It is possible that Mr. Cleveland will recommend such ac ing of the September extra session. esides this the other two chief things to be done by the next Congress are a complets revision of the tariff and the repeal of the federal election laws. And the next Congress will not be a year by any reans in doing this work. There will be a change in the rules of the House by which the power to put an end to filibustering will be lodged som where.

In answer to an enquiry from the Auditor of this County the Assistant Attorney General has decided that per sonal property belonging to towns and became irightened at the sight of him and abrank back weeping.

In the meantime a large crowd had collected, which increased all during the day. The Negro persisted in declaring the day. cities is liable for taxation. The letter of the law may warrant the decision, but unbroken precedent from the time to personal property of most municipalities onsists of mules and wagons to work the ets for the benefit of all who may travel them, and of fire engines and apwithin their reach. It requires a tax on the litizens of the incorporations to scure such property and a tax to keep it up and in repairs. We think the spirit of the levying a tax on public property used for the public good. Even "reform" didn't demand it unless " evidence that these be "record breaking"

Almost everything new that we se nowadays is patented, but whoever thought of a patent postage stamp? Such is the case, however, and it remained for a Virginian to work out the bright idea. It is simple enough, in fact, so simple that it is a wonder you had not thought of such a thing long ago, but you didn't, and its very simplicity is its beauty. The ides is merely this: Discontinue the mansmill one-cent stamps, perforated down the middle, with the figure 2 over the perforated line. Then you buy only two-cent stamps, and when you want a one-cent stamps, and when you want a one-cent stamps as a unit are not as large as one of the Columbian stamps now in use.

C., May 10.—Another des-Dr. Hatcher, of Virginia, preached the convention sermon last night to perhaps the largest audience ever assembled in the crime of attempted outrage, was strung up to a hickory tree four miles west of this city by a crowd of from five to seven hundred men at about 5 o'clock

Cotton Seed as a Fertilizer. There are few, if any, better known or more substantial citizen in Laurens County than Farmer James Wham, who lives six miles west of town. Monday afternoon his two little daughters, one eleven years old and the other younger, Why do you have a weekly or monthly statement as to the amount of phosphates were going home from the neighboring school. As usual they left the main road mate of the amount of cotton seed sold off the farms and never returned to them? I school. As usual they left the main road and took a nearer path. It led them through a dense wood. Suddenly they were rudely accosted by a Negro, who used language intimating his foul intentions. The elder little girl, thinking he only wanted something to eat, offered him her lunch bucket. Then the scoundral saized her. She fought desperately of phosphates brought here. I think there were two or three cars brought back Heretefore the farmers have been putting seed to their grain crops. This year they have had to put phosphates in place drei seized her. She fought desperately and both children screamed until the fiend ran away without having accomof seed. So you can draw your own inferplished his purpose. The children told their mother of the attack as soon as they the explanation of the short crop last year; yet I made as much cotton last year d home but their father was absen others around here who did not sell their Early this morning a search for the criminal was instituted. The children seed did the same. It was the lack of seed that caused the short crop. This year you will see a great falling off again in our crops on the same account. See if there is not more than a million bales short this had described their assailant as a young Negro dressed in a shirt and trousers and hattess. A little white boy named Colehatless. A little white boy named Cole-man told that he had seen a Negro of that year even with favorable seasons.

Before the war our fathers had to raise a great deal of provisions and had not the improved methods of farming that we description talking to Henry Bryson, another Negro who was at work in a field not far from the scene of the crime, Bryson was questioned and at first declared that he had had no such converand all the black manures under cotton. What was the result? Every year they cleared a new piece of land and threw out sation. Subsequently the party carried him to his house where his wife advised

a piece that was worn out, so when the war ended our Southland was a waste of old worn out field. Now, Mr. Editor, let us consider a little. I have been making over a bale of cotton woods and after a time Barksdale, or els of seed. Suppose those seed will make "Monk" as he was called, came back to a half a gallon of oil per bushel, (but I

"Monk" as he was called, came back to where he was. Bryson at once inquired "what were you bothering them white children for?" Monk denied that he had seen any children.

Bryson's wife stated that her husband had related this to her the night before.

In the meantime "Monk" was ploughing some distance off, but in sight when Bryson was being examined. Though he had had no warning he suddenly abandoned his plough and went to his house, where he was captured. Bryson then led the party to where the conversation occurred the eyening before, to the point where "Monk" had entered the woods and out to where he had come. time to decay and return to the earth in its assimplated state, and in that way they deceive one, but does not the oil on the rotting or sprouting of the seed become converted back to plant food if it has not been extracted and purified? It does seem to me that this thing should be settled without a doubt, but it will never be done in drug shops. It must be done in a practical way, which will take from three t five years. I could give my ideas if I could write, but I am too poor a hand at the pen to do so. Our cotton now is being pressed down on account of the amount of fertilizers being used, and there is no one to report the amount of the best fertilize in the South that is being carried out. It to take a true interest in the Southern farmer enough to show just what is being done for him in the way of putting him

at a disadvantage. Maysville, S. C., May 8. Polson in the Pond.

This afternoon the crowd collected at a point on the "old Greenville road" between the residences of Captain Albert Dial and Ambrose Martin. They placed Barksdale in a one-horse wagon, bound his arms and legs, covered his eyes, placed a rope around his neck and pulled KINGSTON, S, C., May 12 .- The discov ery that some deadly drug or chemical compound had been thrown into a pond on the premises of William Winne, on the outskirts of the city, killing hundreds of fish and endaugering the lives of a number of citizens living in the vicinthe wagon away. Then they quietly dis-persed, leaving the body hanging. Not a loud noise was heard and not a shot was ity, has caused considerable excitement

Mr. Winnels a prosperous farmer, and upon his land is a large private pond, stocked with many species of fish. Yesterday hundreds of goldfish, bullheads and other fish were found floating on top of the water or lying dead along the banks. A cow pasturing in the lot in which the pond is situated, which drank of the water, became sick, and, it is be lieved, will die.

Recent rains caused the pond to over

remarks to the crowd. He urged them to be temperate and orderly and not to fire into the body. He said that the country was opposed to lead to the sons who have thus need the country was opposed to lead to the country was oppo came sick, Several men working on Boice's stone yard at noon yesterday times made it necessary for the process of the honor of our women.

With the exception of a few who do not approve of lynch law under any circumstances, public sentiment openly and unanimously endorses the lynching.

There was no doubt of Monk Barks lale's the was no doubt of Monk Barks lale's the was no doubt of Monk Barks drank of the water from the spring, and were suddenly taken sick. Members of

A Political Planchatte.

COLUMBIA S C. May 14.—There are a great many people who believe in spirit-rappings and that sort of thing. The little Planchette, which is supposed have direct communication with spiritland, is somewhat out of tashion just now. It was, however, brought out the other evening for the express purpose of having a talk about the political situation.

The first question asked was: "Who are the Reformers going to nominate for Governor next year? The little wheels orth Carolina hesitated some time before they began to bearer of the powers that be. Then it went up and down and up and down until a stop was made. What is it? asked those around, and all agreed that it read Alabama

"Who are the Conservatives going to "Who are the Conservatives going to name?" was the next inquiry. Plan-chette took even a longer time, and then wrote rather clearly: "Long time, big changes, wait." No amount of coaxing would bring forth any other reply, and it seemed evident that the spirits were not inclined to give away the situation for some time to come. Then someone suggested that Pian-

chette might name the nominee for Lieu-tenan; Governor on the Reform ticket. Three different times it tried to give the name, but all that could be made out of the spirit writing was "Wylie" or "man," or something that seemed to have no special significance on the situation. special significance on the situation.
Planchette positively declined to commit

tself on the names of any of the Conservative candidates.
"Who will make the fight?" someone "Between Butler and Tillman, possi-The fact of the matter is Planchette was not accustomed to political discussions; love affairs and trifles were more in its

order, and as it seemed anxious to branch off on its familiar ground the ladies were given the charge of the novel device. ings. While there seems to be a desire on the part of some of the more enthusiastic partisans of the Reform party to renominate Governor Tillman, it is regarde i as altogether improbable by those recognized to be in authority. They explain that the spasmodic call for the anusual renomination of Governor Tilltroub e arises, such as the railroad cases, and prompt action is needed, there are many of the dyed-in-the-wool-rip-roaring-one-idea Tillmanites who believe that his Excellency is the only man ever born to lead the party out of the woods. They realize that the Governor is responand that he is about the only man who knows the combination by which the trouble can be prevented from "injuring the movement." There are a great many of Governor Tillman's friends who would prefer to see him remain here and do not care a snap about his going to the United

That brings up the question of the coming election for the Senate. The pre-vailing opinion here is that unless something very unexpected happens the real and recognized fight of the campaign of 1894 will be between M. C. Butler and B. R. Tillman. All other considerations will be purely incidental and of secondary importance as compared with the contest between the rivals from Edge-

The fact that the element opposed to the existing conditions is not doing any active work is by no means indicative that the Anti-Administration sentiment is not being developed, and it is to-dayionestly believed to be stronger than ever before. It is manifesting itself on all sides, and especially in the Piedmont section of the State. The reports from there are that the dispensary bined with other considerations, has done more to injure "the cause" than anyhing since the "farmers" (?) got in con-

The "Refermers" realizing that they are in the saddle, are already beginning to speculate on the chances of the various cossibilities. So far as the situation is effected in the mirror at the State Capi-, there can be no doubt that Secretary f State J. E. Tindal and State Senator John Gary Evans are in the lead among the stalwart "Reformers." It is suggested that Evans is to be the candidate of extert, as there is an element that says W. T. C. Bates, State Treasurer, and the

party with whom I was speaking prompt-iy roplied: "He's too Conservative." Pretty state of affairs! There was a very general feeling that M. I. Donaldson and George W. Shell will be two prominent figures in the next campaign. There seems to be some difficulty in the minds of the political players where to place them on the board preparatory to the opening of the contest. Some suggest that Donaldson will be run as an Alliance candidate for Governor, and others that Shell will be agreed upon as a compromise candidate and that he will be the only Gubernatorial candidate next year. Such an idea is by no means

Donaldson is going to have a "rough and stumpy road," because he is not truckling after Tillman, That's certain. The light is on and the first test is liable to be made in July at the annual meeting of the Alliance. Whether Mr. Donaldson is to be a candidate for re-clection to the presidency or not is not known, but in case he is a candidate, although the Alliance boasts of the fact that it is not a olitical organization, the indications are the election.

It has even been suggested that Mr. Donaldson has never seemed to realize the significance of his election. Said one Alliance man; "Mr. Donaldson was elected directly against the wishes of Irby & Do., or the machine, and he has seemed to realize that fact." It will be interesting to watch the proceed ings of the next session of the State Far-

mers' Alliance, There does not seem to be any question that Congressman Shell will retire. The understanding now is that Adjutant Far-ley, otherwise known as "Brer Fox," ley, otherwise known as "Brer Fox," and State Senator Stanyarne Wilson will compete for the Reform nomination. Who will oppose them is not yet sug-gested,—Special to News and Courier.

To Open up Direct Trade.

AUGUSTA, GA., May 12.—The Port Royal boom expected as soon as the Port Royal & Augusta railroad could be got-ten cut of the control of the Central road, has begun and it is going to materially benefit Augusta and all this section. several lines of the ships are now fighting hard to secure entry into that mag-nificent harbor on the Atlantic coast and open direct trade between Port Royal mr. J. H. Wellsford, of Liverpool,

England, representing William and Ed-ward Johnson, owners and managers of one of the largest and finest lines of ships in the world arrived in Augusta this morning to negotiate with the controllers of the Port Royal to secure entry into the harbor and open up a line of trade be-tween Port Royal, Liverpool, Havre and Mediteranean ports. Mr. Wellsford was met here by Mr. Pat. Calboun, who will carry the English gentleman down to Port Royal to make an inspection of the port. Mr. Wellsford comes with authority to make arrangements for putting on a line of Johnson ships, When terms are agreed upon, of which there is no doubt, the Messrs, Johnson will put about twenty-five steamers on that line. Other lines are equally anxious to enter into Port Royal and they are all hustling

Robbers Use Dynamite.

night as a north-bound passenger train on the Mobile & Ohio Railroad stopped at Laketon, Ky., to take water, two masked men approached the engine. Covoring the engineer and fireman with revolvers, they compelled them to get off the engine and go with them to the express car, where they commanded the express messenger, S. H. Ray, and H. C. Peterson, his assistant, to open the door of the express car. This the messenger refused to do and began hiding the contents of the safe and valuables. The messengers were informed that if they did not open the car it would be blown open with dynamite. They refused a second time, when the charge of dynamite went off, blowing a hole in the

Average and Acreage.

WASHINGTON, D. C., May 10 .- The cotton report to the department of agri-culture for May relates the progress of cotton planting and the contemplated acreage. The proportion of the proposed breadth already planted on the first of May 85.36, which approaches very closely to the area usually planted at that date, which is estimated at 86 points. McGill, who is suffering with a cancer or

Mississippi. Texas.... Cennessee.

is well up, however, as to time. The only States that are behind in planting are cold, backward spring; Texas, caused by extensive drouth and backward spring; Arkansas and Tennessee, where extensive rain falls and cold weathe retarded operations. In some districts correspondents report drouth while in others returns show the retarding causes o be frost, excessive rains, germinatio having been slow and growth of the plant

Some indications have been given as to the contemplated acreage, as compared with that of last, which was considerably below the average for a series of years; but they are of uncertain character and therefore it is impossible to base any satisfactory prediction as the estimate and figures relating thereto are only given to indicate what correspondents believe as to the acreage reported.

The increase average is 1.8 per cent Percentages by States are as follows:

North Carolina... Alabama...

seed. The estimate of acreage will be nade on the first of June as usual

Arkansas.

WASHINGTON, May 17 .- The Supreme Court of the United States to-day affirmed the constitutionality of the Geary Chi-The opinion was announced by Justice Gray. The announcement that the decision in the case was expected attracted a large attendance of spectators, and the fact that it was the last day of the term accounted for the presence of an unusually large array of attorneys within the bar, including Attorney General Olney, Solicitor General Aldrich, Senators Pugh, Dolph and Cockrell, ex-Justice Strong and several members of the diplomatic

corps were interested spectators.

Justice Gray said in announcing the judgment of the Court that the power of this nation to restrict or prohibit the imor to require such aliens already in the country to remove herefrom was a well settled principle of international law and was confirmed by an unbroken line of decisions in this Court. The legislative power of the Government had not transcended any of its constitutional limitation in the Act under consideration. It was within its power to determine the regulations under which these aliens should be permitted to remain in the United States. For failing to observe regulations they should be required to

leave the country.

The provisions of Section 6 of the Act, which are the part of the law particularly at issue, were not inconsistent with the relations and duties of the legislative and judicial departments of the Government. ction are similar to those in other wellestablished proceedings, such as habeas corpus and naturalization, fixing the requirements of ditizenship and the like in which the judicial branch of the Government accepted the determination of the ground the school at this plant is plant to those in the such as and face be plosion of powder on She is improving, an soon be alright again.

As to the requirements that Chinese entitled to remain in this country shou! one creditable white witness, Judge Gray said that it was within the power of legislative to determine the character a case at law and what force should be given to the testimony so offered. Not discussing the wisdom nor justice of the Act in question, which was beyond the province of the judicial branch of the Government, it remained only to say that the judgment of the Circuit Court for the Southern district of New York in refusing to grant writs of habeas corpus to the several petitioners was affirmed. Justice Gray stated that it had been im-possible in the brief time elapsing since the hearing of the argument on the petithe Court. It would be filed as soon as

Chief Justice Fuller and Justices Field and Brewer dissented, After the Court had concluded the announcement of the opinion J. Hubley Ashton, of counsel for the Chinese, mov-ed for a rehearing of the case and an argu-ment before a full bench at the next term. At present the Court stands five to three in support of the law, Justice Harlan being absent. The Court took a recess to consider Mr. Ashton's motion, which was denied, so the decision stands

At their own Game,

NEW YORK, May 13.—Hundreds of circulars have been distributed of late in Eastern Penusylvania by New York green goods men who made the customary marvelous offers intended to excite the avarice of the unwary. Among those who received the circulars was James Gillespie, a commercial collector from Freeland, Pa. Gillespie had received such circulars before, and had communicated with the dealers, but not until last Friday did he have any serious in-tention of acquainting himself with the

According to the "confidential" in-structions, he opened up a telegraphic correspondence on Thursday and it resulted in his going to Newark yester-

He had meantime taken a confederate into his confidence. It was agreed that Gillespie should put up \$200 and receive in return \$1,000 in crisp notes. Along with what little money he took with him Gillespie carried a revolver. When he and his confederate arrived in Newark they met the green goods men as agreed upon and were driven in a hack for fiftionable looking hotel.

There they alighted, and the trio were met by another man, who conducted them to a room. A nicely wrapped bundle of notes was produced for inspection. It represented \$1,000. The man who conducted them to the room appeared sud-denly from another room. It was part of the game to distract the attention of the purchasers. Gillespie divined the scheme correctly, and, instead of taking his eyes from the package, he took a firm hold of it and produced his own wad which contained less than \$29. This he offered to the dealers.

The green goods confederate tried to work the flim-flam in exchanging the bundle for spurious notes. Instead, he found himself gazing into the barrel of a dangerous-looking revolver, while his as-sistant was likewise covered. Seeing that the game was up, the green goods men made a dash for the door, Gillespie and his companion escaped

through a window, taking with them the money as well as a roll of bogus notes which the green goods men had dropped. Gillespie later exhibited both rolls.

Electricity for Sale.

New York, May 11.—A syndicate was formed here to-day with \$4,000,000 capital for the construction and equipment of a line between Niagara Falls and Albany for the transmission of electric power generated by the Niagara Falls Power Company, with the waters of Niagara river passing through wheel pits into a tunnel, which has just been completed. The tunnel is 8,000 feet in length and twentyfour feet in diameter. The Niagara Falls side of the car. One of the robbers put his gun in and demanded the doors be opened. Under the promise of not being hurt the messengers opened the door and the robbers secured everything that was electric energy thus generated. The Magara Falls Power Company has expended nearly three years in the work. It now seeks a market for the electric energy thus generated.

lic road. There was no semblance of secrecy.—Special to Greenville News,

— Two thousand policemen are on duty at the World's Fair to preserve peace and the lives of the vigitors.

— Athens, Ala, has a curiosity in the shape of a twin chicken with two bodies, four legs, two sets of wings and two necks, which merge into one head.

Some of the dead nan will be made. Mr. Winne has incurred the enmity of some courted a girl and she agreed to marry him. He went to a magistrate and product the world's Fair to preserve peace showed that they poisond the pond for revenge. The police are making a thorough investigation.
