promise to be as brief as the circumstances will admit, and to pursue the subject no further in the paper.

As to the false statement, I give Mr. J. W. Evans as my informant. I have also interviewed Mr. Cooper, and he says it was 12.6-7 bundles in a half day, so the statement is not as false as "M" would gladly have people believe. When that article was written I was not aware that "M" had pulled a blade of fodder this year, and only found it out when he "hollered." Yes, "M" since you mentioned it, you did not holler like a beegle sure enough, but like a fice. That little article was, written to show the damage fodder had sustained by the heavy rains, and not as a stab at any one. "M" says he wrote his reply because he thought it would be a correct advertisement for the beagle hound." Yes, Mr. Editor, that is, it exactly thought it would damage my reputation as a breeder, and bring the beagle hound before the public in an unfavorable light. I have abundant evidence going to prove that "M" is not writing all of his splenetic twattle unaided, but is assisted by certain ones who are seeking to get even with me by attacking my dogs. I leave the reader to draw his own conclusions regarding such a way of getting even. No doubt "M" thinks his last sentence is a sunner, in which he declares himself to desist, as there have been time any money enough lost on beagles. I once heard of an old man who, upon being asked how has answed so much money, replied that he made half of it attending to his own business, and the other half by letting other people alone. So "M," go thou and do likewise.

And now, in conclusion, allow me to say for the benefit of "M" and his allies, that the "Blue Ridge Beagie Kennels," (Stribling and Jolley, Denver, S. THE FARMERS' ASSOCIATION. Call for a Meeting in Columbia on November 14.

To the Farmers of South Carolina: Two years ago last April there assembled in Columbia the first Farmers' Convention. It was composed of representative men from nearly every county, and demanded certain reforms in our educational system and in the management of our State Gov-ernment. The November following another Farmers' Convention met and entered into a permanent organization under the name of the "Farmers' Association of South Carolina." This Association then and there reiterated the demands of the first Convention as to the State and pressed other reforms in the Government, some of which have been ranted and others refused.

Using Riches Not to Abuse It.

It may interest some to know what a few rich men have done for the cause of education. Johns Hopkins gave \$3,148,800 to the university which bears his name. His gifts for benevolent purposes amounted to \$8,000,000. Asa Packer gave \$3,000,000 to Lehigh University. Cornelius Vanderbilt gave \$1,000,000 to the Vanderbilt University. \$1,000,000 to the Vanderbilt University, to which Wm. H. Vanderbilt afterward added \$500,000. Stephen Girard gave \$8,000,000 to Girard College. John C. Green and his residuary legatees gave \$1,500,000 to Princeton College. Ezra Cornell gave \$1,000,000 to Cornell University. On account of the great fire and shrinkage in value, and other unfortunate circumstances, the university will realize less than \$70,000 from this magnificent be quest. Amasa Stone gave \$900,000 to Adelbert College by direct gift and by bequest. W. W. Corcoran gave \$170,000 to Columbian University in money and land. Benjamin Bussey gave real estate worth \$500,000 to Harvard University. Samuel Williston, William J. Walker and Samuel A. Hitchcock gave between \$100,000 and \$20,000 each to Amherst College. Whitmer Phenix gave the bulk of his property, amounting to about \$640,000, to Columbia College, New York. J. B. Trevor gave \$170,000 to Rochester Theological Seminary. Matthew Vassar gave \$800,000 to Vassar College; Gardner Colby gave \$170,000 to Colby University, and \$100,000 to Newton Theological Seminary. J. B. Colgate gave \$300,000 to Madison University. The adaptability of the bagging to the covering of cotton will result in a wonderful revolution in the South. It is made of the needles or leaves of the pine. These can be made into cotton bagging at a cost which is bound to run jute bagging out of the United States. The green needles, it is claimed, yield oil enough to pay the entire cost of their treatment. It is proba-ble that by next spring over 100 factories for the manufacture of pinestraw bagging and matting will be in operation betwee Raleigh and New Orleans.

According to my friend, New York and Indiana are two States upon which managers of both sides intend to concentrate their energies.
