GROVER CLEVELAND-THE PLAT-FORM.

The National Convention of more than 900 Democrats did splendid work at Chi-

ago last week. The first ballot showed that Grover Cleveland would get the necessary votes, which was two-thirds of the Convention, to make him the nominee of the party, and thereupon he was unanimously made the choice of the Democracy by an acclamation vote. That was done at about 3 o'clock on last Thursday morning amidst the most tremendous cheering and ap-

Thrice has this distinguished Democrat had this high honor thrust upon him. No man since the days of George Washton has been so honored. No man has more deserved the honor. In 1884, when he was first selected as the Democratic leader he made a successful fight, and gave the country the first Democratic administration it had had since Buchanan gave place to Lincoln. In 1888 he was defeated, not because his administration had been a failure, not because his platform was a failure, but because of treachery in the State of New York. Again he is the Captain of the Democratic hosts, and as has not win, then Hill could not, nor could Boies, nor Palmer, nor Campbell nor any

other Democrat. The ticket was completed on Thursday evening by the selection of Gen. Adlai E. Stevenson, of Illinois, for the Vice-Presidency. Stevenson was First-Assistant-Postmaster-General during Cleveland's administration, and is a strong man. His policy is to reward his party with the offices, and he practiced it while in office. His father was a North Carolinian, and therefore Gen. Stevenson feels a special interest in the South

*Cleveland and Stevenson can be elected if every Democrat will do his duty, and every Democrat worthy the name will do his duty.

The platform issued by this great Convention of Democrats is an admirable enunciation of Democratic principles, and is broad enough for Democrats of every shade of belief to stand upon. The perpet uation of this grand Republic and the happiness and prosperity of the American people depend upon the ultimate succe of the principles of Democracy.

In point of importance the tariff reform plank comes to the front. Its treatment is ringing and unmistakable. The Mc-Kinley law is heartly condemned and the evils arising from it exposed, and their correction is promised. Republican rotection is denounced as a fraud on the labor of the masses for the benefit of the few, and it is declared that the tariff taxes should be limited to the necessities of the government when honestly and econom

government when honestly and economically administered.

The next in importance, perhaps, is the declaration for the coinage of both gold and silver without discrimination against either motel for an honest dellar and the either metal, for an honest dollar, and the denunciation of the republican legislation of 1890 known as the Sherman Act. The party is alright on the money question. It is recommended that the prohibitory 10 per cent. tax on State bank issues be

The Force Bill is denounced, and the party pledged to fight it forever.

The principle of reciprocity is commended; laws for the suppression of trusts and combinations are demanded; public lands illegally granted by the Republican party to railroads will be re-claimed; the reform of the civil service is commended; Russian treatment of the demned; a protest is made against the United States being made a dumping ground for foreign criminals; a fair pension appropriation is recommended, but the present administration of that office is denounced as corrupt and dishonest; popular education is urged, and the States recommended to make liberal appropria-

NOW IS THE TIME FOR WORK. The Rallying Cry of the Conservative

COLUMBIA, S. C., June 23.—The Executive Committee of the Conservative Democracy held a well-attended meeting here to-day. The principal business was the adoption of a clear-cut address to the Democracy of the State. There can be no mistaking the position of the Conserva-tives. The address is as follows:

COLUMBIA, S. C., June 23, 1892. Fellow-Democrats of South Carolina:
The wires have just announced the nomination of Grover Cleveland for the Presidency of the United States by the National Democratic Convention at Chicago.
The Conservative Democracy of the State accepts this announcement with joy, and will work for the success of the ticket against secret foes within the party, as well as outspoken opponents. We felt that the Democracy of South Carolina, the rank and file of the party, had been placed in a false position by the recent Convention in Columbla, dominated by Benjamin R. Tillman and his satellites, when it denounced Grover Cleveland as unworthy of Democratic confidence; but the grand council of the Democracy of the Union has given back the answer to the slanderous charge by endorsing Grover Cleveland for the highest office in the gift of his countrymen. Let us then inscribe upon our banners: Cleveland and Stevenson, Sheppard and Orr; Democracy and valuations.

Our miller is prepared to grind all the wheat that is brought to him, and will give good satisfaction.
A party of young men from Anderson spent the week in camp at this place on a fishing and pleasure trip, but as the rivers were somewhat high, they report poor success.
A certain young man of this section carried his pistol to a blacksmith for repair, and while in the shop it was stolen, but the one who got it left the trigger, and now he wants them to come back with the trigger. We don't wish anybody any harm, but we would be glad if all the pistols in the land were in just the same condition.

The campaign has opened for State offices. The State Democratic Committee has appointed the County meetings, at which candidates for State offices, and none others, are allowed to speak. In August next, at a primary election, you will vote for delegates in your respective Counties, who will attend a State Nominating Convention in September; and the September Convention will nominate the Democratic candidates for Governor, Lieutenant-Governor, and the rest of the State ticket. Finally, in November next, at the general election, you are to support, state ticket. The movement in which we ask ou to join with us is inspired solely by a desire to prevent such a division of the Democracy, which by a chain of events has become the danger of the hour. Four years ago there appeared on the political arena in South Carolina an agita-tor, Benjamin R. Tillman, who started to

sowing dissension and discord among those who were brethren. Adopting as the pretence for his canvass the cause of extending to the farmers additional add tages for higher education in agriculture, he advanced his selfish ambition by organizing a political faction of which he was the head, whose stock in trade was abuse of those whom the people, the Democratic party in the State, by the voice of the party, had placed in positions of trust and responsibility. This was followed up in 1890 by the most disgraceful campaign in the history of our

Upon becoming Governor of the State it might have been expected by some that Mr. Tillman would have exersed his high office in the interest of the whole people and for the good of the State. But, unfortunately, this man, who started with the assertion that he desired no office except to be a trustee of Clemson College, now sets his aim for another position for which his patronage and the power of the Governor's office gives him advantages in

The Agricultural College issue has served its purpose and the same remains unbuilt, and now there must be another issue raised—that of an attack upon the enterprises which have been organized within our borders by capital at home and from abroad. His injudicious treatment of our finances having reduced our re-sources, injured our credit at home and broad and decreased the value of our onds, he must raise funds to carry on the State Government by bleeding the corpo-rations to make up deficiencies in our in-

ome caused by his mismanagement.
The result is that capital from abroad ases in a great measure to seek our orders as it does other States in the South, and the scarcity of money occa-sioned by our poverty and the low price of cotton is therefore without relief from

Such is the situation in South Carolina to-day. It cannot last, however, for the innate good sense and patriotism of the masses of our people can be depended upon to relieve us of the incubus of an unsatisfactory management of our State affairs and to restore South Carolina to he position she has heretofore occupied. since the restoration of Democratic rule, as a prosperous and progressive State, emerging from the disasters of war and nisrule, determined to retrieve the fortunes of all classes of her people.

to abuse the Democratic party, if his in-terviews in the press have quoted him correctly, and he has not denied their ac-curacy in this particular. But he must be dged also by the utterances of his allies politics, who boldly announce doctrines at variance with the time-honored and time-tested Democratic principles; while desert the party if their demands are not cceded to, and we understand that it is a part of the programme of this campaign that pronounced Third Party men are to be permitted to vote at the Democratic primaries to decide who shall be the Democratic standard bearers in the com-

the victory of 1876 by any alliance with the men whom the Third Partyltes are willing to support. Let us stand by the Democratic colors, and give our united support to the ticket which represents a solid Democracy, true to principle and to solid Democracy, true to principle and to party, and in doing so you will be true to yourselves as men and Carolinians.

As to the special State issues we announce our opposition to raising the poll tax to three dollars as advocated by Gov. Tillman in his inaugural address, and call your attention to the large amount now uncollected and the failure of all measures heretofore adopted to collect this tax from delinquents, and the fact that the enforcement of a larger tax would entail untold expenses upon the taxpayers of the State. We are opposed to increasing powers of the Governor, because he is not the master, but the servant of the people and he should not meddle with other branches of he State Government in violation of the Constitution, which prescribes that the legislative, executive and judicial departments of the State Government shall be distinct, and forbids such interference;

election of a Legislature subservient to his will, and for assailing and endeavor-ing to intimidate the judiciary, and we appeal to the manhood of the Democrats to rebuke such arrogance and assumption of power.
We believe that the people of South Carolina are aroused to the situation. Our advices from all parts of the State point to the fact that the August primary will toll the death knell of Tillmanism. All we ask is your united effort for good government as against the horde of office-seekers who are now enlisted with Benj. R. Tillman against the peace and prosperity of the State. By order of the Executive Committee. SAMUEL DIBBLE,

The political pot around Belton seems to be simmering down.

Some of the people of our town are sometimes greatly annoyed by a colored man who occasionally has crazy spells. He was so annoying last Sunday that our marshal had to put him in the guard house and keep him till Monday. Steps should be taken either to send him to the asylum or to take care of him at the County Poor House. He seems to be Bridge over Eighteen Mile Creek, near Gantt's Store, Pendleton Township. > OF theaverage m: turns with the fondest recollections of ch.ldhood's days-those good old days-when our mothers used to make Preserves, Jams, Jellies, &c., and put them up in large earthen Jars, from which it was impossible to keep the boys from eating their fill ever and anon. But that day has passed and gone—those big Jars are no more. They are being replaced by a neat glass article, which can be as-curely sealed, and thereby secure not only the Preserves, Jams, &c., but all manner of fruits and vegetables in their natural state. To those housekeepers who have tried them we would say use more and more, for they are cheaper at our Store this season than ever before. To those who have not tried them we will say go at once and obtain the blessing. Your boys will grow up honest, and your Fruits and Preserves will be preserved, and peace and

prosperity will attend you. Call and get a supply of Mason's Jars, A. N. TODD & CO.

> THE Fruit Season is here, and you should work while it is day, for this eason is not long; but you can have Fruit on your table every meal the year round by going to D. C. Brown & Bro's, and getting a few dozen of the Mason Fruit Jars at prices they guarantee can't be beat. And you can get your SU-GAR there also at 5c, per lb.
