According to reliable reports there was less railroad building during 1894 than in any other year since the Civil War. The addition to the railroad mileage of the country was but 1,761 miles, or less than 1 per cent, of the entire mileage. From 1880 to 1890 an average of 5,000 miles of new track was laid per year, but from 1890 to 1893 the average dropped to 4,000 miles. These figures are especially interesting in comparison with the prospects for railroad building for 1895. A revival of activity is reported. There are at present 20,547 miles of new road in course of construction or about to be built. The 20.547 miles of track comprise many new short lines and extensions on old roads in forty-six States and Territories. The State of Texas takes the lead with a proposed mileage of 2,913.

Mr. Sherman said in his speech when he took the chair in the Zanesville convention the other day that there were Democrats not a few who would vote next fall with the Republicans on the tariff question. Evidently, Mr. Sherman has been "reading up," but has confined business men have set their faces against any general revision of the tariff for years to come. There may be defects in the Gorman bill, which will need to be corrected as soon as possible, but the tariff, as a whole, will be allowed to stand for years as it is. It cannot be revised in full without interfering seriously with business, and so no attempt will be made thus to revise it. Ohio may declare for a new protective tariff, but when the roll of States is called it will be found that there are few to follow her example.

of peace and of prosperity, due almost entirely to her wise and vigilant Presi-dent, Porfirio Diaz. He has shown him-

self to be one of the wisest and best statesmen this Republic has ever pro-duced. He is a friend to Protestants,

and secures to them every right and pro-tection promised in the Constitution of Juarez (1857) and the amendments of

ources of his country.

The last of May this writer had the

great pleasure of entertaining for a few hours Messrs. J. K. and F. W. Croswell and E. P. Ricker, of Sumter, S. C. These gentlemen attended the Confederate re-

mion in Houston, Texas, and came from

there on the excursion to Mexico. It was a genuine pleasure to the writer to entertain genuine South Carolinians under his roof here in Mexico.

An Equal Division.

If those who are antagonizing the divi-ion of delegates to the Constitutional

Convention and the restoration of peace

hope for success, it would appear that they had better get to work spreading their "pizen." Chester and Kershaw have fallen into line and definite and presum-

ably final action has been taken in these counties looking to a division of dele-gates, notwithstanding the direct as well

gates, notwithstanding the direct as well as the evasive instructions not to do so. There might be a good deal in getting up a fight as long as there are remunerative offices for distribution, but it would appear that there is going to be a difficult task ahead for those who want to get up a contest merely for their own advertisement. These have recently been a number of the second of the se

ment. There have recently been a number of incidents to show that the people

generally do not care to have a general scramble for the election of delegates to the Constitutional Convention.

Looking at the matter in a purely utilitarian way, and leaving out all patriotic considerations, there is no reason for a fight over the delegates. In a majority

of the counties if a fight is precipitated it would naturally come from the Reform side, as the Conservatives are willing to

accept an equal division. It will have to be the Reform faction that refuses to

make such terms, and it would appear that there is no mad rush to have such a

fight on someone else's account. It is rather warm and tedious to make the

ontest, and it is so much easier and bleasanter to divide the delegates and se-

ect good, strong men in whom all have

onfidence. There is no money in being

lected to the Convention, as the pay is

ery small, and there will not likely be

a break-neck scramble on either side, and

without this there is not so much occa-sion for a fight at the election. The aver-

age man will not continue to ask himself

what he has to get out of a refusal to

divide the delegations and precipitate a fight which he knows will do him no

good, and he is rather likely to come to the conclusion that candidates can wait

until an election year, in which there are offices for distribution, before the con-

tentions of a campaign are started.—Co-lumbia Cor. News and Courier.

November. The rains are now general all over Mexico, so that the promise of a good crop is very flattering. An abundant harvest this year, with that of last year, will do a great deal towards alleviating the want and suffering caused by the previous five years drought. As a natural result of last year's good grop, business is improving all over give Mexico plenty of rain she is one of the most productive countries in the world. As a natural result of last year's good crop, business is improving all over the Republic, and especially in the mining districts. Mining here, as in all countries, is dependent upon agriculture for its support. When crops are good mining prospers, but when crops fail mining practically ceases. Of course, it is a cause for general rejoicing now that the mines are running again. This is true not only of mines suspended the past kept. In the Clerk's office we find that the Sessions papers are not provided with cases and are in danger of becoming misplaced or confust, and we recommend that the Clerk be supplied with cases for these papers. Some of the books of record need rebinding and the Clerk should be naturally think that where silver is mined that the great majority of the people would be presperous and well to do, but such is not the case, so far as Mexico is concerned. On the other hand, they are very poor, and barely have enough upon which to exist. Of course, I speak of those who labor in the mines. It is quite natural to suppose that the owners of the mines are rich, which is generally true. And this brings me to remark that the wealth of Mexico is largely in the the wealth of Mexico is largely in the hands of a few. Murdered by Constables.

SPARTANBURG, June 28 .- Last night a fight took place on the Howard Gap road, about five miles from Spartanburg. The constables had heard that a load of whisconstables had heard that a load of whiskey was coming from the direction of
Polk County. Constable Eichelberger
sent out Constables Pettigrew, of Fairfield, Toland and Byars, of this County,
and a man by the name of Stevens to
intercept the wagon. They met it in the
road, about five miles from town, not far from the scene of the recent Pisgah fight. The constables divided their forces and made the attack in front and rear. One of them in front ordered a halt and surrender, stating that they were State officers. Some one in the wagon said, "All cers. Some one in the wagon said, "All right;" but before, they had time to dismount and deliver the wagon and contents a pistol was fired, and Pettigrew fell. The firing then became general.

When the smoke cleared away it was ascertained that Jack Fishes, and Bill Durham, of Tryon, N. C., were killed. Pettigrew was very severely wounded with little chance of recovery. Toland was shot in the breast, but the ball ranged round and the wound is slight. It is also said that youth by the name of Brown, a driver of the wagon, was wounded.

a driver of the wagon, was wounded. One of the mules drawing the wagon was shot and it is believed that he will die. Stevens was left in charge of the wagon and whiskey. Toland came on to town last night. Mark Durham, a brother of Bill Durham, is in town this morning. He was in the neighborhood at a private house. Fisher and Durham were shot in the wagon and fell back with their heads resting on a whiskey barrel. There they were to remain until the coroner arrived The Fisher family is rather a prominent or rather a notorious one about Tryon. Physically they are fine specimens of mountain manhood. Durham was a relative or special friend of the Fishers, and they could always count on him when they needed help. They had two barrels of whiskey and perhaps more in the wagon. It is not known what the destination of the whiskey was. No one from the city was mixed up with it in

any way.

It is said that Pettigrew cannot live.

The coroner held an inquest and the verdict was that Fisher and Durham came to their death by gunshot wounds at the hands of parties unknown to the jury. The constables refused to give tes-timony and there were no other witnesses. It is believed that Fisher and Durham did not fire at all. Their guns

The constables had heard that whiskey was brought to that neighborhood and there distributed to wagons that carried it to different points. For several nights they had been watching the roads. They somehow received information that Fisher was coming down Thursday evening.
Toland and Byers, from this County, and Stevenson and Pettigrew, from Fairfield County, went out to intercept the

wagon. They were well armed. They seemed to have a special desire to cap-ture Fisher. One of the constables seemed anxious to have an encounter with The statement of the constables and the evidence before the coroner's jury indicate that Fisher and Durham were instantly killed without firing a shot. In the great confusion the constables, believing that there were men outside of the wagon using firearms, would easily mistake their own men for the enemy. Some believe that all the shooting was done by the constables. There was no evider before the coroner on this point. Both times. It is believed that there was an outsider or two with the wagon, or that two men from the neighborhood had ridden out to meet the party, for a horse with bridle and saddle on was discovered near the wagon. The grey horse which was found next morning was tied to the hind end of the wagon and his rider was walking with his companion, in the rear. They were unarmed, their guns being in the wagon. When the shooting was going on they were afraid to approach, as they had no arms. When it was all over they were more afraid, as the constables had possessing of the wagon. who these men are. Byars and Stevenson surrendered to the sheriff, but he would not take charge of them without a warrant. Later in the day a man by the name of Robinson from the Tryon neighborhood swore out warrants for them, and they were arrested and put in jail. Pettigrew was brought to town last night. He may recover, but

There was some talk of trouble here last night, but it was only talk. No one in town will trouble the constables when in the discharge of their duties, and there is no danger of a mob from the country ing in and making trouble. Our people are simply watching events. Henry Rutledge Shot.

GREENVILLE, S. C., June 29 .- To-night GREENVILLE, S. C., June 29.—10-night at half-past 8 o'clock J. D. Lewis, a conductor on the C. K. and W. Railway, shot his brother-in-law, Henry Rutledge, who will probably die before morning. The shooting took place at Rutledge's house, about a hundred yards in the rear of the News office. The trouble between the two men was caused by Lewis leav-ing his wife, a sister of Rutledge. Mrs. Lewis made an attack on a girl named Lytton, with whom she accused her hus-band of being too intimate. The Lytton girl is the daughter of respectable parents, and went wrong a year or two ago For some time she was an inmate of a house of ill fame in Charleston. Rutledge deals in ice and keeps his stock in the cellar of his house. Bad blood has existed for some time between

he two men, and Lewis went to Rut ledge's house to-night and found the latter in his ice cellar. They had some words, and Lewis drew his pistol and fired three shots, each taking effect. One passed through the right lung, another in the shoulder and one in the side.

CHARLESTON, June 27.—Judge Simonton entered a formal order of record in the United States Circuit Court here today in the Donald liquor case, refusing to modify the injunction order in the Donald case, and refusing to suspend it until hearing on appeal by the Supreme Court of the United States; and affirming the former position of the Court that all persons in the State of South Carolina can now import into the State beers, ales, now import into the State beers, ales, wines and spirituous liquors for their own use and will be fully protected by the Court in the exercise of this adjudged legal right to bring liquor into the State for their own use.

Tillman Goes Back on Tillman.

Senator T.llman evidently does not in-

He has gone back on all his promises, on his own written agreement, on his oft repeated public declaration that he decase from the U.S. Court authorities in sired only the peace and prosperity of the State. Neither his political friends nor opponents can ever believe anything that he says again. He will not keep his word, not let those of his own political he will not let those of his own political way of thinking keep their word. It is his purpose to defeat the efforts which have been made looking to the unity of the white people of the State, and upon his head, soon or late, will the people visit condemnation. In his recent interview published in the newspapers, in which he repudiated the agreement which he made with some of the Conservatives in the State, and in his speech at Edgefield yes State, and in his speech at Edgefield yes terday, in which he advised his followers in that County to repudiate the agreement which they had made, he established his own character beyond recall.

But because Mr. Tillman has violated his pledges to the people of the State and Governor Timmerman and Senator Wat-son, of Edgefield, all honor to them, good and true "Reformers" as they are, pro-tested against the defeat of the resolutions providing for equal representation in the Constitutional Convention. There should be enough Timmermans and Watsons in every county in the State to send men to the Constitutional Convention who will not consent that the Constitution shall be made a partisan instrument for the uses of any political faction. All good men, whatever their past differences, should come together and work together for "equal rights to all, special privileges to none." Mr. Tillman cannot be trusted either by his friends or his enemies -News and Courier.

His story coincides with that of Mrs. Nobles, except he declares the murder was committed behind the barn, and three licks caused the death. One of these was struck by Mrs. Nobles herself. Mrs. Nobles, her daughters and the negro have all been arrested.

- Prof. Hunicke, of Washington University, St. Louis, is about applying for a process by which, he claims, \$10,000 worth of gold can be obtained from sea water at thad three guns in the wagon, all loaded. The constables say that they agreed to surrender when requested. They also report that someone fired the first shot from the wagon, or from the rear of it, they could not tell which. The firing was yery rapid, the constables shooting was yery rapid, the constables shooting that they agreed to surrender when requested. They also report that someone fired the first shot from the wagon, or from the rear of it, called for, though spirits refuse to come.

Another New Move.

The fight against the dispensary law has taken still another turn, going even beyond the complaint filed in regard to the monopoly, which has heretofore been referred to. Deputy Marshal Thornton Charleston, for service. The members of the State board of con trol are now being sued in the U. S. Court for the recovery of seized liquor. The case is brought by Messrs. Murphy,

Farrow & Legare of Charleston on behalf of Julius Lowenstein, doing business at Statesville, N. C., under the firm name of Lowenstein & Co. He sues the members of the State board of control to recover a barrel of whiskey shipped by his firm to Thomas Hartiman of Charleston. He alleged that the whiskey was seized in Columbia by parties unknown to him, but who are agents of the State board of control, and aiding in carrying out a monopoly to prevent and interfere with inter-State commerce. He alleges also that the barrel of whiskey was worth it Free. Call on the advertised Druggist \$57.38, and the complainant would by reason of this seizure suffer damages to name and address to H. E. Bucklen & Co., three times that amount. He asks for this amount and costs. This proceeding King's New Life Pills Free, as well as a is in line with the new move made a few days ago to fight the law on the monopoly feature—on the ground that it is violation of the anti-trust law—though the difference in the character of the two proceed ings is easily discernible. The only member of the State board of control in the city yesterday was Secretary of State Tompkins, and the papers were served on him.

The State will set up a defence, it is understood, that the State cannot be sued, and that this is in effect a suit against the State though brought against her officers

as individual members of the State board; and further, that the constables are not agents of the board being on the contrary officers created by statute just as a trial ustice or any other officer.

A feature of this case is that the liquor question has been seized by the United States government, and is now in the hands of the government officials, the liquor having been shipped in a barrel bearing a stamp already used. It is stated that a proceeding has already been commenced against the shipper for viola-ting the United States revenue laws in shipping it thus .- Columbia State June 25.

- American naval officers now in Washington who were recently in China tell of a day they spent ashore looking for sport; for a few yen, amounting to about four cents, they secured the services of two Chinamen to fight for their entertainment. The fight went on bravely, and as ights go in China, not being up to the American hippodrome style, one of the binese was whipped. But he was angry. As he moved away from the scene of combat he found a stone, and, turning upon his late antagonist, struck him a low that killed him. The murderer was peedily beheaded, but the authorities deided that it was no concern of the American officers if a murder resulted from their pian of amusement. One of the younger officers remarked: "We not only got a fight, but a killing and an execution.

to talk with a friend? Other people say they have more time than any thing else. A .- We don't have time to talk

because our customers, who are really our employers, demand our very best services for their money paid.

Q-Why is your house forever crowded with goods new and customers bright?

A .- We are always crowded with goods because our employers (cuatomers) are usually on hand demanding the stuff, and we must have it for them. We are usually crowded with customers because the average man knows which side his bread is buttered. We acknowledge no dead, dull

Q .- Why don't you employ more help, and not keep so pushed all the A .- Ah! There's the point. Why

on't we do lots of things to make our business more expensive and charge the difference to you when you trade with us? Right here's where Physicians' hundreds of good men drop their candy.
