There was one thing about the fight for reform and honor that gave me hope and pleasure, and that was the stand taken by the young men of Anderson. The mejor-ity of them were on the right side. They showed that our civilization is advancing. It was not the young men, but the old men and the prohibitionists that stood in the way of temperance reform, and in support of the administration of "blind tigers" in Anderson. I'll bet that if a stranger from the moon could have been on the grounds and felt the hearty hand-shakes of the innumera-ble candidates, and saw their bright smiles flit over their benign countenances like the aurora borealis illumines the icy zone, he would have thought that the men of earth believed in the brotherhood of man. He would have never dreamed that behind those placid faces lurked the rufiled features of the devil-selfishness. He could not have seen that those frank lips shut in from view the tongue and teeth of guile and greed. But we of mundane life can see through things apaque. and hard money; but with all our power to pierce the strange, and large and hard, we even fail to see the limit of some men's cheek and self-sullciency. Last Sunday night we went to Cowan's tent meeting, and were we to report what we saw not one-half of the INTELLI-GENCER'S readers would believe it. They say that this tent, which is a pretty good sized one, will seat one thousand people. and if that be a fact there was eleven o

and if that be a fact there was eleven or twelve hundred people in attendance. The tent is about one mile from Pied-mont, beautifully located and easy of access, and people just flock to it, so to speak. There you can find most any kind of a man you are looking for—as lively as a cricket or as solemn as a jack-ass in a snow storm. Well, we approach the tent, quite a large number of people are already under it (the side curtains are all up and we can see good). The shades of night are falling fast, a man starts around with a step ladder and climbing up lights the lamps. We walk in and get us a seat. By this time every seat is occupied and still they come.
