FTER FIVE YEARS of patient and persevering endeavor I have at last succeeded in getting control of the best hand made copper distilled Whiskey in the world. is Whiskey has been tested by the United States Chemist at Washington, D. C., and has not that burning effect so common in other goods. It is spleasant to the palate, has not that burning effect so common in other goods. It is strengthening, invigorating and mild, giving the bouyancy of youth to old age. It is stimulating to the overworked ar d feeble; in cases of consumption, heavy colds, weak lungs, debility and loss of appetite it is quickly recommended by the leading doctors and hospital physicians in the United States, and no sick room should be without it. All enfeebled, weak, old and infirm should take it daily as directed, and thereby regain that bounney and strength that countless thousands stand so much in need of. This Celebrated Whiskey is sold as cheep as a very common article, and can be found for sale at

When I was a little girl my father was once absent for some days on business. One day during that time a mirror fell, its cord having worn out unnoticed, and broke into a dozen pieces. I remember it was an old-fashioned looking glass with a brass frame, and a parting across t above the centre.

A neighbor, who was in at the ment, exclaimed, in horror, "Oh! Mrs. H-, your husband will never come back alive! That is a certain sign of death !"

I shall never forget the look which passed over mother's face; it was like disdain, and she calmly replied, "I do not believe in signs." After the neighbor had gone, mother had a little talk with me, telling me how foolish such a belief was; and in a few days father came back safe and well, .. if nothing had happened. The lesson was invaluable, and I do not know that any one of the many so-called "signs" has weight

cultivated Christian woman, too. We were putting on our wraps to go out together, and I was about to lay her sun umbrella carelessly on the bed. She said, "Don't do that; I have heard it is a bad sign." Theo, as if half asbamed, she added, "I know it's foolish, but I can't help thinking of it."

Well, in a day or two I was going out, and in the same way was about to lay my umbrella on the bed, when the asso ciation of ideas brought my friend's sign to me. I said to myself, "I will not be in the power of such a thing," and deliberately put the umbrella on the bed.

Now, girls, and boys, too, do not you yield to superstitions. I know persons who can have but little peace in life because so many occurrences are bad omens. Never mind if you do hear of distinguished people, or good people, who will not sit at a table of thirteen, or who will not begin work on Friday. Be sure their goodness and their greatness do not lie in weakness of that sort. Be sure that if any calamity follows a "bad sign," it has nothing whatever to do with it, except as a coincidence.

Is there not a lack of reverence, to say the least, in supposing that our Heavenly Father makes His providence to hinge upon any "sign?"
