Neva News. We are needing rain very bad now. Crops are injured on account of the drouth, especially corn. The singing at Long Branch closed on the night of August 4th. It was very well attended throughout, and we think the crowd enjoyed the concert Thursday night. The excellence with which the class conducted themselves was due to the teacher, Prof. J. T. Milford. The anthems, solos, etc., were very interesting to the congregation, which was large. Miss Elvie Milford, of Antreville, has returned home after spending two weeks with friends and relatives in this section. We are sorry to have her leave us, as the faces of several young men are sad on acount of her absence.

Mr. Smith is agent for a patent smoothing iron we the metry order at Williamston was in striking contrast with the disgraceful howling at Cedar Grove on the arrival of Maj. Murray at that place. We are reliably informed that he was immediately surrounded by a yelling mob, who abused and insulted him until he was obliged to leave the place without having been allowed to speak a word, and from what we have heard from good authority, there don't seem to have been very much done by the leaders to quell the riot. Such a proceeding is a disgrace to any County, and espesmile—it's a boy.
