

THURSDAY, SEPT. 20, 1888. TERMS: ONE YEAR \$1.50. SIX MONTHS .75c.

Miss Eliza Garner, the young lady who ran for School Commissioner in Union county, received forty votes. The men of that county must be an ungallant set.

The yellow fever epidemic in Jacksonville has reached proportions which have compelled the local authorities to appeal for aid in the work of supplying necessary attention, of every kind, to the sufferers.

A Western paper says that, making all necessary allowance for lies, hot winds and chinich bugs, Kansas will turn out 20,000,000 more bushels of corn this season than was ever before raised in the State in a single year.

Congressman Mills, who has been stamping in the Northern and Western States, is enthusiastic over the outlook, and gives it as his opinion that Democratic success is already assured.

The area of cotton planted in this State this year is 1,777,950 acres and that of corn 1,777,944. It will be seen that the difference in area is only a few hundred acres.

The cotton crop of the United States for the year ended September 1, 1888, as compiled by the Financial Chronicle amounted to 7,017,707 bales, against 6,513,662 bales in 1887, and 6,850,216 bales for 1886.

Artificial silk is the latest discovery, and judging from the details of it that see at hand, it seems likely that the silk-worm's occupation will soon be gone, and that he may retire to his cocoon and lament his lost importance in silence.

Representative Springer, of Illinois, returned to Washington last week, after an absence of several weeks, and is very enthusiastic over the outlook in his State.

The prospects for Democratic success, said he to a reporter, "were never brighter. We have done some splendid campaign work and the tariff issue will help us immensely."

The damage by the recent flood of the canal, streets, bridges, warehouses, residences, stores and merchandise in August (4) will reach one million dollars. No estimate can be made of the damage to farms and crops from Augusta to Savannah.

A thoughtful writer calls attention to the growing willingness of women to go through life unmarried. Once it was considered a bad thing to be an old maid, and light-minded people made fun of one.

The Supreme Court of Tennessee has recently rendered a decision concerning the affairs of a trust formed by several cotton seed oil companies of that State.

It will take several days to put the road in shape. The Charlotte, Columbia and Augusta bridge is safe, but the sides were knocked off, as was also done with the South Carolina railway bridge, so that the water could pass through. The track on the South Carolina side, however, for a mile, has been washed away. Two and three hundred yards of the rail and ties were floated in a half mile down the river.

AFTER THE FLOOD.

The Waters at Augusta Recede.

Atlanta Constitution.

AUGUSTA, GA., September 18.—The water in this city is now receding.

Augusta, Ga., September 18.—This afternoon a heavy rain fell on the city.

It is the general belief that the water in this city was not so high as it is reported to be.

The street sand was packed from three to four inches deep, covering the street completely.

It is a very novel sight in this city to see the streets so full of puddles.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

The street sand was packed from three to four inches deep, covering the street completely.

our town to day in consequence of washouts on all the roads. The smaller streams were higher than at any other time in the month.

The Charlotte, Columbia and Augusta bridge is safe, but the sides were knocked off, as was also done with the South Carolina railway bridge, so that the water could pass through.

The wind blew a perfect gale, and the rain fell in torrents, inches in half an hour. The night there was a crop of rain.

A faint idea of the size of one man's body was given to drill into the hole was nearly through, and the men, not knowing that the cap drilled so far, exploded a signal cap over one of these holes.

Three hundred pounds of giant powder stored in the vicinity were also exploded. As soon as the smoke cleared away the rescuers entered the tunnel and found the remains of nine men scattered all over the place.

The tunnel is 6,100 feet long.

Death of Major Zeigler.

ARREVILLE, September 13.—This afternoon about 4 o'clock, as the train on the Abbeville branch road stopped to get some wood about a mile from the depot at this place, Major M. G. Zeigler, who was a passenger, got off.

After the train had started, the body of Major Zeigler was found lying on the track.

The train had passed and found it to be the body of Major Zeigler. His head was completely severed from his body.

He was of course dead. He had left the train at 7 o'clock.

Perhaps the most popular man who ever lived in this county, and his position of clerk of the Court.

He was an efficient and energetic man. As a soldier his record is well known.

His family has the sympathy of the entire community in their sorrow. The inquest will be held Tuesday at 7 o'clock.

A Wife Against a Cov.

NEBRASKA CITY, NEB., September 15.—Two Swedish farmers named Ole Johnson and Hans Erickson made a strange record in the municipal election today.

A written agreement was drawn up and placed in the hands of a prominent business man. According to its terms, in the event of Cleveland's election, Mr. Johnson should have to hold against the Swedish claims of any and all persons.

Whether it will be held against the Swedish claims of any and all persons, it is not yet known.

A gentleman told me recently of a strange experience related by a friend of his. It was during the battle of Gettysburg that he and his friend were in the ranks.

They were both in the line, and were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.

They were both very brave. They were both very brave. They were both very brave.
