THIS CONCERNS YOU.

Every man should save his own Gardell Seeds, but will not, and therefore should be very careful about where and what kind he buys. All of our old stock was carefully burned before the new came in, and we have nothing but new seeds, of this we give you any kind of guarantee you want. We do this partly as an advertisement, partly as a joke on the rats and mice, but principally as a protection to ourselves and our customers, and for the satisfaction of looking a man square in the face and saying without batting your eyes, "these are fresh Seed." T'is a luxury denied the multitude. We keep also Grass and Field Seeds of all kinds, in fact we have made this a kind of specialty, and will be glad to give all the information we can to parties desiring to embark in that industry, whether they

We don't expect to sell everybody, and never fall out with a man because he does not trade with us, but if the Druggist from whom you usually buy happens to be out of an article, we shall be glad to ice you at our place, and will try and do you right.

buy from us or not.

resurrection symbol, especially in antici-Some time ago the News und Courier pation of the resurrection of the Saviourpublished an article calling attention to oil bags for quelling heavy seas. The Savannah News published yesterday the following story told by the captain of the chooner Normandy, which arrived at that port recently :

"On the morning of March 12, about seventy miles east of Cape Henry, he encountered a northwest gale, which developed into a hurricane, and which lasted for three days. The vessel was hove to five days under a trysail. Durng the height of the gale the captain poured oil over the waves, which had a quieting effect on the angry seas and was all that saved the vessel from destruction. While lying hove to the vessel lost her main gaff, fore gaff and fore boom, and also her mainsail and foresail, and split her jib. After which the vessel was put before the wind and ran for six hours, when a sea took the long boat from the davits and one of the davits with it. At 7.30 in the morning a heavy sea boarded the vessel from the stern, breaking in the

> seas from boarding her. He says that it was the first time that he had ever used oil on the troubled waters, and he is well satisfied with the result."

Dangerous Counterfeit.

INDIANAPOLIS, March 30 .-- Mr. Bain, of Goodiand, placed under arrest by the government officials for passing countereit silver certificates (\$5), has presented \$10,000 bond, and he will probably be released. His companion, Sapt, so far has not been so fortunate. Major Carter, who made the arrest, came to have infor-mation that \$50,000 of the spurious stuff was set afloat in Chicago before its chargel's Syrup has raised me to good acter was discovered, and reports from other parts of the country show that it has been plentifully circulated. In this city the distrust is so great that banks will not touch five-dollar silver certificates, unless absolutely certain they are genuine. Something of its dangerous character may be judged from an inci-dent in the marshal's office this morning, when an average judge of money was handed ten certificates by Major Carter, one of which was genuine, and he made eight guesses before he picked out the good one. There have been several cases where genuine bills have been rejected by the banks so universal is the distrust, and so extremely dangerous is this counterfeit that there is a belief that the overnment will have to call in the ntire issue. It takes a skillful expert to detect the differences without a minute examination. - A manufacturing chemist in New York says that the world takes a ton of pills a week.

books .- American Agriculturist. China's Great Earthquake.

LONDON, April 2.- An Oriental mail brings some particulars of the earthquake in China just before Christmas. It proves to have been of appalling magnitude. Fifteen thousand people perished in the course of four days, during which at uncertain intervals the shocks continued. This estimate is, of course, to some extent suppositious, because it is scarcely possible, after so tremendous a visitation, to ascertain for a long while the exact loss of life. How many have been injured appears to defy computation yet.

The capital district of Yunna is abso lutely one mass of ruins. More than five thousand persons were killed by the falling of houses.

At Lainon, another Chinese town, the effect on buildings has been almost as

-The topers of Dawsonville, Ga., found out that Jamaica ginger was a very good substitute for whisky, the sale of which was prohibited; and ginger drunkards became so plentiful that Dawsonville has prohibited the sale of Jamaica ginger.

"Did n't Know 't was Loaded"

May do for a stupid boy's excuse ; but what can be said for the parent who sees his child languishing daily and fails to recognize the want of a tonic and blood-purifier? Formerly, a course of bitters, or sulphur and molasses, was the rule in well-regulated families ; but now all intelligent households, keep Ayer's Sarsaparilla, which is at once pleasant to the taste, and the most searching and effective blood medicine ever discovered. Nathan S. Cleveland, 27 E. Canton st., Nathan S. Cleveland, 27 E. Canton St., Boston, writes: "My daughter, now 21 years old, was in perfect health until a year ago when she began to complain of fatigue, headache, debility, dizziness, indigestion, and loss of appetite. I con-cluded that all her complaints originated in impure blood, and induced her to take Ayer's Sarsaparilla. This medicine soon restored her blood-making organs to healthy action, and in due time reëstab-lished her former health. I find Ayer's Sarsaparilla a most valuable remedy for the lassitude and debility incident to

spring time." J. Castright, Brooklyn Power Co., Brooklyn, N. Y., says: "As a Spring Medicine, I find a splendid substitute for the old-time compounds in Ayer's Sarsaparilla, with a few doses of Ayer's Pills. After their use, I feel fresher and stronger to go through the summer."
