurred in the room of the chief clerk of the patent office to-day. The parties were Mr. Bullock, of Tennessee, and James N. Lipscomb, of South Carolina. Several blows were exchanged, but the combatants were finally separated before any harm was done.

LANING, TEXAS, March 25.—Balaam Sims was frightened to death yesterday. Several young men caught the boy out of his hair and threatened to kill him, when he became so alarmed that he died of a heart attack.

DAVENPORT, Ga., March 21.—Meagre news reached here to-day of a shooting affray, which occurred two or three days since in the lower end of this county. Two brothers, Henry and Parley Holmes, had for some years been engaged in the coal business together, and in an effort to dissolve and settle the firm's business, they disagreed and resorted to blows. In the fight, Henry, the smaller brother, shot Parley, who was taken hold of and pushed energetically before he could get away. A response to an invitation was issued to the militia of the State to come here this summer, and the response has been almost unanimous. Only two or three infantry companies will be sent for any other place. The advantages of Greenville for an encampment have been recognized, and to-day Major W. A. Hunt received a letter from Adj. Gen. Donham telling him that the militia of the State is practically all for Greenville, and suggesting that the local committee on military affairs meet in Columbia to discuss and agree on matters pertaining to the encampment. This is received as good news here, and will be the signal for resuming and pushing the scheme for a gala week as a means of entertainment for the soldiers.

After recruiting on "Git that" in the city, the Rev. Mr. Jones preached in the Methodist Church this morning. Immense crowds attended both entertainments. A crowded excursion was run up from Greenville last night. Mr. Jones to-night, when he expects to return to his home at Cartersville.—News and Courier.

—Henry Glass, of Christian county, Ky., has received a patent on an invention by which it is claimed that whisky can be "aged" so rapidly that the new product of the still cannot be distinguished from the best five-year-old whisky.

Miss Ryerson's Romance. CHICAGO, March 23.—George B. Ryerson, one of the wealthy men of this city, is happy to-day because he has been declared by the courts to be dead. The story has a special interest for Eastern people, because it embraces characters that have figured in Paterson, N. Y., Newburg, N. Y., nearly fifty years ago. It is the story of a man who was taken to Paterson and sent to Florida, enlisting as a soldier in the Seminole war. He was wounded, and for many months he lay at the point of death without hope, and he never recovered until before he reached home; then he learned that his wife, believing him dead, had moved away; no one could tell where she had gone.

And Everything New in the way of Novelties, MISS LIZZIE WILLIAMS. March 30, 1888

NEW GOODS! JUST received a fine assortment of CHARLOTTESVILLE CASSIMERES, These Goods will last longer, and give better satisfaction than any goods on the market. SHOES—I am now receiving my Spring Stock of Boy's Shoes, guaranteed to give satisfaction. APRIL 1, 1888. THE STORE OF R. S. HILL. IS THE CENTRE OF ATTRACTION FOR THE LADIES. NOW! DRESS GOODS. IN all styles and qualities. WOOLENS. In all the new weaves, shades, and combinations. Those lovely new Herring-bone and Henrietas, Wool Batistes, the latest French Novelty of the season. Everything, in fact, that is new, stylish and pretty, from 10c per yard up.

WHITE DRESS GOODS. Never before has there been such a selection of White Goods brought to Upper Carolina. Remember, that four weeks has been spent by us in untiring devotion to these Departments, going through all the known and unknown markets of Baltimore, Philadelphia and New York, and we now invite you to come and see with what success our efforts have been crowned. LACES, BRAIDS, BUTTONS, LININGS, Notice to Creditors. L. A. Shibley vs. R. N. Shirley, et al. I have returned to my old stand on Depot Street, where I can be found at all times, and will be glad to serve customers and friends who wish their horses and mules shod, or Plantation work done. All work guaranteed at prices to suit the times. D. W. HUMPHREYS, Master. March 15, 1888 3m

NOTICE OF FINAL SETTLEMENT. I have hereby given that the undersigned will apply to the Judge of Probate at Anderson C. H., S. C., on the 3rd day of April, 1888, for a final settlement of the Estate of E. B. Cate, deceased, and a discharge from her office as Administratrix. LUCY J. CATER, Adm'x. March 1, 1888 34

Aspiring to Heaven.

MINNEAPOLIS, March 22.—Architect L. S. Buffington, of this city, has secured a large number of patents on building construction, and Europe on an invention which he thinks will revolutionize the world of building. The patents cover all parts of a system of building known as Buffington's patent building construction. By his buildings can be constructed of any desired height. The building will be entirely of iron, starting from a foundation like the base of a bridge pier. Laminated iron plates rise from this foundation, diminishing in size as they ascend. They are to be braced diagonally by iron lattice girders with horizontal iron beams. The covering is also to be iron, and outside of this may be ornamental cladding of stone, terra cotta or anything else. Mr. Buffington has subjected the plan to practical engineering, and no flaws can be found. A syndicate of capitalists is backing his system, and will erect in this city a building 80 feet square by 300 feet, or twenty-eight stories high. Architect Buffington says: "If a bridge can be built out 700 or 800 feet from a pier, what is to hinder us from going as high as we choose in a building. The syndicate which is backing me includes some of the best men of the city, who control plenty of capital, and outside of this my own money. As far as my own details are settled we shall build our plans."

Eleven Lives Claim Him. FINDLEY, Ohio, March 25.—Dr. James M. Chaplin, the bigamist, who was arrested here Friday night, charged with being the husband of ten wives, was arraigned this morning before Justice Barnard. He waived examination and was bound over in the sum of \$2,000 to the grand jury. Chaplin says to-night he will stand on trial at which all the women he has deceived will appear as witnesses, but will plead guilty and have it over as soon as possible. According to the testimony of his sixth wife, who is prosecuting the present case against him, his real name is James L. Chaplin. He was born in Maryland, thirty-six years ago, and is the son of a cooper. All the medical education he possessed was obtained during a few months' clerkship in a drug store in his native town. He is a quack of the first water. He began his matrimonial career when but twenty years old, and has been remarkably industrious ever since.

Residing before a wealthy man William T. Cole had one other claim to the Presidency in the eyes of his admirers. He has had but sixteen birthdays. He was born on February 29, 1824. Elizabeth Liebknecht, a German widow, married with the fear of being separated from her three children or seeing them starve, administered poison to them at her home at No. 157 West 28th street. Two died the next day, and the third, a boy named Anthony, aged 9, and Charles, aged 7, died the following day. The third child, a boy named Christopher, was still alive, and was removed to the New York Hospital. She herself reported her act at the police station at 2 o'clock this morning. The mother was taken to Jefferson Market Police Station to-day and thence sent to the Coroner's office, where she was committed to the tomb. Before being taken to prison she drew photographs of her children and grandchildren, and asked if she would be permitted to keep them. When told that she could retain them she shouted excitedly: "I wanted to take my children from me, but they can't die!" Dr. Conway, Deputy Coroner, conferred with Mrs. Liebknecht for some time and expressed the opinion that she is suffering from acute mania.

Wholesale Merchants say they cannot get enough to supply the demand. To be appreciated they must be seen. To make a lovely dress, this is what you want. How much did you say?—15c. Bed Tic for All. Our low-priced Bed Tic at 8c is a non-stainable, and is made of pure cotton, and to cap the climax the 10c brand will hold not only feathers, but will hold water. Remember the place—Brock Range, next door to John E. Peoples & Co. Look for our Large Sign. Polite treatment to all, if purchaser or not.

THE STORE OF R. S. HILL. IS THE CENTRE OF ATTRACTION FOR THE LADIES. NOW! DRESS GOODS. IN all styles and qualities. WOOLENS. In all the new weaves, shades, and combinations. Those lovely new Herring-bone and Henrietas, Wool Batistes, the latest French Novelty of the season. Everything, in fact, that is new, stylish and pretty, from 10c per yard up.

WHITE DRESS GOODS. Never before has there been such a selection of White Goods brought to Upper Carolina. Remember, that four weeks has been spent by us in untiring devotion to these Departments, going through all the known and unknown markets of Baltimore, Philadelphia and New York, and we now invite you to come and see with what success our efforts have been crowned. LACES, BRAIDS, BUTTONS, LININGS, Notice to Creditors. L. A. Shibley vs. R. N. Shirley, et al. I have returned to my old stand on Depot Street, where I can be found at all times, and will be glad to serve customers and friends who wish their horses and mules shod, or Plantation work done. All work guaranteed at prices to suit the times. D. W. HUMPHREYS, Master. March 15, 1888 3m

NOTICE OF FINAL SETTLEMENT. I have hereby given that the undersigned will apply to the Judge of Probate at Anderson C. H., S. C., on the 3rd day of April, 1888, for a final settlement of the Estate of E. B. Cate, deceased, and a discharge from her office as Administratrix. LUCY J. CATER, Adm'x. March 1, 1888 34
