The Teachers' Association. In response to the call issued two weeks ago the Anderson County Teachers' Association met in the Court House last Saturday, the 19th inst. It was opened with prayer by School Commissioner Lawson.

The most interesting feature of the occasion was a reading lesson by Miss Lenora C. Hubbard, Principal of the Home School. She had presented one of her second readers classes, composed of small boys and girls who have not been in school a year. Everybody was delighted with Miss Hubbard's reading, and many good suggestions were carried away.

Several questions of interest and importance were discussed, and the following resolution was unanimously adopted: "Resolved, That the feasibility of having a school celebration in this city during the early summer, in which all the white children of this County will take part, was discussed and will very probably be undertaken. It will be a grand sight to see the teachers of the County with 5,000 school children in a procession."

It was also thought advisable if an Institute is held this year that it should be held in June, as that will be the time at which most teachers can attend.

The meeting was largely attended, and in every respect was very pleasant and harmonious.

The following preamble and resolution were unanimously adopted by the association: "Whereas, Mr. C. Wardlaw, our faithful, untiring and efficient School Commissioner, has labored in every laudable manner to increase the efficiency of the free common schools, and to raise them to a higher plane; and whereas, with this end in view, he has performed much invaluable work outside of the routine duties of his office as School Commissioner in securing from manufacturers and publishers desks, chairs, etc., at greatly reduced rates, and that without any special commission on his part; and whereas, at the same time he has rendered the teachers most valuable services in preparing for them a much simpler, shorter and incomparably better form of monthly school reports, than that prepared by the State Superintendent of Education; therefore, be it Resolved, That the thanks of the teachers of this County are specially due, and are hereby tendered to our worthy School Commissioner for the invaluable work he has done, both for us as teachers, and for the schools of the County."

A resolution was unanimously adopted endorsing the action of the County Board of Examiners in not having a Teachers' Institute last year, and expressing the confidence of the Association in County Board of Examiners in making proper provision for an Institute when one shall be needed.

The meeting was closed with prayer by Rev. J. P. Smith. The next meeting will be held in May, and promises to be the most interesting one ever held.

when they got there they give it to the man that had never been a sniping, stationed him in the bottom of an old drain ditch and told him to hold the sack open and be sure not to make any fuss, that they were going up the ditch to scare the snipes down into the sack. But instead of going up the ditch they turned around and came back home. The man stood there in the mud and water for over an hour before he found out what was the matter. The boys had gone and left him in a place that he had never been into before, and it was as dark as a stack of black cats. Before he got home the burden of his song was "I'll snipe no more."
