A few days ago we received through the mail a very neat pasteboard box, carefully tied up, and our heart leaped with joy as the thought passed through our mind that some fair friend had been so thoughtful as to send us a beautiful bouquet of flowers or a box of fruit. We hastened to our sanctum and hardly had sufficient patience to out the strings so as to get at the content of the box. It took but a second to open it, and lo l to our surprise, out jumped a real, live Texas horned frog. The reader can imagine our feelings. While we were a little disappointed, we consoled ourselves with the thought that we had added a gen-ping conjective to our museum, and as our nine curiosity to our museum, and as our friends would call and express a desire to

see it, we soon felt proud of our pet. Yes, a Texas horned frog is a curiosity in South Carolina, and we have turned it over to our Devil, who will attempt to acclimate it. We return thanks to our kind donor, (whose name is unknown to us,) for the gift of this pet.

A good one is told upon a certain bar-keeper in Anderson. A few days ago, it is related, a tired-looking stranger dived into a saloon and, walking up to the bar, fumbled with his thumb and finger in his vest pocket. The barkeeper asked, "What'll ye take?" He replied, "water; I've lost my money." It was handed out and stowed away by the stranger while he lovingly looked on the red liquor just out of his reach. Dropping his hand on his breast, with a look of pain, and almost doubling himself up, he said: "I was too warm; that water m going to hurt. Do states that she has been fearfully sea-sick. Do you know that water is more destructive to human life than whiskey—has killed two to one?" The tender-hearted bar tender had placed a bottle and glass out to the sufferer as he gasped, "No! Tell me how and when." The second glass of polson had trickled down the stranger's throat and he winked at the bar man, say-ing: "I beard it was when the flood came
