THIS AGE

UTTERLY SURPRISED!

MERIDAN, MISS., July 12, 1887. Merian, Miss., July 12, 1887.

For a number of years I have suffered untold agony from the effects of blood poison. I had my case treated by several prominent physicians, but received but little, if any, relief. I resorted to all sorts of patent medicines, spending a large amount of money, but yet getting no better. My attention was attracted by the cures said to have ibeen affected by B. B. B., and I commenced taking it merely as an experiment, having but little faith in the results. To my utter surprise I soon commenced to improve, and deem myself to-day a well and hearty person—all owing to the excellent qualities of B. B. B. I cannot commend it too highly to those suffering from blood poison.

J. O. Girson, Trainman M. & O. R. R.

AFTER TWENTY YEARS. years I have been troubled with ulcerated bowels and bleeding piles, and grew vary weak and thin from constant loss of blood. I have used four bottles of B. B. B., and have gained 15 pounds in weight, and feel better in general health than I have for ten years. I recommend your B. B. B. as the best medicine I have ever used, and owe my improvement to the use of Botanic Blood Balm.

EUGENIUS A. SMITH.

AN OLD MAN RESTORED. Dawson, Ga., June 39, 1887.—Being an old man and suffering from general debility and rheumatism of the joints of the shoulders, I found difficulty in attending to my business, that of a lawyer, until I bought and used five bottles of B. B. B., Botanio Blood Balm, of Mr. T. C. Jones of J. R. Irwin & Son., and my general health is improved, and the rheumatism left me. I believe it to be a good medicine.

J. H. Lamo.

All who desire full information about the cause and cure of Blood Poisons, Scrofuls and Scrofulous Swellings, Ulcers, Sores, Rheumatism, Kidney Complaints, Catarrh, etc., can secure by mail, free, a copy of our 23-page Illustrated Book of Wonders, filled with the most wonderful and startling proof ever before known.

During the remainder of his life, it, even though it be at our very doors? it is claimed, he caused the flower to Now how can we keep bees successfully? In the first place they must not diminution of its marvelous property or be left to chance or their own device. They need intelligent oversight, the same as poultry, swine, cattle, &c. Left to take care of themselves, bees will not thrive any more than any other class of but we repeat it—they are peculiar. live stock. Many of the men who do When a husband dies the widow covers After this trip steam navigation across

surplus department we can have our pure whether in one pound boxes or ten. With the extractor we can empty the combs of their contents, getting the nicest of extracted honey, and by replacing the combs they are refilled in a short time

same process. With modern bee culture, the introducion of the Italian bee has been one of the greatest stides we have to boast of. By it the bee-keeper may consider himself safe from the power of the "moth worm." Not only does it defend its stores from any and all enemies, but it will gather nearly twice as much honey in the same space of time as the blacks. It is more gentle to handle, and far more beautiful and graceful in appearance. In the continuation of these articles will be found the hive more fully described, its inmates, how to manage bees, &c .- Week-

ly News and Courier. Deserved Tribute to the Jews.

Mayor Hewitt unexpectedly popped in at the fourteenth anniversary of the Young Men's Hebrew Association, at Chickering Hall, last night, and was the principal speaker. The Mayor said :

"I came here because I felt it to be my

duty to lend whatever countenance I could to every movement which tends oward the growth of morality and the spreading of religion, virtue and education. To-night I have heard of the progress of the New Jerusalem, as I have known before of the sufferings of the children of God, until to-day the Jew and Christian stand before the law equal in right. All that is noble, all that is admirable, all that is human, finds its wellspring in the Jewish faith, and so fits one for the work of life as well as eternity. The Jews are good citizens, preaching what they practice, who don't come down to the city hall and ask for offices. They build their own charities, and do not fill the prisons and alms houses, but send their children to the public schools, where they are taught to be American

citizens, and do not quarrel over questions of religion "I am told the Jews are getting rich. I am glad of it. Riches will never do any harm in the hands of honest labor. nor in the hands of those who believe in the Ten Commandments. The Jewish people now present a spectacle such as has never been seen since the days of David, and you ought to be satisfied with New York and love it, because it was the

distinction was made between Jews and Christians.—New York Sun, April 19.

The Egyptian Cotton Outlook. ALEXANDRIA, EGYPT, April 20.—The Egyptian cotton plants are in a very advanced and healthy condition owing to an unsually hot March. In Lower Egypt 15 per cent. and in Upper Egypt 60 per cent. more land is under cotton cultivation than in 1887. Large districts have been sown with mitafifi seed, which yields 50 per cent. more than ashmouni crop is expected.

Syrup of Figs

A blind physician of Pensacola, Fla. has a large practice and is able to find his way, unaided, about the principal and again ready to be emptied by the streets of the town in a way that would not discredit that popular institution, the oldest inhabitant.

— A farmer near Chebanse, Ill., having an ox that did not abey orders concluded that the animal was deaf, bought an our trumpet, which worked with great success. The animal had lost its appetite, but with its return of hearing ate heartily. The ear trumpet is fastened in place wires around one of the horns. This. story is from a western paper and no chromo goes with it.

- According to M. Blavier's theory the great earthquake disturbances of 17-55, 1884, and 1887 are to be associated with the abnormal accumulations of ice about the north pole. He supposes such accumulations to have caused a deflection of the Gulf Stream away from Europe, producing great climatic changes and a slight disturbance of equilibrium in the sea bottom, followed by a possible local fracture along the line of least resistance.

— The Japanese read more American than English books. Last year 85,000 English and 119,000 American books were imported. Till recently, Sho Nemoto, a Japanese student at the University of Vermont, writes. us, the editors of women's papers in Japan were all men, but last month a temperance paper was established at Tokio by Miss Assi and Mrs. Sasaki, the secretary of the Tokio

Woman's Christian Temperauce Union. - A Connecticut man tells this story of a remarkable exhibition of nerve by a professional sneak thief: "One day he walked quietly into a bank, took off his hat and coat, hung them on a nail, put on an office coat that hung there and walked into the rear room which contained the vaults. The directors were holding a meeting, and one sat in front of a door blocking the passage. The thief politely asked him to move, and when the obliging director did so the man went through the door, picked up two of the largest bags of gold in sight, coolly walked out with them, and thief

and gold were seen no more there." - A fatal accident occurred at Smith's Mills, about thirty-five miles from Georgetown, a few days ago, by which a colored man named Ben Davis lost his ife. It seems that Davis, accompanied by two young white men named Perry, went into the woods in pursuit of turkeys early in the morning, and that one of the Perrys imitated the yelping of a turkey so closely that Ben mistook him for the genuine bird and undertook to creep up on him. Perry mistook the negro for a turkey and fired away at him and killed him. Davis is said to have been a very

deserving man. He leaves a large fam-— The old saying that "beefsteak is better medicine than quinine" is receiving able support from many white men on the Congo. Stanley regarded Boma as a particularly unhealthful place, but it has lost a part of its bad reputation since cattle were introduced and European vegetables began to thrive in the gardens. The thirty white men at this settlement have not been called upon to attend the funeral of a European for a year. Their herd has multiplied until hey are able to have fresh meat on their table every day, which they think a great improvement on the tinned meats and canned vegetables upon which Stanley With a fairly good season a very large and his followers relied for strength to lay the foundations of the Congo enter-

April 26, 1588

What is this Disease that is Coming /- Upon Us?

Like a thief at night it steals in upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy: the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint, all gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and clammy, After a while a cough sets in, at first dry, but after a few months it is attended with a greenish-colored ex pectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow; the urine is scanty and high colored, depositing a sediment after standing. There is frequently a

spitting up of the food, sometimes with a sour taste and sometimes with a sweetish taste: this is frequently attended with palpitation of the heart: the vision becomes impaired, with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some

of its varied forms. It has been found that physicians have mistaken the cause of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., etc., but none of these kinds of treatment have been attended with success: for it is really constipation and dyspepsia. It is also found that Shaker Extract of Roots, or Mother Seigel's Curative Syrup, when properly prepared will remove this disease in all its stages. Care must be taken, however, to secure the genuine article.

IT WILL SELL BETTER THAN

COTTON. Mr. John C. Hemptinstall, of Chulafirmee, Cleburn Co., Ala., writes: "My wife has been so much benefited by Shaker Extract of Roots or Seigel's Syrup that she says she would rather be without part of her food than without the medicine. It has done her more good than the doctors and all other medicines put together. I would ride twenty miles to get it into the hands of any sufferer if he can get it in no other way. I believe it will soon sell in this State better than cotton.

TESTIMONY FROM TEXAS. Mrs. S.E. Barton, of Varner, Ripley Co., Mo., writes that she had been long afflicted with dyspepsia and disease of the urinary organs and was cured by Shaker Extract of Roots. Rev. J. J. McGuire, merchant, of the same place, who sold Mrs. Barton the medicine, says he has sold it for four years and never knew it to fail.

I was so low with dyspepsia that there was not a physician to be found who could do anything with me. I had fluttering of the heart and swimming of the head. One day I read your pamphlet called "Life Among the Shakers," which described my disease better than I could myself. I tried the Shaker Extract of Roots and kept on with it until to-day I rejoice in good health. Mrs. M. E. Tinsley, Bevier,

Pomona Hill Nurseries POMONA, N. C.

Two and a half miles west of Greensboro N. C. The main line of the R. & D. R. R. passes through the grounds and withmake regular stops twice daily each way Those interested in Fruit and Fruit growing are cordially invited to inspect this the largest nursery in the State and one among the largest in the South.

The proprietor has for many-years vis-ited the leading Nurseries North and West, and corresponded with those of foreign countries, gathering every fruit that was calculated to suit the South both native and foreign. The reputation of Pomona Hill Nurseries is such that many agents going out from Greensboro representing other nurseries, try to leave the impression that they are representing these nurseries. Why do they do it

Let the public answer. I have in stock growing (and can show visitors the same) the largest and best stock of trees, &c., ever shown or seen in any two nurseries in North Carolina, consisting of apple, peach, pear, cherry, plum, grape, Japanese persimmon, Japanese plum, apricots, nectarine, Russian apricot, mulberry, quinces. Small fruits: Strawberry, rasberry currants, pe English walnuts, rhubarb, asparagus, evergreens, shade trees, roses, &c. Give your order to my authorized agent or order direct from the nursery. Correspondence solicited. Descriptive catalogues free to applicants.

Address, J. VAN. LINDLEY. POMONA. Guilford County , N. O. 46
