MR. EDITOR: As it is rumored throughout the County that the County Democratic Executive Committee have decided not to allow Col. Dargan, of Sumter, to speak at the mass meeting at Anderson, much restless uneasiness and anxiety provails. Is it a fact that in the discussi valis. Is to the heart in the control of the political matters in South Carolina that a citizen can not be heard in his own defence? Riot and bloodshed are predicted in the event of Col. Dargan answering the charges against him. It seems passing strange that the people of any community, and especially a community so advanced in civilization as the people of Anderson, would, under any circumstances, refuse to hear any citizen in his own defense.

If not allowed to speak at the stand, there is no doubt but what Col. Dargan, will, if he comes to Anderson, be allowed somewhere the privilege of speaking to the people of Anderson. The people of this County are satisfied that something is wrong, or the whoop, whoop, for Tillman reform amounts to nothing, and the people want to know two or three things: 1st. Has there been rascality, and if so, 2nd. Has there been extravagance, and, i

3rd. What is the remedy, and how can t be brought about? Get down to a bill of particulars. The people do not care to know how a man happened to be a candidate for any flice whatever, as all are aware of the fact that it was because he wanted it and his that it was because he wanted it and his friends encourage it. If you cry reform, show the people the evil and how you are going to remedy it. The day of buncombe and eye-browsing has played out, and what we all want now—farmers, merchants and everybody else—is facts and figures. No time to wait to hear of the various methods used to bring, yes, drag you unwillingly into the campaign. No matter how you got them, if you have any remely for real or imaginary evils, say so, est deal, and if the people get left they have nobody to blame but themselves.

I think this is wrong, for we should always support our best men for public positions, for we want men and measures combined.

Measures without men would be like a

cat in the bottomless pit without claws and men without measures would be stil

belongs to them and nobody cise. And these hungry politicians still keep tugging away at the public pap and say you must let down your milk or you will have a spoilt bag.
