Clothiers and Furnishers, Greenville, S. C. A LONG FELT WANT

A FTER FIVE YHARS of patient and persevering endersor I have at last succeeded in getting control of the best hand made copper distilled Whiskey in the world. This Whiskey has been tested by the United States Chemist at Wanhington, D. C., and declared to be perfectly free from all poisonous chemicals generally present in the distillation of all Whiskeys commonly used in the United States. It is entirely free from the maddening effect, the nauseating of the stomach, and the immediate intoxication the maddening effect, the nauseating of the stomach, and the immediate intoxication that is always the result of the use of an inferior article. It is pleasant to the palate, has not that burning effect so common in other goods. It is strengthening, invigorating and mild, giving the bouyancy of youth to old age. It is stimulating to the overtworked and feeble; in cases of consumption, heavy colds, reak lungs, debility and loss worked and feeble; in cases of consumption, heavy colds, reak lungs, debility and loss worked and feeble; in cases of consumption, heavy colds, reak lungs, debility and loss of appetite it is quickly recommended by the leading doctors and hospital physicians of appetite it is quickly recommended by the leading doctors and hospital physicians in the United States, and no sick room should be without it. All enfeebled, weak, old and infirms should take it dally as directed, and thereby regain that bouncy and scrength that countless thousands stand so much in need of. This Celebrated Whiskey is sold as cheep as a very common article, and can be found for sale at

SOUTH MAIN STREET, ANDERSON, S. C.

Very respectfully, Winter, and shall spare no effort or expense to do so. Very respectfully, JOHH H, CLASS & BROTHER,

Anderson Intelligencer.

Wonderful improvements for the benefit of mankind have been the result of a mere accident followed by investigation which has developed advantages which, but for such accident or circumstance. would never have been known. Many years ago a man was planting a pecan grove on his place. It so happened that where he wanted to locate a tree it came above an abandoned old well, which had been filled with odds and ends. Scraping from a little hillock near by, he filled the hole with soil to the surface and away in another. There was a row the being twice as high in the same length of time. By chance the nut planted prodoced a valuable thin shell va-

much growth above ground, must ac- to pray; and then the young infidel bethrough the hardpan or clay subsoil where. A young tree may be stunted by night long in a cabin that was hallowed its roots meeting obstacles that they by the Word of God and consecrated by would easily overcome if the trees were cards, a rum bottle or a copy of the Age a few years older. Such a good shaking up of the ground with dynamite opens a thousand avenues for the roots that would otherwise be closed. It may enable a tree to get in the first season a foothold and a range of feeding ground that it might not get in five years if left to open the ways by its own unaided force. The access of air to the roots and to the soil is of the utmost importance. The great difference in the quality and quantity of the fruit, as well as in the general health of the tree, is due almost entirely to the access to the roots of air, is affected, producing an effect like which before was largely cut off by the switching off electricity from a key board, puddled surface which was always left. In ordinary way of planting this formed an almost impermeable paste upon the

The soil should hold moisture without holding water. The surplus should run of the little one as they are closing in away. It is probable that the slightest sleep. Almost invariably the eyes are amount of surplus water about the roots directed inward and generally downward, of trees more than is necessary to give the though sometimes upward. True hyptree moisture enough to evaporate through its leaves, and to moisten the soon turns into what we call "natural" ground enough to allow it to feed to the sleep, as is shown by the sleeper awakenbest advantage, is injurious. The com- ing refreshed as from natural sleep. pactness of soil and want of moisture A writer for the Resord, who was forabout the roots of trees, is probably one merly afflicted with chronic insomnia, growing tree will produce finer fruit than | what he terms the hypnotic method and will those of slow growth. With the gives his recipe for the benefit of the many sufferers from the tortures of progreat advantages given by the pulverizing of the ground, it is not unreasonable longed wakefulness. Its worth may be to expect finer fruit, larger yields than easily tested by anyone with strong will can be produced in the ordinary way of power. That many eminent men-Naplanting. men. In New York there was a kind of on the banks of the Antietam and an old rogue's museum—a place where they had | Marylander's cottage was situated just all kinds of skeleton keys, and jimmies, at its foot. The old man was away and and brass knuckles, and dirks, and pis- had left a fourteen-year-old boy to take care of the family. This boy had manwhich they had taken from roughs and aged to climb up into the forks of this tree, and had probably been at work on single New Testament in the whole kit? his scheme several days before the armies Why not? If it were a bad book you came up, for when they got on the ground would expect a man to have a pistol in he had intrenched himself up in the one pocket and a New Testament tucked | forks of the tree with feather beds, pillows and bolsters, apparently four of five planted his pecan nuts. What was the other night and a man broke his wife's deep, all around him. He had prepared astonishment of the owner to find that head with a-Bible? No! it was a bot- for a siege, too, with both ammunition and food. When the union army came within range his old squirrel rifle picked off more subordinate officers in a few hours than the army had lost before in weeks. No amount of counter-firing did any good. He would get his old blunderbuss reloaded, and with close scrutiny you could see its long barrel creep out over his improvised rampart, and as sure as the crack of the rifle came a moan and a dead lieutenant or other officer would follow. The Antietam, at were, prepared the tree for its best should watch until moraing. Presently the point where the battle was fought, is narrow, but it is very deep, and there really seemed no way to dislodge the fearfully destructive enemy, so the union army actually withdrew till the artillery could run up a gun and train it on the spot. And will you believe me, the young sharp-shooter actually killed two of the gunners and wounded a third, and almost produced a panic before he was dislodged. He was literally blown to pieces at last, but not till after he had created consternation in the ranks of the the word of prayer. Would a pack of

The Lord Will Provide.

It was a delightful surprise on opening letter recently to find one thousand dollars enclosed. It is not often that such gifts come, though five times we have met with that delightful surprise. In this particular case it did look as if the Lord was caring for his children.

Our Technical School was roofed in to be sure, but there was neither sash nor flooring nor any interior work. A vast amount had to be done, but close calculation showed that a thousand dollars would do it. So we asked God for at least the half of that sum. He kept us waiting one day-long enough for the etter to be written and mailed -and thon gave us the whole of it.

Would you like to know who gave this sum? We cannot tell you. We can only say it was a ladv.

Pray for this dear friend of the fatheress, that every new year that comes to her may be full of the love of God. So the Technical School building will be finished right away, just as fast as the workmen can do the work. To God be glory.

We have received a splendid Mathushek upright piano for the Harriet Home, the gift of the kind friends who built that cottage. We feel like rejoic-

JOHN O'DONNELL'S PALACE SALOON.

JOHN H. AND E. L. CLARKE MERCHANT TAILORING BUSINESS, NDER the Firm name of JOHN H. CLARKE & BRO., and respectfully ask th

Planting Trees by Dynamite.

top, and when it became too dry and hard, there was but one remedy-to pour on

No such growth has ever been seen in tree culture on the richest and deepest bottom lands, as on the thin looking uplands that have had the bottom of the hole shaken up with dynamite until barrels of water could be run into it without standing a moment.

One who has never seen the effects of the dynamite in tearing up soils has little idea of its simplicity in using it, or the power one little stick of it will exert. Take for instance in excavating in railroad building. Here is a face of earth ten feet high with a dozen men at work at it. Although there is no rock or hardpan, it has lain so many ages in place that the pick brings down but a small portion at each strike, and its marks shine on the face almost the same as if it were rock. Mark now the difference! A churn drill is run down six or eight feet in depth and some ten feet or more from the edge of the face where the men are working. A stick of dynamite and a fuse are inserted, the whole costing twenty-five cents or less. A dull, muffled "boom" follows in a short time the lighting of the fuse. You could with safe stand very near the hole and experience little besides a trembling of the ground around you. At the hole you see a bit of earth rise a few inches and fall back as if it was too much trouble to fly far, but beyond that the ground would merely shiver as if it had g chill. When the workmen again go to work at the face of the bank the difference is marvelous. Dozens of cubic yards of earth that would have required hours to loosen with the pick are now caved down and ready for the shovel in a moment. Now apply much less force

to a place where a tree is to stand and you have a hole eight feet deep with a soil thoroughly pulverized from that depth to surface with a diameter of four to six feet, at a cost of fifteen cents. which could not be dug out for less than one dollar to a dollar and a half. What do you gain? some one may ask. In planting pecans you have prepared a soil

through which the tap-root goes rapidly

owing to little or no resistence and the

first year you have a tree five feet high

while in the ordinary way of planting

your first year's growth would not exceed

twelve inches. By this method you bring

a pecan grove into profitable bearing in

six years, which under the ordinary way

would not be accomplished in ten years.

By this means you get a bearing pecan

tree as soon as a pear tree, with a product worth many times more.—Herbert Post,

But the innocent need have Lie on your right side : close the eyes to seeing and turn your eyes inward and downward, so that you can see your breath as if it were vapor leaving the boy was. "My brother," was the prompt watch it return up the nostrils and then in the car?" was the next question out again. Concentrate your powers of

> There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market, It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the

system. They offer one hundred dollars for any case it fails to cure. Send for

There had been a homicide in a saloon and one man was telling all about it, even to the minutest detail. He had seen it all and knew what he was talking about he said, and notwithstanding everybody ments, nobody cared to call him to account and make him show proof. Naturally such a man would be a good wit-
