It is understood Mr. Fant and his wife intend to move to Walhalla in January next, and make their home here in the future. A hearty welcome awaits them —Keowee Courier.

The Seneca correspondent of the Wal halla Courier, under date of the 7th inst., says: "And still the stealing goes on. A bale of cotton was stolen from Mr. J. H. Brock, whose home is near Pendleton, early this morning, by a negro who worked on the place. A telegram was sent Mr. J. A. Brock at this place to watch out for the negro. He was captured without much difficulty and the cotton taken back to Pendleton."

At a meeting of the City Council yesterday afternoon the fellowing resolution was adopted: "Resolved, by the Mayor and Aldermen of the city of Anderson in Council assembled and by authority of same, that we recommend that all persons within the corporate limits of the city of Anderson, S. C. be vaccinated at the earliest time possible." This is an important matter and our people should carry out the recommendation of the city authorities.

On Monday last Joe Brown, colored, about thirty-five years old, an operative in the Excelsior Oil Mill ginnery, was caught on a piece of shafting, whirled over and over and thrown against a post. One of the small bones of the leg was broken and he was considerably bruised. Dr. Harris repaired his injuries and he is now doing all right. This accident was caused by a pair of ragged over-alls, shreds of which were caught and quickly twisted around the shafting.

The Abbeville Press and Banner says:
"The railroads have reduced freight on manufactured goods from this section from sixty cents to forty-nine cents per hundred pounds to Philadelphia, New York and Boston. This set no doubt, buries the Abbeville, Due West, Belton and Pelzer Railroad. The reduction in freight will in the aggregate amount to an enormous sum—forty or fifty dollars a week for Abbeville's little mill. The saving for the large establishments of Piedmont and Pelzer would make a good fortune every week."

The Cotton Growers Association, which was organized in this city on Salesday, adjourned to meet again next Monday, as will be seen by referring to the call of President D K Norris inanother column. The meeting should be well attended, as a report will be made from the Convention now in session in Atlanta. All of our peo-ple are interested in this subject, and An-derson County must be in line ready for action when the time comes. Come to the meeting and lend it your encouragement and assistance

White died in Spartanburg last Monday morning, after a long and painful illness. He was born near Lowndesville, and was about 67 years of age. In his young manhood he married Miss Mary Moseley, who, with four daughters, survive him. Capt. White served through the war in McGowan's brigade, and was a brave soldier. He was severely wounded at Spottsylvania and Gettysburg. After the war he merchandised at Abbeville until 1877, when he moved to Greenville and took charge of the Exchange Hotel. desville, and was about 67 years of age. A few years ago he came to Anderson and engaged in the hotel business here for several years. From here he moved to Spartanburg to take charge of the Windsor Hotel, of which he was manager at the time of his death. His remains were carried to Greenville and interred yesterday Capt. There are some people who have a sagecity and foresight considerably in ad vance of those around them, which not vance of those around them, which not infrequently emanates from native talent, and is not the result of methodical mental training or wide observation. To this latter class we believe belongs our friend, Oliver Bolt, familiarly known to his friends as "Duck" Bolt, and whose farm home lies about three miles west of farm home lies about three miles west of Anderson. As soon as it became a settled fact that an electric plant at Portman Shoals would be developed, and that the pole line would pass within half a mile of his house, he determined to operate his public cotton gin by electric power. To this end he entered into a contract with the Anderson Water, Light & Power Co. for sufficient power to operate a 20-horse power electric motor, sold his steam engine hought the electric motor, set it in gine, bought the electric motor, set it in position and adjusted his machinery to it, and when the current was turned on about the first of last month, had the satisfaction of seeing his enterprise a complete success. This is, in all probability, the first cotton gin in the world to be operated by electrical power, and when it is considered that Mr. Bolt is a plain, unassuming farmer, with no knowledge of electrical power except what he has observed here at home, he deserves more than ordinary credit for his enterprise The fact that this gin was his enterprise The fact that this gin was being operated by electric power had the effect to increase the patronage of the gin, and if the current could have been turned on earlier in the season, we are informed that his patronage would have doubled. In this enterprise Mr Bolt sets a pace for the farmers of this State, indeed for the entire cotton growing States; and we shall expect to see many farmers following closely in his wake in the near future. Electric power has the advantages over steam of cheapness, neatness, convenience, less liability to fire and perfect safety for night operation. night operation.

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost dreadful condition. My skill was almost yellow, eyes sunken, tongue coated, pain continually in back and sides no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man three weeks, and am now a well man I know they saved my life, and robbed the grave of another victim." No one should fail to try them.
