WEDNESDAY, SEPT. 19, 1894.

There is a distinct difference between Democracy and Populism, on the silver question, as well as on all other questions. And don't you forget it.

The Boston Herald says it is authoritatively announced that Benjamin Harrison will not be a candidate for a renomination in 1896, unless the grapes are loosed within his reach.

The first snow fall in the United States occurred in Montana last Thursday. There was a deposit of over four inches. Is this an indication of an early winter?

Carl Brown, the irresponsible, is assaulting Jacob S. Coxey in his Congressional campaign in Ohio. He wears party colors, and receives all the attention he desires.

The Democracy of Georgia is making a grand fight against Tom Watson and his gang of Populists, and the people are cheering for the latter as they do for the former. There is no doubt that they will have some signs of life in the future.

Since the new tariff law went into effect the gold reserve in the United States treasury is increasing at the rate of about \$30,000 a month. This shows that business is improving, and the wave is already striking the South.

Every Southern Democratic State Convention that has been held this fall has endorsed the National Administration and adopted the National Democratic platform. Will the Convention that meets in Columbia to-day do the same?

A New York doctor advises bald-headed men to quit fooling with hair-fertilizers and if they want hair to grow, to have a haircut and give the sun's fair chance at their scalps. He insists that the sun is as good a hair grower as grass grower.

The Atlanta Constitution says that Secretary Carlisle has decided to sell the Government building at the World's Fair grounds and erect an entirely new one at the Atlanta Exposition. There is no doubt that it will be a handsome one, and Atlanta will have no reason to regret the change.

The temperatures of a victim of sunstroke in New York recently reached 110 and 120 degrees. The surgeons at the Bellevue Hospital reduced it to 101 degrees by bathing the man in ice, and the chances are that he will recover. The fatal heat has already been out about 105 degrees.

Reports received from the Atlanta Constitution's correspondents in several counties of Georgia show that cotton is suffering badly from the boll-worm. The cotton is rotting and the chances are unfavorable to the spread of the worm. No estimate of the damage to the crop can be made, as there is no telling how far the ravages of the worm will extend.

The Conservatives and dissatisfied Reformers in Darlington County have come together. They held a meeting on Monday last, and Township in the County being represented by one Conservative and one Reformer. They have decided to go to work at once and reorganize the Democratic party in their County. Other counties in that section of the State are doing the same.

The South Dakota Democrats are not the kind who believe in the Sugar Trust and Sugar Trust legislation. They informed the House Tariff Bill in the platform adopted by their State Convention Wednesday. More significant still, they followed the example of the Iowa and New Hampshire Democrats, and made a minority report in favor of free sugar and the issue of all paper money by the General Government.

The Cotton States and International Exposition to be held in Atlanta next year will afford an excellent opportunity for South Carolina to make known to the people of the nation the many inducements she can offer to good citizens who may wish to move into her borders. Droughts, fires, grasshoppers and other plagues are driving many good citizens from the west back eastward. Why should they not be induced to settle among us? If the State will not do anything, the Counties of the Piedmont section should take such steps as would make a proper advertisement of its natural and other resources and advantages at the International Exposition to be held at Atlanta next year.

The Atlanta Constitution says Mrs. Dr. Talnage, of Brooklyn, was very much surprised the other day to receive a legacy of \$10,000 from an old woman who was almost a stranger. It seems that the woman came to Brooklyn about two years ago and asked Mrs. Talnage for advice regarding medical treatment. The great preacher's wife interested herself in the case, and regularly visited the stranger until her death. Since the announcement of the legacy it has been discovered that the old woman was a wealthy widow who was working in the New England cotton mill. She invested her savings profusely, and in her old age lived comfortably, and had \$10,000 to leave to one who had been courteous to her. This little episode from real life shows that courtesy pays, and it also shows how hard working toilers in an humble sphere may accumulate competency. The story is full of lessons that are worth pondering.

The September report of the statistician of the National Department of Agriculture makes cotton show a decline of 5.9 points from the August condition, which was 62.8 against 56.9 for this month. The condition for the year 1893 was 80.4 and the September condition for the same year was 73.4, falling off 8 points. The September condition for this year is 12.5 points higher than that of 1893. The Statesaverages were: Virginia, 100; North Carolina, 88; South Carolina, 86; Georgia, 84; Florida, 82; Alabama, 80; Mississippi, 80; Louisiana, 81; Texas, 81; Arkansas, 80; Tennessee, 81; Missouri, 80. The principal cause of the decided decline in the condition since the last report was the excessive rainfall throughout the greater part of the cotton belt, producing too great a growth of weeds and checking the development of the fruit, also causing, shedding, rotting and rust. The general trend of reports is "too much rain and heat, causing too great growth of weeds and too little fruit."

Speaker Crisp, a man who has made a study of national affairs for many years, and in the city of Washington, surrounded by great lights, and who doesn't understand the financial question in all its details, Mr. Crisp should come over into South Carolina and stay awhile. He could secure all the information he wants, and we are acquainted with a few men who are always writing or speaking on the financial question, and advising this great government how to conduct its finances,

NO NOMINATIONS MADE.

The Democrats demand that Ocala be Renounced.

Special to News and Courier.

COLUMBIA, S. C., September 17.—The call of the committee representing the "true" Democracy received a most hearty response from all parts of the State. Thirty-one of the counties in the State sent representatives to the Convention to discuss the best policy to be pursued in making a fight for what they regarded as the true principles of Democracy.

The Convention was a representative one. There were men of all classes in it. Men who have at all times worked and fought for the liberties of their State. Men who are in earnest, but who are willing to counsel with each other as to the best policy to be pursued in the present crisis.

A day or two ago it was thought best that those who were in favor of the restoration of the Democratic party in this State, should hold a preliminary conference at Columbia to discuss the differences to be settled. It was thought best to borrow at least that much of their plans from their enemies and settle such differences, disagreements and contentions as there were behind closed doors. The differences would be settled without public discussion, at a conference, at which the delegates would be at liberty to speak as they felt regarding the chances of the ticket in their respective counties.

At half-past 5 o'clock the conference was called to order by Chairman Carville. The delegates all attended, and were in good business. At the time of meeting the delegates favoring nominations were in the majority, but they had no disposition to force their opinion upon the Convention, and were inclined to have a free and open discussion of the advisability of making a separate ticket.

Such of the newspaper men as cared to attend the conference as citizens and not as delegates, were invited to the proceedings and admitted, and on that account what said cannot be divulged. It is the result. There was no attempt at a gag law, and no five minute or any limit of debate prevailed, and every man had his own say, and every man spoke his opinion upon the situation.

After considerable debate at 2 o'clock a resolution was introduced which solved the problem satisfactorily, and after several fine speeches, by a vote of 120 to 104, nominations were postponed until the next meeting, but they had no disposition to force their opinion upon the Convention, and were inclined to have a free and open discussion of the advisability of making a separate ticket.

Such of the newspaper men as cared to attend the conference as citizens and not as delegates, were invited to the proceedings and admitted, and on that account what said cannot be divulged. It is the result. There was no attempt at a gag law, and no five minute or any limit of debate prevailed, and every man had his own say, and every man spoke his opinion upon the situation.

After considerable debate at 2 o'clock a resolution was introduced which solved the problem satisfactorily, and after several fine speeches, by a vote of 120 to 104, nominations were postponed until the next meeting, but they had no disposition to force their opinion upon the Convention, and were inclined to have a free and open discussion of the advisability of making a separate ticket.
