The Georgia	State Democratic conven-

tion on Thursday nominated W. J. Northern for Governor, R. U. Hardeman Treasurer, W. A. Wright Comptroller, Geo. N. Lester Attorney General and Phil. Cook Secretary of State.

Wm. Kemmler, the first person ever executed by electricity in the United States, suffered the death sentence at Auburn, N. Y., on Wednesday, 6th inst. His death was apparently painless in about 20 seconds.

Many readers of papers have conceived the idea that the editor endorses every line he publishes, but the ides is a very absurd one, as through the medium of the country paper all issues are ventilated and an editor would have to bear a heavy load if he was held responsible for all that appears in the average country weekly paper.

Governor Hill, of New York, has been brought forward prominently as a candidate for President in 1892. Cleveland's friends are also working for him. The South should have nothing to do with that question. Let the State of New York select the man they can win with. The South will fall into line under either leader. It makes little difference which one carries the Democratic standard so he unfurls it on the Capitol:

The Washington Post says isn't it about time to own up that the late Confederacy did the most magnificent fighting in history ? The New York Tribune estimates that there will be 750,000 names on the pension list when the new laws shall have gone into effect. Counting these 750,000 crippled and disabled relics of the war in connection with the hundreds of thousands of killed, it is impossille to escape the conclusion that the Confederates did some very dreadful fighting.

The Augusta Chronicle says Kansas produced last year 240,000,000 bushels of corv, about one-tenth the production in the entire country. If the Kansas crop this year proves to be only 20 per cent. of last year, as is now announced, say 48,000,000 bushels, and the loss in adjoining States, of which Nebraska produced 150,000,000 and Missouri 218,000,000, is proportionately as great, the shortage on the entire crop will reach 400,000,000

the entire crop will reach 400,000,000 bushels for these States alone, or one-fifth of the total crop in the United States. The State campaign is ended, and we think everybody is glad of it. This has been the bitterest, in some respects, ever witnessed in this State. However, things are getting very quiet and, at all public gatherings in this County, unparallelled good order prevails. What will be the entire result of the campaign cannot be

I believe that there ought to be some legislating done for the benefit of the farmers, if it can be done without injuring other parties. I believe in fair and square legislation and equal rights to all and special privilege to none. There is one thing I will promise the people if elected: if not sick and in bed when any bill comes before the House I will be there, and if it is against the masses of the people I will fight it as long as I have any grounds to fight it on. If I see that they have the majority and will pass it over me by the majority, I will enter a protest. ly by such promises from him and his sa-tellites, that he succeeded in working up such feeling in the country, and thus in-duced so many good men to follow in his me by the majority, I will enter a protest, and I will show by my record how I

The County Conven-tion, of August 4th, among other things, and 1 will show by my record how 1 voted and worked. It will be said by some that my educa-tion is too limited for me to be competent to go to the Legislature to work for the interest of the people. This is too thin to be listened to, as the Solicitor is paid to draw up all bills, then it is sent before a Committee and if they say it is Constitution, of August 4th, among other things, instructed our delegates to oppose the pri-mary system for the nomination of State officers. Do they not, by that act, put themselves without the pale of the princi-ples laid down by the platform, which was written by Mr. Tillman's "left hand?" "Consistency, thou art a jewel?" But what reason can now be urged against the primary system ? We have been fighting for the principles therein involved for a number of years. Has the principle changed? Has what we proclaimed the true principles of Democracy two or four draw up all bills, then it is sent before a Committee, and if they say it is Constitu-tional, then it is sent back and printed and then it is put in the bill box and whenever it is come to it is handed to the Reading Clerk, who reads it and puts it be-fore the House and it is voted on. I be-lieve any man that knows me believes I can get up and explain what would be

true principles of Democracy two or four years since been changed, so that the prin-ciple is no longer a safe one to be used in political affairs? If it was right then, if it lieve any man that knows me believes I can get up and explain what would be best for our people. I will do this, so help me God. Some of our legislators say in their speeches that they are taken around to the fine suppers, and are treated on fine champagne and the next der they are willing to yoth any way. will be right two years from now, as "suggested" by Mr. W. A. Neal, why is it not right to-day? We can see how, as a matter of *expediency*, the friends of Mr. Tillman should refuse to carry the questreated on fine champagne and the next day they are willing to vote any way. I promise the voters of Anderson County, if I am elected, that if such work as that is done I will come home and tell who did it. I will ask my friends not to listen to the false reports that are being circulated about me. One is that I cursed out my own Club, which I can prove is all false. It all started from my being opposed to bossism, ring-rule and party-caucusing. I started out to fight it, and I am deter-mined to still fight it so long as I live. I know they want to hear from me on the questions that are to be asked and I will answer them. I do not object to any of the questions that are boneficial to the people. This great, long sub-treasury bill tion to the people this year, but on prin-ciple we fail to see any consistency in their theories and their action. The sim-ple question is : is it better to repudiate the principles for which we have so long con-tended, or, in order to elect Tillman and tended, or, in order to elect Tillman and a set of "ringsters" to office, to resort to the very means he and his creatures have been denouncing? In other words, is the election of B. R. Tillman, or any other man, of more importance to South Caro-lina than the principles of the Democra-cy? Would it not have been better to have been better to

baye stood by the demands of the party, than to have gone back on what we believe to be the first principles of Democratic government? Was it not incumbent upon the members of the Farmers' Association, above all others, to have stood by the de-mands of the "Shell Manifesto so for as the numbers." of the questions that are beneficial to the people. This great, long sub-treasury bill is such a one-sided thing, giving the Government and the managers all author-ity and the farmers none. There is not a section in this bill that is favorable to the farmers. I will ask my brother farmers, whom I am in sympathy with, to read this bill and then send it to their neigh-bars. to some of the sections of this bill. Ist. I think we ought to manage our State business so as to get out of debt, as we owe money now that we are not able to pay. When we go in to as much ex-pense as it will cost us to build these warehouses, with insurance added on and a crowd of men paid from one thousand to fifteen hundred dollars each a year, I believe that the poor laboring olass of people just as well be under bondage. I will never favor any bill that is against the poor class of people. Section 10 of this bill says we have to donate to the Government an adequate amount of land of rule more than at any time in our po-litical history. When in the history of this bill says we have to donate to the Government an adequate amount of land for the location of the sub-treasury build-ings. Section 2 gives any owner of cotton, corn, wheat, cats or tobacco the same right to store products of our land, giv-ing the speculators of the Northwestern States a change to buy up all the grain in the West and store it and then we would have to nay them whatever they would

have to pay them whatever they would be pleased to ask us for the same. Wesbe pleased to ask us for the same. Wes-tern farmers can do without our cotion, but we cannot do without their provision. Section 4 of this bill, I believe, is uncon-stitutional, as there is nothing that is legal
