In the "Alliance Column" will be found a reply by the editor of that column to our criticism in last week's issue on the program under the caption, "Votes." That was an "excellent article," but excellent in what? We answer in both, demagogism and independence; and almost in any kind of form except that which goes to make up democracy. The difference between our Democracy and Republican or Independent Democracy is so great that we have no time to stop here and explain it, and especially to one who would probably not comprehend it after explanation. We would not have noticed the article last week, but for our desire to ever direct the attention of our readers to any attempt, by any one, to mislead or impose on them under false colors. However, we will here state that that Democracy we can see no difference between Democracy and Republicanism, except six per cent in the tariff levy, has only a short distance to travel before he will find himself in the Republican ranks. Further, the very statement that the only issue between the Democrats and Republicans is so little that "nine-tenths of the people of the United States would never know the difference," sounds to us very much like the utterance of a very good Democrat. We are Democrats from principle, and we believe there are great living principles that divide us from the Republicans. The difference between our Democracy and Republicanism on the tariff issue is not so much in the amount of the levy as in the unjust and oppressive discrimination by the Republicans against the South, and the agricultural interests of the country. But if the only issue is the tariff, then Samuel J. Randall, that whom the Republicans consider a man more than a Democrat. How much Democracy is there in the remark that "Cleveland adopted the policy of his predecessors," and that his administration was "harder on the agricultural people" than any administration prior to that time since the war? Now, as to standing up for the just rights of the farmers, we yield no man, or set of men, and no newspaper, the first place over us in that matter. We have never said or done anything that we did not believe to be in the interest of the people of the country—the farmers, the mechanics, the merchants and the professional men. We have endeavored faithfully to labor in the interest of the whole people, and this we shall always do, whether we meet with opposition or not. We are not trying to please people, we are trying to do our duty. In conclusion let us say, that the reader who cannot see in that article last week, under the heading of "Votes" any independence, or even a hint at a third party, would never see an argument, though presented by Congressman Geo. D. Tillman. The "Alliance Column" is an independent organ, a "third party" paper. Reader, please remember this, and in the future, when you read an article from it be not deceived.

The wealth of the United States is unofficially estimated at \$71,500,000,000, an increase in ten years of forty-two per cent. England's wealth was placed at \$51,000,000,000 in 1885, but divided among a smaller population than that of the United States, while the value of France's property is put at \$38,000,000,000. France in England averages \$20 per capita; and in the United States, \$12.50.

THE RADICAL PLAN.
To put Out a Ticket of Democrats to be Voted For.
Special to the Greenville News.
CHARLESTON, S. C., Sept. 25.—The Tillman ticket nominated by the Democratic State Convention, September 10th, have by no means been elected as yet. A bombshell was exploded to-day by the Republican State Executive Committee, which threatens to put an entirely different phase on the matter. The committee was authorized by the State Republican Convention to put out a State ticket if they deemed it advisable. It has transpired that the committee have agreed upon a ticket, the composition of which leaked out to-day. It is as follows:
Governor, A. C. Haskell.
Lieutenant Governor, John Bratton.
Secretary of State, J. Q. Marshall.
Treasurer, W. A. Ancrum.
Comptroller General, J. W. Barnwell.
Attorney General, J. E. Barris.
Adjutant General, M. L. Bonham.
Superintendent of Education, J. H. Rice.
All the nominees are straight Democrats who oppose the Tillman movement, and most of them opposed it on the stump. The Republicans claim that the ticket can be elected even without the aid of white voters. There are, they say, 157,000 colored voters in the State against about 80,000 whites. Of the colored voters they say over 110,000 are registered and qualified to vote for State officers and they can poll 100,000 of these for the straight Democratic ticket. Besides these they claim that 20,000 democratic voters will join them in voting for this ticket as against the Tillman ticket. Even if these should be no opposition, it is estimated that Tillman will not be able to poll more than 30,000 votes in the entire State. Since the "Straight" Democrats abandoned the fight against Tillman the discontent has been growing in the party, and the Republicans count on these opponents of Tillman to see that there shall be a fair count.

THE TILLMAN LEADERS. They are very much worried about it. One of them said to-day that if Judge Haskell allowed the negroes to vote for him there would be more negroes killed in November than were killed in 1876. The Republicans say they don't care whether the men they nominate decline to serve or not, they will vote for them, and the "straight" Democrats may do as they please. All they are expected to do is to see a fair count of the ballots. "This ticket," they claim, can carry the white vote of at least six or eight counties.

HARRIS' ANOTHER TICKET.
COLUMBIA, S. C., Sept. 25.—The alleged republican State ticket sent to the News from Charleston seems to be simply and solely C. O. Levy's ticket, as all the republican leaders disown it. Levy has been in Charleston and his disclosures to newspaper men there are apparently made for a little cheap notoriety for himself. A ticket has been made up by the republicans and authoritative details in relation thereto have become known outside the inner circles of the party for the first time to-day. Dr. W. W. ALLIANCE COLUMN.
All communications intended for this column should be addressed to J. W. Bowyer, Denver, S. C.
We feel very grateful to the editor of the INTELLIGENCER for calling attention to the very excellent article we published from the "National Economist" last week, headed "Votes." We published it because, in our humble judgment, there is a great deal of food for thought contained in it. We believe that a careful perusal of that article, in the light of past events, will give information to the people of this country that they need. After a careful re-reading we fail to find any "independence" or even a hint at a third party, and such impressions can be obtained from it only through a diseased imagination. Even when we could recollect, the tariff has been the only live issue between the two great parties that strive to control the National Government. If that plank is taken from both platforms, there is not a half dozen men in Anderson County that would know which one they were reading. Even on the tariff there is not as great a difference as one would imagine from the time that it was taken from the platform of the doctrine of their respective platforms. The average of duties under the tariff bill would be 47 per cent. The average under the McKinley bill would be 47 per cent, if it passes. Nine-tenths of the people of the United States would never know the difference. We all know that President Cleveland's administration was much more economical in spending the people's money than the present one, and we are proud of the fact, and there are a great many other things in which his administration was vastly superior to the present one, but we will not consume space to enumerate.
In the financial policy pursued by the various administrations since the war, there has been no change, except that each one has made the tariff the agricultural people than the last. President Cleveland adopted the policy of his predecessors, and Mr. Harrison has followed in his footsteps, and that is where the Alliance claims that the great wrong is. Congressman Tillman, in his tirade of abuse against the Sub-Treasury bill and his fraud, in which he fails to produce a single valid argument against it, admitted that the financial policy of the Government is unjust and oppressive, and that the principle underlying the Sub-Treasury plan is right, yet he fails to give any definite plan to carry on the business of the Government. And the people to sit with folded hands until he or some other politician evolves a scheme of relief, equally as experimental, and then adopt it without a word of protest, or a word of objection. The Democratic party because we happen to disagree with the editor of this paper, Mr. Tillman and others, and presume to think and speak for ourselves? We think not. We have always accepted the decision of the white people as expressed in the Democratic primaries and conventions as final, and we expect to do so as long as the present condition of things last, because we believe that the politicians who rule it, to rule it, and they propose to rule it through the Democratic party organization.

G. F. TOLLY & SON'S.

Now, if you want BARGAINS—BIG BARGAINS—in Furniture, and everything that is kept in a FIRST CLASS Furniture Store, come to the Old Reliable Furniture Store of G. F. Tolly & Son, that has been in existence for over a quarter of a century, and has successfully competed against all competition, having beaten two of the largest Western Manufacturers in furnishing the new Hotel Chiquiqui; having, during the last month, sold and delivered Furniture to Atlanta, Ga., Macon, Ga., Greenville, S. C., and sold at wholesale to a large number of Furniture dealers along the line of both Railroads.
The question may be asked, how can you do all this? The answer is plain: Experience! and buying in larger quantities than any Furniture Store in the State, and having selected the largest and best factories to be found, and having exclusive sale of their goods. We can offer better Bargains than any one else. All we ask is to come and see our Stock, full of the best kind of Goods, (no shoddy goods sold.)
We have fine Bureaus, full Barl fronts, large fine glass standards, large boxes and brackets, for Five Dollars. The very best against Maple Beds, with bracket, maple rails and steel hooks, (no pine or poplar in any part of them,) for Two Dollars, and EVERYTHING ELSE in proportion.
We invite everybody to come and see our fine line of goods, whether they buy or not. We would like to show them through, as we have some of the FINEST Parlor, Dining Room and Room Suites in the State of South Carolina. So come one, come all. Come everybody, to G. F. Tolly & Son's Furniture Store, and see the IMMENSE STOCK and be convinced.
Caskets and Coffins furnished Day or Night.
