Jap. has a good corn trop, and is not slow on the cotton line. The crops in that neighborhood are generally good, but the outcome is not thought to be as good as was supposed six weeks ago. In the Hickory Flat neighborhood the cotton worm has made its appearance, and Mr. Norric thinks will curtail the grop seriously. We see that the University farm at Columbia, which was a competitor for the che thousand dollar premium agre of corn has fallen down to about fifty bushels. Of course that rules it out. Mr. Garrison, of the Denver neighborhood, only claims about Denver neighborhood, only claims about one hundred bushels on his premium acre, but thicks if the expense of cultiva-tion was to be considered, he would stand a better chance. Mr. Ben. Perry, of Greenville, has a premiam acre which was thought two months ago would make one handred and seventy bushels, has failed on account of too much rain in August, being on bottom land. Startling, but true. Mr. Norris in his excellent address at the Walker-McElmoyle institute recontly, said that the negroes of the State were taking more interest in education than the whites; that the Claflin University for the colored people, was one of the best educational institutions in the State and prepared by Governor the State, to pronounced by Governor Richardson himself; that while the State University had some two hundred, Claffin had her nine hundred; that all our color-ed common chools were batter patronized ed common schools were batter patronized than the white, and unless the masses of the white people bestirred themselves they would is outstripped in the race for educational advancement by the "poor nigger;" that education and educated men would rale the State, as it did elsewhere, wherever found. This was a startling proposition, but no more startling than true. Tet us quit abusing the ling than true.
