H. McGill the able editor of the Star has been urged by a great many friends to make the race. If he should consent to run, he would in all probability make an excellent member." Hurray for Bro. McGill! Hart County could not get a better man to represent her in the Legislature.

Todd and J. W. Quattlebaum, Esq. At the conclusion of the debate the judges retired, but after being out a short while they reported, through Mr. Quattlebaum, that they were unable to agree, but as jurists so often do, they would return a verdict. This seemed to satisfy all parties. There were two declaimers, Cadet Geo. Baker and McCants, each of whom acquitted himself with credit.

Belton Items. With half of our head split off, and the other half continuously disturbed by internal commotions a little less violent than the afflictions of Mt. Vesuvius, we have almost decided that "La Grippe" overrid the thing when she meant to touch us up to a lively movement. Notwithstanding the hard dealing with us, which Providence are mysterious and past finding out—however, we know that all things of God are for the best for those who wait in Him, and that our loss is his gain, therefore we humbly submit, realizing that he has gone to receive the souls of the departed, and that our earthly servant, enter them into the joy of his Lord.

Resolved 1st. That we try to live nearer our pastor's teaching than we have done, and that we imitate, as near as possible, the character of Christ as he did.

Resolved 2nd. That a blank page be left in the minute book to be inscribed to his memory.

Resolved 3rd. That a copy of this preamble and these resolutions be furnished the family of the deceased, and that they be published in the Intelligencer.

THE TERRIBLE DISASTER AT LOUISVILLE.—Frank Leslie's Illustrated Newspaper last week presents six pages illustrations of the disaster at Louisville, Ky. The pictures are full of interest. Another striking feature of the paper is the editorial contribution from ex-Senator F. C. Platt on the recent Tammany exposure, and embodying a statement as to why he opposed the control of the World's Fair by politicians in that body. Another contribution on the Eastern Question, is that of the Hon. J. C. Calhoun, Professor of Military Science and Tactics at Yale University. There is the usual number of other fine illustrations.

Happy Hoosiers. Mrs. Ruth Cannon died 16th March, at sundown, and was buried at Shady Grove Church, Tuesday, 18th. Dr. Landrum conducting the funeral services. She was 21 years of age on Tuesday previous to her death. We trust she is in the "home of many mansions," as she said, "persons ought not to dread death; that God was only taking them to another parent, where love greater than an earthly parent, was there, like a father kindly enfoldng you in His arms." She bore patiently all pains. Measles caused her to settle on her lungs, and soon our precious one had to give up life. May we be enabled to meet her when death comes to us, and we have a bright and happy home in heaven.

Happy Hoosiers. Wm. Timmons, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Lee, farmer and stockman, of same place says: "Find Electric Bitters to be the best Kidney and Liver medicine, made in this new man." J. W. Gardner, hardware merchant, same town says: Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and fell just like he had a new lease on life. Only 50c a bottle, at Hill Bros. Drug Store.

Remarkable Rescue. Mrs. Michael Curfain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs, and she was bed-ridden for a month by her family physician, but grew worse. He told her there was a hopeless case of consumption, and she felt that medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight she found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was.—Free trial sent on receipt of name to Hill Bros. Drug Store, large bottles 50c and \$1.00.

Prepare for Grass. The Sullivan Hardware Company are never behind in their line of business; and this season they are far in advance of all competitors in the way of a tremendous stock and low prices on Hatched Hoes, Zinc Shovels, Harrows, and nothing in the line of tools and implements with their goods. No such prices ever offered here before. They mean business, and their 300 dozens Hoes, 350 dozen Hoes Saws and 200 dozen Harrows are for sale, and will be sold lower—ways down.

Don't fail to examine the Bankrupt Stock. The largest, the most complete, the most stock of Clothing in the city is now open on the counters at 60c, on the dollar of manufacturers' cost. Just think of it! You can save \$5.00 on an ordinary suit of clothes at FLYNN'S, next door to Willie & Willie's drug store.

"Some of you boys" Gen. Clinton B. Fisk said in a Sunday-school speech the other day, "may be presidents of the United States some day, but" he added humorously, "you had better not run on the Prohibition ticket."

—Marshall Pass, on the Denver and Rio Grande Railroad, 10,851 feet above the sea level, is the highest point crossed by a railroad inside the limits of the United States.

Application for Charter. NOTICE is hereby given that the undersigned, Mr. Brown Holland, who died last Saturday afternoon at the home of Mr. A. A. Carpenter, in Broadway Township. He had attended the bedside of his brother very closely during his illness, and on Sunday after the latter was laid away in the grave, he was stricken down with pneumonia, which gradually grew worse until he expired.

That Spring was ushered in on Easter with all the signs of a prolonged stay. Our farmers are not prepared for it, but they are ready, willing and waiting for the first proof of the permanency of Spring weather. In order to commence planting cotton—most of the corn having been planted.

That your correspondent has found a strange phenomenon in the shape of a pine tree. This tree stands in the center of a newly cleared field, is about 60 feet high and is almost or quite dead. The trunk on the Northern side has been punctured into an indefinite number of small holes, making it have the appearance of a porous plaster, from the ground to the branches, a distance of 40 feet. These holes are not found on the Southern half of the tree. The most plausible theory yet advanced is that it was done last summer by birds in search of insects that had sought refuge from the sun's rays by collecting on the Northern side of the tree. Has any one a different explanation to offer?

That the catastrophe that happened to Dr. Cook's batch of canaries through the agency of a cat bent on the destruction of the youthful songsters was an offense, an adequate punishment for which could hardly be inflicted with the cat-o-nine-tails. He has sworn eternal enmity against the entire feline race, and has already begun to wage a war of extermination, and would be grateful to enlist a good number of volunteers. We respond with alacrity. Will not others send in such a peace-resolving cause?

That the next step to be taken in order to secure the continued and solid growth of our villages is to have it incorporated. This would empower the citizens to lay out and have executed new streets or other improvements; to have removed or disinfected any cause tending to impair the healthfulness of the place; to punish those who should disturb the peace and quietude of the residents, and other advantages too numerous to mention.

Corner Dots. Miss Ida Beady and Mrs. Ella Reid have been visiting relatives in this section for the last few days. Mr. Joe Roberts, a drummer and hunter of Williamson, while canvassing this County for a rug machine company, was out on a deer hunt last week. He didn't find them very plentiful.

One of our old bachelors went to see a young lady the other day and stayed rather late that night, and an old hen, provoked by some corn, got in his buggy and devoured the corn and decided to roost under his seat. Our friend came home that night and threw a sheet over his buggy and was surprised the next Sunday to find a dead hen in his buggy.
