Speaking of cotton manufacturing in the South, R. H. Edmonds, editor of the Manufacturers' Record, says: "It would over \$1,000,000,000 of capital to build and equip mills enough to consume all the cotton the South now raises, and if the South could manufacture at home all the cotton fields turn out, the product would be worth to that section about \$1,200,000,-000 a year, instead of selling for an average of \$300,000,000 a year, as it now does.

Newspaper men are probably tough They have to go through the rough-andtumble programme that falls to the lot of most of them. But one of the tougheat on record is that pencil shover in New York, who for twenty years has been carrying around in one of his lungs an inch and a quarter screw, which he inadverently swallowed at that time. Now he is going to turn the X rays on it and hunt it up. It isn't every newspaper man who could raise an X even for that

The spectacle presented the other day in a civil court in New York was a millionaire landlord urging a justice to dispossess a poor family from one of his tenements because there was \$1 due him for rent. The judge was indignant. He asked the milliouaire what he meant by such cruelty, but the heartless landlord ey. The judge then paid the dollar due for rent to the meanest millionaire on earth, while the spectators chipped in and gave the poor laborer enough to tide him over until the clouds roll by.

Chief Moore, of the weather bureau, has made a special report to the secretary of agriculture with regard to the actual money value of cold-wave warnings to the people of this country, with special reference to the cold wave of Jan. 2 to 5 of the present year. That was one of unusual severity, spreading over the entire country east of the Rocky Mountains, with the exception of the southern portion of Florida. At every weather bureau station throughout this region the cold-wave flag was displayed, and the warnings were distributed at least twenty-four hours before the cold wave ocurred. Reports received from 102 stations indicate that these warnings were directly instrumental in saving property exceeding \$3,500,000 in value, suitable for oultivation.

COUNTY CONVENTION.

The County Democratic Convention was held in the the Court House last Monday at noon and was called to order by County Chairman W. T. McGill, who stated that the object of the Convention was to reorganize the Democratic party, and elect delegates to the State Conven-tion, which is to convene in Columbia on Wednesday, 20th inst.

The Chairman suggested that a tempo-

rary secretary be elected. On motion W. E. Lee and W. H. Shearer were elected temporary Secretaries.
Chairman McGill stated that some confusion had been caused by the basis of representation in the Convention; some clubs had elected on the basis of the club list and others on the basis of the vote of their respective clubs in the last primary. He read Sec. V of the Constitution and said the matter was now before the Con-

did not open their box, and the members went to other places to vote. H. H. Watkins was opposed to Pearman's motion, and said the trouble was in the interpretation of the Section. W. A. Neal, as a substitute for Mr. Pearman's motion, moved that all the delegates who had been elected to the

Convention be seated, as he did not want any contest over the matter. He said the Section of the Constitution could be construed both ways. Mr. Pearman accepted the substitute and Mr. Neal's motion was adopted, after being discussed by a number of other delegates.

A. T. Newell moved that the delegates from those Clubs which had not elected their delegates according to their Club

list, be allowed to add the number of names entitled to, or vote their full strength. Adopted.
The chairman called for list of delegates, and the roll was completed as follows:

We regret that we are unable to give much information in reply to inquiries with regard to Kaffir corn, the new grain pecially since 1892, has been such as to | whose large and increasing cultivation in the Western States we noted a few days sgo. We find in the Southern Planter, however, some facts stated by Mr. F. D. Coburn, secretary of the Kansas department of agriculture, showing its yield as compared with Indian corn, which are of

point to a straddle policy being again adopted on the money issue which renders it extremely dangerous for the people of this State to assume obligations that will For six years the Kansas experiment station at Manhattan has grown Indian corn and "red" Kaffir corn side by side force them to support their enemies at the ballot box; and whereas, it is of for the purpose of testing the compara-tive yields of both fodder and grain. The supreme importance to the interests of our State government that the unity of the white people be maintained in the State Democratic primary; that being table of results compiled by Mr. F. C. Burtis, of the Station, shows that the average yield per acre of the Kaffir corn for true Democracy in allowing every man to express his choice in nominating confive years was 55 bushels of grain and 4 3-4 tons of fodder, as against 39 bushels of grain and 3 1-2 tons of fodder for the Indian corn. In 1895 the yield in grain gressmen, State and county officers; and whereas, the situation as it exists now in both National and State politics makes it of the new corn doubled that of the old. imperative on us a party to preserve the The average shows that the Kaffir corn yields 40 per cent more grain and nearly 95 per cent more fodder than Indian corn. vorcing entirely our attitude toward the National and State parties by removing any apparent obligation that rests on the voter in the State Democratic primary to In 1894 the grain of both failed, the ex-In 1894 the grain of both failed, the experimental crops having been planted "on a poor upland prairie soil underlaid with hard pan," and having missed rain from the middle of July to September 1 In these conditions the Kaffir corn yielded two tons of fodder to the acre and the Indian corn one ton. Mr. Burtis reports 1st. That in electing delegates to the National Democratic Convention at Chicago, the Democratic voters of Anderson that such dry weather kills the Indian cago, the bemotiator voters of kinds of the county, being the foundation of party and the source of all power, reserve the right to themselves to review the action of the corn and it must then be cut, but the Kaffir corn lives on; "although the growth may be checked before the crop Chicago Convention and in no way at this time bind themselves to support its

Although there is a great deal said about which is the best, the red or the white, I believe when the proper comparison is made the conclusion will show but little difference, at least not as much as was first supposed. Aside from the color there is a much greater difference between the different strains of the same variety than there is between the red and white varieties. A few who have kept their seed pure and carefully selected can testify to this when they have been, for some reason, forced to buy seed outside and got hold of some poor stuff. These sorghums are very susceptible to cross fertilization and modification, and there will be a rapid improvement or deterioration, according to the care that is exercised in selection of seed. Much of the Kaffir corn seed that a very pleasant time and very sweet is offered for sale is not the best. One may get as much difference in results from Kaffir corn seed produced from two

ources as between a very good variety of corn and a poor one.' While the subject of "something better" than corn is under consideration it is instructive to note briefly the experience of a Virginia farmer with another crop which is little known in South Carolina, we believe. Mr. W. H. Wilson, of St. Bride's, Va., writes to the Southern Planter that he has five reasons for planting more soja beans" than corn, as follows:

times better for producing milk and butter than corn."
Some of our farmers make but a poor uccess growing corn on upland acres in dry seasons. They might try Kaffir corn or soja beans, or both. Now is the time

This estimate is based upon figures given by the dealers and by conservative aproximations. At an average of \$50 apiece this would mean an investment of \$2,000, 000; but it is fair to presume that one-half of the total number of wheels cost the owners \$100 each, which alone would make an investment of \$2,000,000. If the

other half cost an average of \$50 that would make the total amount invested in bicycles by citizens of Washington \$3,-000,000.

Last Saturday we decided to take a trip. So in the afternoon we pulled out from Belton and made a bee line for our best girl's. When we arrived we found her at picnic. So you see we were in the clover. We found her in the kitchen with her sleeves rolled up and a white spot on her nose like she had been trying to root the bottom out of the flour barrel. She greet-ed us cordially, and some of that same white stuff was transferred to our sunburned nasal organ. Then she spread a delicious feast before us and we certain did justice to her dainties. After we had satiated our appetite, she got a volume of "Sweet Auburn" and carried us down to the spring to soothe and comfort our troubled spirit. Our mind wandered back to the spring in North Georgia where we have often sat listening to the musical voice of one who was all the vorld to us. And we could not restrain the tears that stole down our tanned features. It was like some fairy dream to sit and listen to ber as she read about "The Deserted Village." She glanced up and said, "Sam, what is the matter with you?" and then we told her "our little tale of woe," and she talked to us so gently and kindly that we are made stronger ly and kindly that we are made stronger and are prepared to resist the many temp-tations that surround us. We believe the girls could accomplish much for the cause of Christ if they would only let us bad fellows know that they are a friend to us and get us in a corner once in a while and lecture us. A Big Pic Nic.

EDITORS INTELLIGENCER: Please be so kind as to give space to the following in your locals: The Zarline Island pic nic will be on the 3rd Saturday of this month. The island is convenient to Belton and Due West, Honea Path and Level Land, and midway be-tween Anderson and Abbeville, and is becoming quite popular as a pic nicing ground. It is a romantic spot, lovely as deep, cool shades and gurgling springs can make it. Four prominent preachers, four learned lawyers and four eloquent editors have been invited to address the people on that

In Favor of a Poultry Show.

Mr. EDITOR: I agree perfectly with your suggestion to have a poultry show in Anderson this autumn. By all means let us have one. Our neighboring counties of Abbeville and Greenville hold them. Don't let us be behind. Fancy poultry breeding has reached large proportions in the South, in the last 4 or 5 years, and is increasing rapidly. We have competed with Northern exhibitors and have carried off a generous share of the blue and red ibbons. We have as good stock in South Carolina as there is in the world, and some of the finest of this fine stock is in Anderson and adjoining counties. Mr. E. C. Conner, of Cokesbury, is a notable breeder, having carried off first on Langshan Cockerel at the Boston poultry show last winter. South Carolina has taken first prize at several Southern poultry shows. There is some fine stock in Anderson County, that we are sure would be a revelation to the lay people of the county. Why not have a column in the INTELLIGENCER de-

voted to poultry culture?

J. F. KILLEBBEW. Belton, S. C.

EDITORS INTELLIGENCER: I have had my attention called to an article in last week's INTELLIGENCER advocating a poultry show, (say next fall.) I write this to say that I am in sympathy with the movement and wish it success. I have had some experience in the matter of poultry shows and can see no plausible res very entertaining show cannot be held I knew of enough fanciers in reach of

Anderson to get up a very creditable dis-play of thoroughbred poultry.

I feel sure our sister counties of Abbeville, Oconee, Greenville and Pickens will lend a belping hand.

A poultry show is a wonderful educator and stimulates the "boys" to greater diligence in breeding fancy stock. Let's have an expression from all who feel an interest in fancy poultry and pet stock.

If this meets the approval of the fraternity what say to having a meeting some future. (say Salesday in July or August,) and consult and consider

What say you gentlemen? Frateroally, JOHN L. JOLLY.

Belton Items.

Belton Democratic Club No. 2 met Sat urday afternoon and elected delegates to the County Convention. The old officers were elected to serve for the ensuing two years, as follows: Jas. W. Poore, President; J T Rice, Secretary; Dr. W C. Bowen and D. A. Geer, Vice Presidents.

Misses Eva Murphy and Cora Gaines, of Anderson, have been visiting friends Mr. Wenck, now agent for the Southern

Railway at Blythewood, and formerly assistant operator at this place, is spending a few days in town.

Miss Mattie Brown has returned from Greenville
Mr. J. Ed. Poore left Monday to enter

upon his duties as clerk for the Evans Pharmacy.
Camp Anderson, Confederate Veterans, held a meeting Saturday to discuss the question of attending the reunion at Richmond. The indications are that a consideration of the constant of the constant

erable number of the veterans and others will go from this community.

Dr. Geo. T. Brown has returned to Atlanta, where he will resume the practice of his profession.

The hardest rain of the season fell about

noon Monday.
Miss Minnie Cooley, of Hagood's, is Miss Minnie Cooley, of Hagoods, is visiting relatives in the vicinity.

The Masonic Lodge has been reorganized and is now in a very flourishing condition.

Col. L. E. Campbell is the presiding officer.

According to a recent schedule the northbound freight train leaves Hodges at 6 a.

m. and connects here with the 8 c'clock train for Anderson, and makes a return connection in the afternoon, which arrangeconnection in the afternoon, which arrangement is quite a convenience to travelers to and from points below here. Belton sent a very large delegation to the pic nic at Cooley's Bridge Saturday. Miss Lella King, of Piedmont, who has been boarding here and attending school, has returned to her home.

Townville.

R. S. Fant, our efficient revenue officer captured Dr. W. E. King and keg of whiskey one night last week. The violators of the law may think that they can escape Mr. Fant but they can't. We hope that all violators of the revenue laws will take warning by this.

The Townville Baptist Church will send their pastor, Rev. J. F. Singleton, to the Southern Baptist Convention. W. J. Wooton, of Oakdale Church, made us a nice Sunday School talk on last Sunday.
Dr. Arlington Milford, of Abbeville, attended Church here Sunday. He is up visiting his mother, who has been in bad ealth for some time.

Mr. Thos. Bibb, Treasurer of Ocones Mr. Thos. Blob. Treasurer of Coones County, has been visiting his kinsman, Mr. J. A. Gantt, near this place. Miss Claude Parker and Mr. Pruitt, of Honea Path, paid Townville a flying visit last week. We had the road machine and Mr. Gilmer last week. The road machine does beautiful work, and we think in three years we will have the best worked Snelgrove in another term, so that he can complete the work that he has started. The Democratic club of this place elected a full silver delegation

county Convention which met last Monday.
We have had glorious seasons in this section and every thing is growing and expanding and spreading—candidates as well as crops.

Mr. Editor, you see how quick Gen.

Weyler turned Rev. Disz loose when we got after him. The Gen. relieved us of

oing down there and attending to him We hope every county in the State will send a solid silver delegation to the State Convention. OLD ROSIN DE Bow.

Moscow Items.

Mr. S. O. Jackson was working the roads in this section last week. They are in a better condition than ever before. The new Methodist Church at Starr is going up very fast, and will soon be fin ished. The contract was given to Mr. Lipford, of Anderson, for \$1.100. Mr. C. M. Gray was at Mr. L. E. Ste phenson's Saturday night. Charlie is a dashing young man, but he doesn't have it all to himself.

Mr. F. W. Banister is the father of a

bouncing boy.

Mrs. Nancy McPhail has been very sick the past week, but is better at this writing.
Misses Mamie and Mallie Banister while on their way to preaching at Heb-ron Sunday, the mule ran away with them and threw Miss Mamie out. No serions damage done. Mr. Ernest Lev-erett took them back home. The Hebron school vacated Thursday, and a picnic was held on the grounds Friday. The participants were mostly the patrons and scholars.

The closing exercises of the school at
Carswell Institute was held Friday night. A wagon load of sixteen young people from this place attended it. They had some very fine music rendered by Miss Carrie Gray on the organ and Mr. Rail-

road Price on the violin.

Messrs. Charlie and John Gray and Rev. Foster Speer went over to Mr. Ban ister's Monday night. ister's Monday night.

While three young men were out calling Monday night, their quadruped got loose and wandered to more fertile fields. Up to this writing (Tuesday) John hasn't nd his mule. Mr. John Gray went to Anderson Mon-

day. Mr. G. W. Speer, of Lowndesville, 18 visiting in this community.

Pendleton Items.

The base ball team of Pendleton is now booming as usual. It went out on last Friday to play a game with some country Lebanon Church, and, as isual, she was beaten very badly but no to the surprise to anybody in town. The Lebanon boys had the honor to carry off the scores, while Pendleton boys had the honor to carry off the girls, flowers and compliments. The Pendleton boys are surely in it with the girls down there, if not with the scorers, although we are more than anxious to meet the boys again, and and are expecting to have a game with them on Saturday, May 9th, with the Leb anon boys and not with Trinity. We beg anon boys and not with Trinity. We beg the boys to bring their own team and not Due West, on this central spot and all have a good time.

The island is on Little River, just where the bighway leading from Anderson to be willing to play anybody's team

As to Pensions.

Bowen. N. S. REEVES, Clerk.

As has already been stated the increase of the amount appropriated for pensions from \$50,000 to \$100,000 has caused many thousands of people to make applications and hundreds of them are bound to be disappointed. There are hardly enough application blanks to supply the demand. The Comptroller General estimates that The Comptroller General estimates that there will be at least 7,000 applications, whereas, under the old law, there were only about 2,000 who received pensions, Iustead of being increased, there is every probability that the number of pensioners will be decreased While the law doubled the appropriation, it divided pensioners and amounts they were to repensioners and amounts they were to recive in certain classes, which, if paid, would soon dispose of the the appropriation entirely even in one class. The law also provides that where a man has a net income of \$100 yearly from any source he shall not have a pension, but there are a great many who have that income and more yearly, who are making applications. None such will receive pensions, but there seems to be a general idea that almost every Confederate soldier can come in, while, as a matter of fact, the number of pensioners will be increased very little, if at all. If it is increased certainly pensioners will not get what is provided for in the Act, because the board is allowed to scale it down which will have to be done if there is much of an increase in the numbers.—Columbia
