A LONG FELT WANT!

A FTER FIVE YEARS of patient and persevering endeavor I have at last succeeded in getting control of the best hand-made copper distilled Whiskey in the world. his Whiskey has been tested by the United States Chemist at Washington, D. C., and selared to be perfectly free from all poisonous chemicals generally present in the distillation of all Whiskeys commonly used in the United States. It is entirely free from he maddening effect, the nauscating of the stomach, and the immediate intoxication hat is always the result of the use of an inferior article. It is pleasant to the palate. that is always the result of the use of an 'nferior article. It is pleasant to the palate, as not that burning effect so common in other goods. It is strengthening, invigorating and mild, giving the bouyancy of youth to old age. It is stimulating to the overworked and feeble; in cases of consumption, heavy colds, week lungs, debility and loss of appetite it is quickly recommended by the leading doctors and hospital physicians a the United States, and ne sick room should be without it. All enfeebled, weak, old and infirm should take it daily as directed, and thereby regain that bouancy and strength hat countless thousands stand so much in need of. This Celebrated Whiskey is sold a cheep as a very common article, and can be found for sale at
