Those indebted to the firm of Peoples & Burris are respectfully invited to call on us as soon as possible and settle their Account at the same old stand with us.

JOHN T. BURRIS,

The Harrison Family—Mrs. Cleveland's Return.

WASHINGTON, D. C., November 18.—The Harrison family, who have been in the city for some time, are preparing to return to their home in Maryland.

Mrs. Cleveland, who has been in the city for some time, is preparing to return to her home in Maryland. She has been in the city for some time, and has been very well.

Industries Will Thrive.

New York, Nov. 18.—Gen. W. H. Jackson, a prominent Democratic leader in this State, who presided over the convention that nominated Judge Turley for Governor, arrived in New York last night.

"How do I account for Cleveland's election? I think he won because he gave an honest administration to the people believed in him. I believe that he is the only man who has occupied the Presidency since the foundation of the government who ever had a real concern for and interest in the great masses of the laboring people of America."

Col. William L. Brown, of the New York Daily News, won \$50,000 in his bets on the election.

Col. William L. Brown, of the New York Daily News, won \$50,000 in his bets on the election. He was one of the first men to sustain his opinion after Mr. Cleveland's nomination in Chicago and he has been in the city since then.

PIERCED OF FIGHTING.

Brilliant Story of Chickamauga, the River of Death.

As our advances in the story of the battle of Chickamauga, we must, at every step, become more and more impressed with the magnitude of the Confederate fighting. Since the first assertion that Chickamauga was for both sides the bloodiest battle of the war, in proportion to numbers and the time of the engagement, and that it far outranked in the percentage of killed and wounded any of the battles of modern Europe; there has been an industrious searching of records, both of our own war and of recent foreign campaigns, to test the accuracy of the claims made for Chickamauga.

With Clean Souls and Soles.

FREDERICK, MD., November 3.—The autumn love feast and communion of the Dunkards, or German Baptists, of Frederick County were celebrated in the tabernacle of that denomination to-day. There were over 200 members present. During the service the church was crowded with spectators. After hearing a sermon on the general doctrine, a preparatory service of one hour's duration was held in which all the members were exhorted to carefully and prayerfully examine themselves for participation in the solemnities to follow.

Col. William L. Brown, of the New York Daily News, won \$50,000 in his bets on the election.

All Sorts of Paragraphs.

— There are 4909 Johnsons in Chicago and only 4200 Smiths. — No man is pure in his heart who is not pure in his politics. — The saloons of London if set side by side would reach a distance of 75 miles. — Married couples in Norway are privileged to ride on railroads at a fare and a half. — Do not let your dealer palm off on you any new remedy for colds. Insist on having Dr. Bull's Goshop Syrup. — There are four States, Wisconsin, Nevada, Minnesota and California, in which a majority of the voters are foreign born. — Tommy—Pa, may I ask you a question? Pa—Certainly, my child. Tommy—Well, where is the wind when it doesn't blow? — Trouble and kin and cats are about the only things a man can have that other people don't try to get away from him. — A sensible woman will not fail to keep a bottle of Salvation Oil on hand for cuts and bruises. It is unrivaled. 25c. — The whole world now operates 900,000 miles of telegraph lines, and the charge for messages amounts to nearly \$400,000,000 annually. — The old Bible land is not very large when you measure it out by miles. Palestine is about one-fourth as large as the State of New York. — "He's got out!" exclaimed Noah, gleefully. "The ark's trenched land!" "Wait till I put on my gloves, dear," replied Mrs. Noah. — The Supreme Court of Indiana has decided that he who lies occasionally is not a liar any more than he who takes a dram is a drunkard. — Mr. Aikin: You see things in a different light since you married, do you not? Mr. Nrued: I ought to. There were 15 lamps among our wedding presents. — France has a population of 38,218,908, comprising about 10,000,000 families, and of these 2,000,000 couples have no children, while 2,000,000 have only one child each. — Corns and bunions may be softened and cured by making a salve of lard and soda and applying at night on retiring. If this is persevered in, they will soon disappear. — Banks—I don't mind the grip itself so much—It's the after effects I'm afraid of. Rivers—the after effects is what ails me. I'm still standing off the doctor for \$65. — Teacher: John, in your essay you say that George Washington was not food of fishing. Where is your authority for that assertion? Johnny Cusmo: Why, everybody knows he couldn't tell a lie. — Briggs: Just for a joke, I told Miss Elderly the other day when she laughed it was all I could do not to kiss her. Griggs: What happened? Briggs: The next time I saw her she had hysterics. — One secret of the Chicago packers' great fortunes is that they don't waste anything. The meat, the entrails, everything is made use of to the equal. They can't catch that, so it is wasted. The blood is stamped into buttons. — The best thing to give your enemy is forgiveness; to an opponent, tolerance; to a friend, your heart; to your child, a good example; to your father, deference; to your mother, conduct that will make her proud of you; to yourself, respect; to all men, charity. — Daniel Strana, a Barnville (Pa.) farmer, "raised three pumpkins from a single vine this year, the largest of which measured 6 feet 2 inches in circumference and weighed 190 pounds; the second weighed 93 pounds, and the other 76 pounds." — One of the uses of skimmed milk in the manufacture of an artificial ivory which in every respect, resembles the original. The milk is mixed with borax and subjected to a high pressure. The product is well suited for combs, billiard balls and pipe mouthpieces. — One of the strange things in Paris is a club composed entirely of deaf and dumb men. The servants, too, cannot hear nor speak. The president of the club is an old man who fought in the Indian war in America and whose tongue was cut off by an Indian who once took him captive. — The mother who spends two hours every day trying to make her little girl curl and ten minutes on Sunday trying to teach her who is the first man, will, in the course of a few years, get the little thing's heart so well set in vanity that a better crop will never have a ghost of a chance. — Many people suffer for years from troublesome and repulsive sores, boils, and eruptions, without ever testing the marvelous curative properties of Ayer's Sarsaparilla. The experiment is, certainly, worth trying. Be sure you get Ayer's Sarsaparilla and no other. — "Then you recognize," said a judge, "this handkerchief as the one which was stolen from you?" "Yes, your honor." "And yet it isn't the only handkerchief of the sort in the world. See, this one I have in my pocket is exactly like it." "Very likely, your honor; I had two stolen." — Scrofula is one of the most fatal among the scourges which afflict mankind. Chronic sores, cancerous humors, emaciation, and consumption, are the result of scrofula. Ayer's Sarsaparilla eradicates this poison, and restores to the blood, the elements of life and health. — Chins may be mended so strong that it will never break again in the same place. Make a thick solution of gum arabic and water, and stir in some plaster of Paris until the paste is very thick; apply it with a brush to the edges of the broken china and set them carefully together, tie a string around them and set them away for three days. — The Postmaster General has signed a contract for the new issue of what is known as the Columbian series of postage stamps. The stamps will be of the same height as the present issue, but it will be twice the width, and the illustrations will include various scenes connected with Columbus's voyage and discovery. The new stamps will be ready about January 1.

Why Popcorn Pops.

Why does popcorn pop? Ask the first twenty learned men you can find and not one of them will be able to tell you. The secret lies in the structure of the grain, which is very wonderful indeed. In the center of each grain of popcorn is the "germ" of the future plant. It holds the vital element of the seed. What is it like? Well, it is about the size of a large pin-head. Its outer coat is a membrane of woody matter, inside of which is an oily substance containing nitrogen and phosphorus. Embedded in this oily substance is the "nucleus."

The "nucleus" is the true germ—the essential life-principle of the seed. It is chiefly composed of albumen, and is just big enough to be seen with the naked eye. Small as it is it contains a mystery which no man has ever solved or is ever likely to solve—the mighty secret of reproduction. However, there are more things of interest to be noticed in the outer structure of the popcorn grain. Gathered around the germ are granules of starch, arranged in layers and so regularly placed as to resemble a crystalline structure. In fact, like crystals, though they are not such, these granules possess the peculiar property of "polarizing" light. Seen under the microscope they have very beautiful forms. Between each two layers of them is a woody membrane, and covering the whole is the hard external envelope of the corn grain, composed of a woody matter with a large proportion of mineral substances, such as lime, silica, potash and magnesia.

Think what an amazing quantity of nutritious food is thus packed in a little space for the use of the embryo plant, which first absorbs the nitrogen and phosphorus contained in the so-called "germ" envelope, afterward consuming the starch and so getting ready to sprout. A popcorn grain has precisely the same substance as a grain of ordinary corn. It is simply a variety of the same species of plant. Why, then, will not common corn pop? It will do so, as you can find out for yourself by trying, but it does not pop nearly so well, though now and then a grain will pop excellently. The reason is that the starch granules in popcorn are packed more tightly and the woody membranes between the layers are thinner and more easily ruptured. Heat causes the water that is in the starch to expand, the external envelope is burst open and the grain turns itself inside out, becoming fifteen times its original size or more and showing the pretty white starch inside.

This is the reason why popcorn pops. The best popcorn is the light-yellow kind with small pointed grains. There is hardly a farm in the West that does not have its patch of popcorn for home consumption, but nearly all of the popcorn raised for market is produced in New England. A story is told of a Massachusetts farmer who had a barn half filled with popcorn newly harvested and "shucked." The building caught fire, the popcorn popped and an enormous wave of it rolled down hill, covering up the farm houses so that only the chimneys were to be seen, and the families had to be dug out by the neighbors with snow-shovels. At present the business of manufacturing buttered popcorn is conducted on a vast scale in Chicago and elsewhere, millions of packages of it being distributed for sale all over the United States.—Washington Star.

The Wasp.

The following is a small boy's composition on a wasp: "A wasp is a six-legged bird that lives mostly in trees and under the eaves of barns, and you cannot tame him; he is too busy. Never stroke his fur like the wrong way, because it makes him mad, and when a wasp is mad I don't want nothing to do with them. He has what they call a 'stinger,' and when he goes out a stinging, boys must keep away from him. I leaped up again once when he was busy; and I jumped as much as a feet. I hit a wasp's nest with a stone once and the boss wasp chased me clean across the lot so fast that when I got over the fence I lost my pants; then ma spanked me till I wished I had let the old wasp sting me. "Some say wasps make honey, but if their honey is as hot as their stinging, I don't want none. Pa says the stinging isn't so bad at first as the rekolleksions of it for a few days. He ought to know, 'cuz he and my brother Ike got on the roof and poked a big nest from the peak down in the barnyard while pa was milking." — Cincinnati Gazette.

Too Much for the Greyhound.

At a recent dinner of some veterans, there was the usual interchange of reminiscences, but one story told by an appreciative comrade certainly deserves a wider hearing. It was after the great battle of Bull Run, and the scattered soldiers, most of whom had just got their first taste of war, were hurrying over the long bridge and seeking refuge in the Federal capital. Frerberg looked gloomy, but one man was particularly downcast. "Say comrade," exclaimed a member of the same company, "happening to strike him and noticing his general wretchedness, 'what in Heaven's name is the matter with you?' " "Matter with me? Well, I should say there was matter enough!" "Well, what is it?" "You ain't shot are you?" "Shot! No. Worse, worse; I've had a terrible loss." "Well, come, comrade, cheer up and tell me about it." "Well, it was my greyhound."

"Your greyhound?" "Yes, poor dog, he went into battle with us, and he came out all right; but some where on our way back he got lost. He couldn't keep up."

Buckless Arctica Nave.

The best sail in the world for Cuba, Puerto Rico, Ulloa, Salt Rhuon, Forrester, Teiler, Chappard, Haman, Chilblains, Corsas, and all St. Eruptions and positively cure Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hill Bros.

It is stated that about 1,000 women work in the Pittsburgh iron mills, making bolts, nuts, hinges and barbed wire.
