We were very glad to have the pleasure of shaking hands with our old friend, Mr. Reuben Glines, last Saturday. He and his good wife were in the city. Mr. Glines was thought at one time to be low at the gate of death, but he is again able to be about his business. In some respects he seems a changed man since his sickness. We hope he may yet live many years, during which he will be an influence for good. He has many friends in Anderson, who are glad to see him on the streets again.

Book orders will be sent to the publishers, after which an address will be delivered by Dr. Wardlaw on "Duty." At the conclusion of his session, Mr. Hamlin will be visiting his friends in the city.

The first entertainment in the Opera House for this season took place Tuesday evening, at 8 o'clock. The "Three Men" was the play presented. Those who attended were certainly given repeated opportunity for laughter, which was afforded in a most enjoyable manner. The Opera House Company have arranged, and are making arrangements for a pretty good entertainment for the coming week, and winter. They have gone to the expense of fitting up an Opera House in the most modern and convenient and comfortable arrangement, and will no doubt have a successful season. Those who wish to endeavor to engage none except first class companies, and will therein endeavor to give our people such entertainments as they can enjoy.

A large crowd attended the campmeeting at Sandy Springs, last Saturday. The order was excellent. Rev. W. D. Kirkland, editor of the Southern Christian, was the guest of honor. The eleven o'clock sermon, which was very much enjoyed by those who heard it. However, there is said to have been a great deal of misbehavior on Saturday night, and at the factory, not far from the camp ground, a difficulty is reported to have occurred between two men, one of whom was named Slater, by the name of Fraser, and one Mr. Simpson, in which all three were badly injured. It is said that one of the men was shot and the third got his head crushed with a rock. The particulars are not known, but we are unable to give the cause or even the result of the trouble very accurately.

Mr. George A. Wakefield, a young man who resides with his uncle, Mr. James A. Wakefield, at the residence of Mr. J. H. Barnett, was killed on Wednesday, 17th inst. He was riding away from a gin, when by some means caught by the gears and literally torn to shreds, and also badly crushed. Medical aid was soon at hand, and it was found that amputation was necessary, and his wounds were complicated near the shoulder. Dr. Hill, of Abbeville, assisted by Dr. J. Anderson, performed the operation, and at last account he was getting along as well as could be expected under the circumstances. The young man stood the operation heroically. We hope he will soon be well again, as he is an industrious young gentleman, and stands high in his community.

Mr. Wister W. Cooley, who lives near Williamson, was victim on Sunday of a most painful and almost fatal accident. While on the way to the Campmeeting he stopped to water his horse, and owing to an over check rein he took the bridle off so the horse could drink. The horse became frightened, started to run, and in his efforts to hold the horse Mr. Cooley fell and was trampled on by the horse, one foot striking the young man on the side of the head and face. Mr. Cooley was unconscious and thought to be killed, for some time, but he has regained his consciousness, and at last account he was doing well. Dr. John Duckworth attended him. It is said that the print of the horse's foot is plainly visible on the side of Mr. Cooley's head and face as if it were a track in the sand.

The Patrick Military Institute began its session of 1890-91 last week, with a larger attendance than ever before at the opening of a session. The roll of students has been growing larger and larger every year, and from time to time the boarding house has had to be enlarged, and now they are full, with the prospect of a considerable increase yet. This demonstrates that "nothing succeeds like success." Col. Patrick has made a success of the Institute here, and as a consequence it is constantly becoming more and more popular. The roll is composed of students from almost every County in the State, and from several other States. We are always glad to be able to say such things of our schools, for they add a great deal to the genuine growth of a city. We have often said that there is no better place to educate your boys, and we say that now is the best time to start them. Here they will receive a thorough training, both intellectual and disciplinary. Let them come.

"Mr. J. T. Burgess, of Fork Township, took his cotton to a town on the Air Line Railroad, and was offered only 9 cents. He refused to sell, and brought it to Anderson and received 9 1/2. If he had brought it here the day before he would have got 35 cents. Anderson is the place to sell your cotton. Mr. Burgess says, and he is right." We find the above item in the Anderson INTELLIGENCER, and we presume the reporter got his information from Mr. Burgess himself. Now let us look a little further. A few days ago Mr. Burgess was near Townville, and brought two bales of cotton here and handed it back saying he would take it to Anderson and do better than he was offered here. Mr. J. C. Cary made the last bid on his cotton, and he informs us that he offered Mr. Burgess 9 1/2 for one bale, and 9 1/2 for the other, and anybody can easily see that it averages more than 9 1/2. Is it the same thing to get you to this oh, how different it looks when you get the facts. In naming good cotton markets Seneca can't be left out. Get upright, brother.—Seneca Free Press.

Some people have just gotten religion to make them miserable. If they had none, they would be able to enjoy the things of this world, and they would be able to enjoy the world, and yet not enough to enjoy the world to come. O you poor bewitched ones, you that hang like Mahomet's coffin, between earth and heaven—you that are like bats, neither birds nor beasts—you that are like a flying fish, that tries to live in the air and water, too, and finds enemies in both elements—you that are neither fish, nor bird, nor other, strangers in God's country, and yet not able to make yourselves at home with the devil—I do pity you. Oh, that I could give you a tug to get you to this side of the border-land! My Master bids me compel you to come in; but what can I do except repeat the message of the text? My son, give me thine heart." Do not be silly-shilly any longer. Let your heart go one way or the other; for the devil be worth loving, give him your heart, and serve him; but if Christ be worth loving, give him your heart, and serve him. Turn your eye to Jesus once for all. Oh, may his Spirit turn you, and you will be saved, and his name shall have the praise!—Spurgeon.

Notice to Sub-Trustee Stockholders. All the Sub-Trustees of the different Alliances in the County, will please meet in the Court House at Anderson on the first Friday in October, at 10 o'clock, a. m. Be prompt, business of importance demands our attention. JOHN M. GILLEN, County Trustee.

As Others See Us. The following is taken from the Hartwell Sun, one of the liveliest and best weekly papers published in Georgia. It is edited by John McGill, Esq., formerly of this place. The people of Hart County are indebted to him much more than they are to give him for the progress and prosperity of the community, and if they fail to give him that liberal support and encouragement he deserves, they thereby work against their own interests. If he should leave them it would be hard to get another such editor.

On last Saturday afternoon the "New" man of the Sun paid a visit to the city of Anderson for the first time in eight years, returning Monday afternoon. To say that he was amazed at the growth and progress of the city would be putting it mildly. It eclipsed our brightest anticipations. His new stock of goods is going off like hot cakes. All his locks is calico and other nice goods, all of which will appear in the near future.

A large number of persons passed through the Kingdom on Saturday and Sunday going to and from the Campmeeting. Among the multitude I observed many distinguished friends. I am sure would have been very glad to have taken him by the hand and exchanged friendly greetings, but he was going at 2:40 and did not recognize him in time. Monroe got his girl home as he promised—in due time—he will be allowed to call again.

It was in Anderson on Thursday last, and going to the popular boarding house of Mrs. Riley for dinner, I met my friend, Josh. He was in the heat of spirits; not in the least depressed by his defeat for Legislative honors. Had a high head, Josh, you will "get there, Bill," and when you do, remember who your sympathies are for.

Come up, Mr. Editor, and see how nicely we are moving along without any politics. Bring a jug of butter milk for the benefit of—SEANNA.

Mr. A. S. Farmer, who graduated this summer from the Patrick Military Institute, is clerking for N. O. & G. W. Farmer at Farmer's Store.

Mr. J. T. Gaines brought his fair young bride into town in grand style last Thursday afternoon. She was Miss Kitty Parton, the day before, and there is no question that that, has impoverished a certain neighborhood in Martin Township, by the modern architecture, and with its business air, was once the alloy old town of our boyhood days. Ours was purely a business trip, and is not our intention to write up the town at this time. However we will mention the fact that this is the greatest county in the State, with 300,000 acres, and that their goods stand up to the test of time. Since water works, electric lights, also factory, &c., &c., and to cap it all, the most superb of the State, the "City of the Future," to the Kimball of Atlanta, in everything except dimension. It is an ornament to the State, and a monument to its enterprising public-spirited originators. Another new enterprise now about to get under way is the new water works, the water works of the County Alliance, to be called "The People's Advocate," a name broad and comprehensive, embracing the interests of the whole county, and the resources and advantages of the city and surrounding country will not lack for efficient and widespread advertising. Our stay was rendered pleasant and agreeable by the most cordial and open-handed hospitality of many of our old friends. Hurrah for Anderson!—may she go on prospering and to prosper.

The Belton Academy opened its fall session Monday with a good attendance, which will doubtless be more materially enlarged under Principal Smith's administration.

Miss Anna Brock, of Due West, is visiting relatives in town.

Several young men from Honeska Path attended the Campmeeting at Sandy Springs last Sunday.

Mrs. Dr. Shirley has been quite sick, but is convalescing.

The Reading Circle was re-organized last Friday night.

A Chautauque Literary Society also will be organized next Monday night.

Last Friday afternoon some negroes coming up the Railroad went into the house of Mr. Abner Mattison, who lives near this place, and the family not being at home, took some clothing. As soon as it was discovered the goods had been taken, Mr. Mattison telegraphed to Belton to have the negroes arrested. They were brought back to Honeska Path, and on Saturday a preliminary hearing was held. Two were released, and one was sent to Anderson to be tried before the next Circuit Court.

Walker-McElmoye School. Last Thursday evening, September 10th, we had the pleasure of witnessing the closing exercises of the summer session of Walker-McElmoye school. At 2 o'clock, the hour appointed, the house was filled with overflowing with the friends and patrons of the school. The exercises were commenced with song and prayer. Then followed an easy song, recitations and speeches. Everything moved like clock work. The children and young people seemed thoroughly to understand their respective pieces, and when they were called for by the chairman, Master George Binsingsang, they acquitted themselves ably, and without any prompting, spoke, sang, or recited as though, to them, it were a thing of daily occurrence. It was really refreshing to see the heartiness with which the children engaged in the exercises. Even the little children recited their poems and sang, apparently, without the least embarrassment. There was nothing light or trifling about the whole affair. Care and taste was displayed in all the selections, and many of the pieces would have done credit to much older pupils.

The instrumental music was furnished by Prof. Reeves, who has been teaching music in the school, and to whom much of the success of the evening was due. The annual address was delivered by Hon. Charles H. Carpenter, of Pickens. His pleasing and instructive speech was well received by all.

The closing scene, though common in some respects, was rather unusual. It was the marriage of Mr. J. R. Newton of Anderson, to the assistant teacher, Miss Lucy Ella of Pickens. The wedding had been planned as a surprise to the school, but some how the affair leaked out when the time came for the bridal party to enter every one was in eager expectation. The marriage ceremony was performed by Rev. T. D. O'Neil.

This ended a very enjoyable entertainment. During the last term she had sixty pupils, and the number will, doubtless, be greatly increased by the next session. Our people are slow to take hold of a good thing, but they are beginning to appreciate the efforts of Miss Newton. They have only to unite in supporting their teacher with their sympathy and patronage, and they will have one of the best schools of the kind, in the country. All parents cannot send their children off to boarding schools, but all who live in reach of Walker-McElmoye can give their children a good training, and when they entrust them to Miss Newton they may rest assured that they are under the care of a competent, christian teacher, who will use every means of training them for the duties and responsibilities of life.
