**THE NEW SOUTH.**  
 The Wonderful Progress and Development of the Southern States.

BALTIMORE, April 16.—The *Manufacturers Record* this week publishes an article from the pen of Robert P. Porter, Superintendent of the Census, on the material development and progress in the Southern States during the past decade, as shown by the facts and figures gathered by the Census Bureau. As epitomized, they show wonderful growth and progress in mineral and agricultural development, and justify Porter's prediction of even greater and unprecedented prosperity in the New South.

While the time, he says, has not yet arrived to give a complete inventory of the wonderful progress of the South during the last decade, official figures of the branches of inquiry already completed indicate that the final returns will show that in no part of the United States has industrial progress been more rapid. One thing is certain, namely: that the mineral development and increase in manufactures during this period has been of such magnitude and of such rapidity as to seriously attract the attention of the world. The South is today producing as much coal, iron ore and pig iron as the entire United States produced in 1870, and the progress of the Southern States in the manufacture of steel Mr. Porter thinks will be as great during the next ten years as has been in the production of coal and pig iron during the past decade. And the class of labor attracted to the rich mineral regions will be of a higher character than of the past; that is, there will be artisans and mechanics, who will command a much higher rate of wages, and hence increasing the consuming power of the South.

The trouble, he says, with this part of the country, is that most of its products have to be shipped North or to foreign countries for further sale. An industrial condition that will require a greater variety of articles of consumption, and you will bring to that region a still greater development of manufactures. The remarkable development of the New South, as he calls it, is shown in a striking degree by the astonishing growth of individual cities in this section during the past ten years. In support of this, he cites the phenomenal growth in some cases of the phenomenal growth of a number of cities and towns during the decade in Ala., Ark., N. C., Va., Tenn., Ky., and Ga. Aniston, Ala., for example, had a population of 942, is returned by the census of 1890 as containing 9,876 inhabitants. Birmingham, known when the census of 1870 was taken, and which in 1880 had a population of 10,000, in 1890 had a flourishing city of 35,178 inhabitants, and in fact a center of industrial activity of 75,000 people; Florence, Ala., with a population in 1880 of 5,824, and in 1890 of 16,159; Chattanooga in 1880 had a population of 29,100, or an increase during the decade of more than 120 per cent. Roanoke, Va., which did not appear in the census of 1880, is now a city of 16,159 inhabitants. These he points to as some of the striking illustrations of material progress, which a hundred similar examples could be given of small towns that had thus developed in the South, and the greater part of their growth has been due to the development of their mineral resources.

Facts already published by the census office, he says, exhibit a mineral development in the South, which, if continued through another decade, will bring about remarkable changes in a number of Southern States. In 1890, the best estimate that can be obtained shows that the Southern States produced less than 2,000,000 tons of coal, and in 1870 about 1,000,000 tons. In the year 1890, as shown by official data, this production had increased to 5,676,160 tons. According to the eleventh census return, the production in 1890 was 17,772,945. This gives an output in the coal producing States of the South in 1890 of more than twice the entire output of the United States in 1870. In the production of pig iron, the entire production South in 1890 was 337,301 tons, which in 1880 was 139,853 tons, and in 1870, 2,917,529 tons. In fact, the production of iron in these Southern States now almost equals the total production of the United States in 1870.

Not has this development, Superintendent Porter says, been shown by the South in the production of pig iron. The entire production South in 1890 was 337,301 tons, which in 1880 was 139,853 tons, and in 1870, 2,917,529 tons. In fact, the production of iron in these Southern States now almost equals the total production of the United States in 1870.

Far greater progress, Superintendent Porter says, has been shown by the South in the production of pig iron. The entire production South in 1890 was 337,301 tons, which in 1880 was 139,853 tons, and in 1870, 2,917,529 tons. In fact, the production of iron in these Southern States now almost equals the total production of the United States in 1870.

Not has this development, Superintendent Porter says, been shown by the South in the production of pig iron. The entire production South in 1890 was 337,301 tons, which in 1880 was 139,853 tons, and in 1870, 2,917,529 tons. In fact, the production of iron in these Southern States now almost equals the total production of the United States in 1870.

**CHIMES AND CASUALTIES.**  
 PARKERSVILLE, April 17.—The Hon. J. P. Blackwell fell from his horse this morning of apoplexy. He went out to look after his lands as usual as usual. An inquest rendered a verdict as above stated. Mr. Blackwell served Edgewood in the Legislature from 1864 to 1868. He was about 48 years of age.

PALMETTO, GA., April 17.—During a thunderstorm this afternoon, lightning struck the gibson of Mr. C. B. R. Holman, about two miles from here, who was severely injured. He was kept out of the rain, and killed a negro named Lewis Ayres, and severely shocked Mr. Holliman himself, and some others lightly. Mr. Holliman is improving, and will be all right in a day or two.

NASHVILLE, TENN., April 18.—A Hopkinsville, Ky., special says that in Union county two brothers named Haynes, aged 14 and 16 respectively, became involved in an altercation over the opening of a gate, when one brother so badly cut the other that he died soon afterwards of his injuries. The one that did the cutting is almost crazy with remorse and grief, and has to be watched lest he kill himself.

LIBERIA, KANSAS, April 17.—Reports were brought in this evening that the court house in Hansford, Texas, in course of construction and nearly completed, was destroyed by a cyclone Wednesday afternoon. Two men were killed. Every house was more or less damaged. From there the cyclone traveled in a North-easterly direction to Polkville, a little town on Beaver River, in Beaver County, Oklahoma, which place is reported as entirely destroyed.

CLEVELAND, O., April 18.—A frightful wreck occurred on the Lake Shore Railroad at Kipton station, about forty miles west of Cleveland, early this morning, in which six postal clerks, and two engineers were killed. The fast mail, No. 14, bound east, collided with No. 21, Toledo express, just as the latter train was about to pull out to a siding to let the fast mail pass. The fast mail was running at full speed and the force of the collision was so great that both engines, three mail cars and a baggage car were completely wrecked.

GREENSBORO, S. C., April 16.—James Holliday, a white man, instantly killed John Crews, colored, four miles from Central, in Pickens County, yesterday. The remarkable development of the New South, as he calls it, is shown in a striking degree by the astonishing growth of individual cities in this section during the past ten years. In support of this, he cites the phenomenal growth in some cases of the phenomenal growth of a number of cities and towns during the decade in Ala., Ark., N. C., Va., Tenn., Ky., and Ga. Aniston, Ala., for example, had a population of 942, is returned by the census of 1890 as containing 9,876 inhabitants. Birmingham, known when the census of 1870 was taken, and which in 1880 had a population of 10,000, in 1890 had a flourishing city of 35,178 inhabitants, and in fact a center of industrial activity of 75,000 people; Florence, Ala., with a population in 1880 of 5,824, and in 1890 of 16,159; Chattanooga in 1880 had a population of 29,100, or an increase during the decade of more than 120 per cent. Roanoke, Va., which did not appear in the census of 1880, is now a city of 16,159 inhabitants. These he points to as some of the striking illustrations of material progress, which a hundred similar examples could be given of small towns that had thus developed in the South, and the greater part of their growth has been due to the development of their mineral resources.

**A Plot to Steal Children.**  
 CHICAGO, ILL., April 20.—Special Correspondent of the *Chicago Tribune* says: The mysterious surrounding probably the most sensational case of child stealing since the Charles Ross affair, has just been solved by the arrest of Miss Batcher and Miss Talbot, on the charge of stealing the children of the Niles family at the instigation of their father, Doctor Niles. The story of the stealing of the children is as follows: Doctor Niles, a prominent physician, and Mrs. Niles have been fighting in the courts for the custody of the children some time. Three weeks ago, on the eve of the departure of the children were stolen and could not be found.

Miss Ellen Talbot, a dressmaker, has confessed that she hired a horse and buggy and stole the children at 9 o'clock on the morning of the 17th. She drove her drive had placed them for safe keeping, and she drove them twenty miles to a lonely country place, belonging to Mr. and Mrs. Corder. Here they were kept in secret, and allowed to see no one. Miss Talbot further confessed that about a week afterward she again went into the country and visited the house where the children were confined. They were taken into a room, and she was allowed to see them. She and Louis, aged respectively 14 months and 4 years, were shown of their curls. Some powerful hair dye was then applied, and the children were made to appear as if they were the children of the Corder family. The children were then taken to Pittsburg, Pa., where they were kept in a boarding house kept with whom the children were left for safe keeping. The sheriff has received a telegram from Michigan saying that the children will soon be returned.

**Outside Views of our Politics.**  
 WASHINGTON, D. C., April 17.—South Carolina democrats, reading in Washington, do not credit the statement sent out from Columbia last night, to the effect that many of the leading white men of the State are preparing to desert the democratic party and join forces with the republicans. A prominent South Carolinian, who is familiar with the politics of the Palmetto State, said to-day that he was aware of a like rumor, but that he felt of disgust at the ascendancy of the Tillman faction, but he does not believe the white people of that State can be induced to cut away from all their past associations and join forces with the party led by Ex-Congressman Smalls, Miller, and other equally offensive republicans. The defeat of General Wade Hampton was a bitter dose of political medicine, and it is not likely that the South will take, and the latter's friends can never forgive Tillman and his followers for depriving General Hampton of his seat in the United States Senate. Governor Tillman's administration was not so much as his election, and there is a growing impulsion throughout the State that he will be himself out with one term in the State chair.

Another equally prominent South Carolinian agrees with what is stated above, and insists that the democratic party in South Carolina is the only manly party, and that nothing the present State administration can do will drive the white men into political affiliation with the blacks. There was considerable indignation in the Legislature to the fact that the Tillman faction captured the political machinery of the State and defeated General Hampton for the senate. It was thought that the people of the State could not be induced to go against Hampton after his devotion to them when they were most in need of a leader, hence his friends did not begin to make a fight in his behalf until it was too late. Fast friends of the Tillman faction, who were in the manly faction, so Hampton was sacrificed to satisfy the Ben Tillman Alliance demands. This state of affairs probably has given rise to the report that a white man's party would be organized to carry up the democrats who oppose Tillman.

It is said upon the same authority that a movement is on foot to defeat Senator Butler when he comes up for re-election. It is alleged that Tillman has the promise of the Farmer's Alliance that he shall receive the next South Carolina Senatorship. Senator Butler's friends say he will not remain idle and allow the Tillmanites to appropriate the office of the State. He will go into the fight and contest every inch of ground with the present governor and those who are behind him. Senator Butler would be a politician, but he is not a politician. He is a man of principle, and he will not be bought by the Tillman faction. He will go into the fight and contest every inch of ground with the present governor and those who are behind him. Senator Butler would be a politician, but he is not a politician. He is a man of principle, and he will not be bought by the Tillman faction. He will go into the fight and contest every inch of ground with the present governor and those who are behind him.

**FOR RENT.**

 — THAT —  
**C. S. MINOR & CO.**  
 ARE STILL LEADING THE TRADE IN ANDERSON!  
 YES, they have the "git up and get" about them, and the where-with-all to name prices which no other firm in a radius of a hundred miles will dare to do. Don't neglect an opportunity of seeing our Magnificent Stock, which is overflowing with the LATEST NOVELTIES in every Department.  
 We would call your attention especially to our immense line of Flower Jars, Swinging Baskets, and Logs and Window Pots. We have the most splendid assortment of these goods that were ever offered to the Anderson public.  
 Our line of Glassware is, as usual, complete in every detail. The Ladies are invited, especially to look at our line of Hats, Plumes, Wreaths, Laces, Ribbons, Buchings, Gloves, Corsets, Hose, &c. Anticipating your needs, this cold weather reminds us of the fact that we have on hand a few more of those Jersey Jackets, and they are cheaper than ever.  
 You should not fail to see our line of Crochery and Yellow Ware before making your purchases elsewhere.  
 We have on hand a large quantity of the wash woman's friend—the old reliable South Laundry Soap. We have also a splendid assortment of Toilet Soap.  
 Please remember that Jay Gould's credit is not good with us, so send along the dimes with your orders.  
 The beaming countenance of Mr. T. W. McCarley can be seen behind our counters again, where he will be pleased to serve his friends and the public generally.  
 In consideration of 10c, we are yours,  
**C. S. MINOR & CO.**

All indications point to Southern Alliance ignoring the call of President McGrath, of the Kansas Alliance, for a third party convention. President Livingston, of the Georgia Alliance, says formal demands will be made on both of the old parties. If ignored, there is a possibility of a third party being formed.

The National Republican League of the State met in Columbia last week for the purpose of organizing and electing delegates to the National Convention, which is now in session in Cincinnati. There were one hundred delegates present, among whom were W. W. Russell, Anderson's Postmaster, and J. S. Russell, both of whom were elected delegates to Cincinnati. The former has gone to the National Convention.

The annual meeting of the Grand Lodge of Knights of Honor was held in Columbia last week, and the session throughout was a most interesting one. The reports of the grand officers show the order to be in a very flourishing condition, having 3,200 members in this State up to the first of January, and being an increase of about 500 for the last year. The membership of the order in the United States is stated in round numbers to be 135,000. The order paid in this State \$100,000 in death benefits last year, and 400 deaths. Grand Dictator F. McCully, of Anderson, was elected Representative to the next session of the Supreme Lodge.

The last number of the *Manufacturers Record* contains a long and elaborate review by Robert P. Porter, superintendent of the census, of the industrial and agricultural progress of the South during the last ten years, based on the official statistics of the census. Mr. Porter, at the beginning of his article, referring to the wonderful progress of the South during the last decade, says: "The mineral development, and increase of manufactures during the period has been of such importance as to seriously attract the attention of the world. The South is today producing as much coal, iron ore, and pig iron as the entire United States produced in 1870."

Hon. W. L. Wilson, of West Virginia, left Washington a few days ago on a tour of the West for the purpose of organizing Democratic clubs. His trip will extend to Tacoma, Wash., and will occupy several months. According to the official announcement he goes as the representative of the National Association of Democratic Clubs, which has perfected a plan of organization in the United States. Besides the Vice-President elected for this State, there will be a correspondent and organizer appointed for each County, and the whole will be directed from Washington, with the advice and cooperation of the several State, National and Congressional committees.

President Harrison and his party left Washington more than a week ago on an extended trip through the South, West and Northwest, and at every stopping place along the route the people have given them a grand ovation. Especially has this been the case in the South. We have been disgusted with reading the accounts of the homage paid the President by our people, and we cannot find proper words to express our contempt for their actions. As the official head of our great government, he deserves to be recognized as such, but this could have been done in a conservative way. His position on the force bill and other measures that were before the last Congress, aimed directly against the interests of our people, should not be forgotten. To-day he would not do anything that would tend to unite the interests of the North and South, if it would not benefit his party, and he deserves to feel the indignation of every honest man of the South. It seems to us that such demonstrations as has been given Mr. Harrison only tend to strengthen the renegades in the South who have forsaken everything that is honorable for the sake of a little official pomp. The North and every other section know that the orations paid the President by our people is nothing less than hypocrisy and flattery, and we should not indulge in such foolishness.

The *Memphis Commercial* says: "W. J. Talbert, State lecturer of the Alliance of South Carolina, declares, as a special in another page tells, that he is opposed to Cleveland, and that he and the Alliance will oppose any man for President who does not support their platform. He also says that South Carolina will not be a Democratic column in 1892 if a third party party is organized. Well, Mr. Talbert may know what he is talking about, but we don't believe it." Mr. Talbert seems to be falling in line with Mr. Keitt's advice, but he is neither a prophet nor a son of a prophet. South Carolina is a Democratic State, and any man who is nominated by the National Democratic party, will carry the State by an overwhelming majority. There are men in every County, no doubt, who would rejoice to see the Democratic ranks broken, but when they step outside of the ranks they will find that they are in a very small minority. The mass of our people who are in the Alliance have joined it to be benefited in an agricultural sense, and their motives are right, but when the leaders of that organization attempt to force them to give up the white man's party of the South, we believe the great masses of the Alliance will emphatically repudiate the leadership and the principles of the men who attempt it. The hardy sons of toil in Anderson County, we know, will never forsake the Democracy. Our people know what will be the consequences if there is a division in the white man's party. They may follow Mr. Talbert, Mr. Keitt and the other leaders, a good distance, but

Fast friends of the Tillman faction, who were in the manly faction, so Hampton was sacrificed to satisfy the Ben Tillman Alliance demands. This state of affairs probably has given rise to the report that a white man's party would be organized to carry up the democrats who oppose Tillman.

It is said upon the same authority that a movement is on foot to defeat Senator Butler when he comes up for re-election. It is alleged that Tillman has the promise of the Farmer's Alliance that he shall receive the next South Carolina Senatorship. Senator Butler's friends say he will not remain idle and allow the Tillmanites to appropriate the office of the State. He will go into the fight and contest every inch of ground with the present governor and those who are behind him. Senator Butler would be a politician, but he is not a politician. He is a man of principle, and he will not be bought by the Tillman faction. He will go into the fight and contest every inch of ground with the present governor and those who are behind him. Senator Butler would be a politician, but he is not a politician. He is a man of principle, and he will not be bought by the Tillman faction. He will go into the fight and contest every inch of ground with the present governor and those who are behind him.

**LOST, STRAYED, OR STOLEN!**

A SMALL BOY, with his Dad's Shoes on; had an M. T. bag on his back, containing two railroad tunnels and a bundle of bung holes. He wore a mutton chop coat, with bean soup linings. He was cross-eyed at the back of his neck, and his hair was cut curly. He was born before his elder brother, his mother being present on the occasion. When last seen he was shoeing the March wind off the Court House to raise money enough to buy him and his sister a pair of Nice Shoes at—

**CHIMES AND CASUALTIES.**  
 PARKERSVILLE, April 17.—The Hon. J. P. Blackwell fell from his horse this morning of apoplexy. He went out to look after his lands as usual as usual. An inquest rendered a verdict as above stated. Mr. Blackwell served Edgewood in the Legislature from 1864 to 1868. He was about 48 years of age.

PALMETTO, GA., April 17.—During a thunderstorm this afternoon, lightning struck the gibson of Mr. C. B. R. Holman, about two miles from here, who was severely injured. He was kept out of the rain, and killed a negro named Lewis Ayres, and severely shocked Mr. Holliman himself, and some others lightly. Mr. Holliman is improving, and will be all right in a day or two.

NASHVILLE, TENN., April 18.—A Hopkinsville, Ky., special says that in Union county two brothers named Haynes, aged 14 and 16 respectively, became involved in an altercation over the opening of a gate, when one brother so badly cut the other that he died soon afterwards of his injuries. The one that did the cutting is almost crazy with remorse and grief, and has to be watched lest he kill himself.

LIBERIA, KANSAS, April 17.—Reports were brought in this evening that the court house in Hansford, Texas, in course of construction and nearly completed, was destroyed by a cyclone Wednesday afternoon. Two men were killed. Every house was more or less damaged. From there the cyclone traveled in a North-easterly direction to Polkville, a little town on Beaver River, in Beaver County, Oklahoma, which place is reported as entirely destroyed.

CLEVELAND, O., April 18.—A frightful wreck occurred on the Lake Shore Railroad at Kipton station, about forty miles west of Cleveland, early this morning, in which six postal clerks, and two engineers were killed. The fast mail, No. 14, bound east, collided with No. 21, Toledo express, just as the latter train was about to pull out to a siding to let the fast mail pass. The fast mail was running at full speed and the force of the collision was so great that both engines, three mail cars and a baggage car were completely wrecked.

GREENSBORO, S. C., April 16.—James Holliday, a white man, instantly killed John Crews, colored, four miles from Central, in Pickens County, yesterday. The remarkable development of the New South, as he calls it, is shown in a striking degree by the astonishing growth of individual cities in this section during the past ten years. In support of this, he cites the phenomenal growth in some cases of the phenomenal growth of a number of cities and towns during the decade in Ala., Ark., N. C., Va., Tenn., Ky., and Ga. Aniston, Ala., for example, had a population of 942, is returned by the census of 1890 as containing 9,876 inhabitants. Birmingham, known when the census of 1870 was taken, and which in 1880 had a population of 10,000, in 1890 had a flourishing city of 35,178 inhabitants, and in fact a center of industrial activity of 75,000 people; Florence, Ala., with a population in 1880 of 5,824, and in 1890 of 16,159; Chattanooga in 1880 had a population of 29,100, or an increase during the decade of more than 120 per cent. Roanoke, Va., which did not appear in the census of 1880, is now a city of 16,159 inhabitants. These he points to as some of the striking illustrations of material progress, which a hundred similar examples could be given of small towns that had thus developed in the South, and the greater part of their growth has been due to the development of their mineral resources.

**A Plot to Steal Children.**  
 CHICAGO, ILL., April 20.—Special Correspondent of the *Chicago Tribune* says: The mysterious surrounding probably the most sensational case of child stealing since the Charles Ross affair, has just been solved by the arrest of Miss Batcher and Miss Talbot, on the charge of stealing the children of the Niles family at the instigation of their father, Doctor Niles. The story of the stealing of the children is as follows: Doctor Niles, a prominent physician, and Mrs. Niles have been fighting in the courts for the custody of the children some time. Three weeks ago, on the eve of the departure of the children were stolen and could not be found.

Miss Ellen Talbot, a dressmaker, has confessed that she hired a horse and buggy and stole the children at 9 o'clock on the morning of the 17th. She drove her drive had placed them for safe keeping, and she drove them twenty miles to a lonely country place, belonging to Mr. and Mrs. Corder. Here they were kept in secret, and allowed to see no one. Miss Talbot further confessed that about a week afterward she again went into the country and visited the house where the children were confined. They were taken into a room, and she was allowed to see them. She and Louis, aged respectively 14 months and 4 years, were shown of their curls. Some powerful hair dye was then applied, and the children were made to appear as if they were the children of the Corder
